Faith, Health, and Healing in African American Life Stephanie Y. Mitchem, Emilie M. Townes, 2008-08-30 Black Americans are more likely than Whites to die of cancer and heart disease more likely to get diabetes and asthma and less likely to get preventive care and screening Some of this greater morbidity results from education income level and environment as well as access to health care But the traditional medical model does not always allow for a more holistic approach that takes into account the body the mind the spirit the family and the community This book offers a better understanding of the varieties of religiously based approaches to healing and alternative models of healing and health found in Black communities in the United States Contributors address the communal aspects of faith and health and explore the contexts in which individuals make choices about their health the roles that institutions play in shaping these decisions and the practices individuals engage in seeking better health or coping with the health they have By paying attention to the role of faith spirit and health this book offers a fuller sense of the varieties of ways Black health and health care are perceived and addressed from an inter religious perspective Community and religion based initiatives have emerged as one key way to address the health challenges found in the African American community In cities such as Atlanta Baltimore Dallas and Oakland residents organize exercise groups teach one another how to cook with healthy ingredients and encourage neighbors to get regular checkups Churches have become key sites for health education screening and testing Another set of responses to the challenge of Black health and healthcare in the United States comes from those who emphasize the body as a whole body mind soul and spirit often drawing on religious traditions such as Islam and African based religions such as

Spiritism Santeria Vodun aka Voodoo Candombl and others Understanding the issues and the various approaches is essential to combating the problems and this unique volume sheds light on areas often overlooked when considering the issues

Albert Cleage Jr. and the Black Madonna and Child Jawanza Eric Clark, 2016-09-14 In this collection black religious scholars and pastors whose expertise range from theology ethics and the psychology of religion to preaching religious aesthetics and religious education discuss the legacy of Albert B Cleage Jr and the idea of the Black Madonna and child Easter Sunday 2017 will mark the fifty year anniversary of Albert B Cleage Jr s unveiling of a mural of the Black Madonna and child in his church in Detroit Michigan This unveiling

symbolized a radical theological departure and disruption The mural helped symbolically launch Black Christian Nationalism and influenced the Black Power movement in the United States But fifty years later what has been the lasting impact of this act of theological innovation What is the legacy of Cleage's emphasis on the literal blackness of Jesus How has the idea of a Black Madonna and child informed notions of black womanhood motherhood LGBTQ communities How has Cleage's theology influenced Christian education Africana pastoral theology and the Black Arts Movement The contributors to this work discuss answers to these and many more questions *Loving the Body* D. Hopkins, 2004-12-09 In this book contributors argue that

Hopkins, 2017-06-15 Since its start in 1966 black liberation theology in the United States has continually engaged international developments with Africa and the entire world But after Nelson Mandela was released from prison in February 1990 there has been an almost twenty year break in books on black theology and international affairs Black Theology Essays on Global Perspectives bridges that post 1990 gap and makes a vital contact with Africa again This book conceptualizes black theology to take on the global reconfigurations and opportunities brought about by the rapidly shrinking earth of fast paced worldwide contacts In other words in the specificity of the genealogy of black theology we need to reforge ties with Africa This claim is based on tradition And in the generality of the larger worldwide intertwining of technologies and economics we need a new type of black theological leadership for the twenty first century This claim is based on today's international challenges The essays in this book draw on tradition and point forward in the midst of today's worldwide challenges and favorable possibilities given the closeness of all nations and the varieties of cultures **Is There a Heaven for a "G"?**
