Frederickson, Delores M. Walters, 2013-10-30 Inspired by the searing story of Margaret Garner the escaped slave who in 1856 slit her daughter's throat rather than have her forced back into slavery the essays in this collection focus on historical and contemporary examples of slavery and women's resistance to oppression from the nineteenth century to the twenty first Each chapter uses Garner's example the real life narrative behind Toni Morrison's *Beloved* and the opera *Margaret Garner* as a thematic foundation for an interdisciplinary conversation about gendered resistance in locations including Brazil Yemen India and the United States Contributors are Nailah Randall Bellinger Olivia Cousins Mary E Frederickson Cheryl Janifer LaRoche Carolyn Mazloomi Cathy McDaniels Wilson Catherine Roma Huda Seif S Pearl Sharp Raquel Luciana de Souza Jolene Smith Veta Tucker Delores M Walters Diana Williams and Kristine Yohe **The Language of Battered Women** Carol L. Winkelmann, 2012-02-01 Winner of the 2005 Outstanding Book Award presented by the Organization for the Study of

Communication Language and Gender OSCLG This study of battered women living in a shelter offers a rhetorical analysis of survivors personal theologies Author Carol L Winkelmann holds that while it is virtually ignored in the domestic violence literature the Christian heritage of many battered women plays a significant if complicated role in their language thoughts and lives The women s religious faith serves not only to sustain them through periods of profound suffering but also to develop solidarity with other culturally different women in the shelter Designed to assist women to greater independence the shelter actually functions as a culture of surveillance where women turn to one another and to their faith to cope with the trauma of violence To heal the women engage in dialogue that is dense in religious imagery talking about the relationship of God and the church to suffering and evil At the same time these women also acknowledge that organized religion is very much involved in the maintenance of patriarchal marriage and its attendant abuses in their own lives Together battered women are sometimes able to construct creative theological responses to the problem of suffering and evil A mix of religious and secular languages compels them to devise new ways of thinking about their role in family church and society

Real Knockouts Martha McCaughey,1997-07-01 An examination of women s self defense culture and its relationship to feminism I was once a frightened feminist So begins Martha McCaughey s odyssey into the dynamic world of women s self defense a culture which transforms women involved with it and which has equally profound implications for feminist theory and activism Unprecedented numbers of American women are learning how to knock out maim even kill men who assault them Sales of mace and pepper spray have skyrocketed Some 14 million women own handguns From behind the scenes at gun ranges martial arts dojos fitness centers offering Cardio Combat and in padded attacker courses like Model Mugging Real Knockouts demonstrates how self defense trains women out of the femininity that makes them easy targets for men s abuse And yet much feminist thought like the broader American culture seems deeply ambivalent about women s embrace of violence even in self defense Investigating the connection between feminist theory and women physically fighting back McCaughey found self defense culture to embody literally a new brand of feminism

Pornocracy Jo Bartosch,Robert Jessel,2025-10-21 They say everybody uses porn They re wrong People don t use pornography it uses us And you don t have to watch it to be one of its victims In this thought provoking and timely book Jo Bartosch and Robert Jessel expose how the multi billion dollar pornography industry has humanity gripped in a chokehold From rewiring our brains and normalising sexual violence to shaping new protest movements the pornographic revolution has achieved a stunning and near total victory The triumph of the pornocrats is made more sinister by society s widespread acceptance that all men watch porn the denial of its devastating harms and a lack of political will to curb the power of the global pornography business The authors answer the questions that politicians and policymakers are too scared to ask Why despite over half a century of feminist gains and lessons in schools on consent do today s school children display more sexist attitudes than their parents and grandparents Do women really want to be choked and humiliated in bed How can we fight back and reclaim sex love and

relationships Drawing on the latest research Pornocracy charts how the neurological shifts caused by porn use reverberate through society The book also warns of a dystopian future where AI powered porn and sextech threaten to reduce us all to masturbating meat puppets on an algorithmic production line Provocative and powerful Pornocracy tells the story of how pornography fundamentally changed perhaps forever what it is to be human Gendering Commitment Alex Standen, 2015-10-05 Notions of engagement commitment and impegno continue to provoke debate amongst academics researching contemporary Italian culture and yet be it by accident or by more conscious selection critical work has tended to posit these concepts as a predominantly male and often heteronormative domain This collection of essays challenges this assumption and analyses more closely the fluid and fragmented nature of commitment and the work of Italian intellectuals and cultural practitioners associated with it The volume s contributors engage with those who have typically been excluded from such debates not only female writers and artists but also males whose work has been denied the designation of impegnato The chapters all focus on individuals who insist on the need to question interrogate and denounce social realities Employing a range of theoretical perspectives and bringing into dialogue individuals not typically associated with terms such as engagement and commitment this volume offers an original and distinctive contribution to a discussion that persists in Italian studies Hope and Feminist Theory Rebecca Coleman, Debra Ferreday, 2013-12-16 Hope is central to marginal politics which speak of desires for equality or simply for a better life Feminism might be characterised as a politics of hope a movement underpinned by a utopian drive for equality This version of hope has been used for example in Barack Obama s phrase the audacity of hope a mobilisation of an affirmative politics which nevertheless implies that we are living in hopeless times Similiarly in recent years feminism has seen the production of a prevailing mood of hopelessness around a generational model of progress which is widely imagined to have failed However as a number of feminist theorists have pointed out the temporality of feminism cannot be conceived as straightforwardly linear feminism can only be imagined as having failed if it is understood as a particular set of relations and things This collection grapples with the question of hope how it figures and structures feminist theory as both a movement towards certain goals and as inherently hopeful Questions addressed include Does hope necessarily imply a fantasy of perfectibility a progression to a utopian future Might it also be conceived in other ways as an attachment A lure Does life tend towards hope happiness optimism And if so what are the consequences when hope fails Who decides which hopes are false What is the cost of giving up hope This book was published as a special issue of the Journal for Cultural Research **The High Strangeness of Dimensions, Densities, and the Process of Alien Abduction** Laura Knight-Jadczyk, 2005 The central core of this book is the entirely new domain of the knowledge of nature that has been the concern of the Cassiopaeae Transmissions from the very beginning It is the nature of this domain that is the subject of their communications regarding aliens alien abductions hyperdimensional realities and related subject matter Page 34 *Research Anthology on Child and Domestic Abuse and Its Prevention* Management Association, Information

The Lesbian Revolution Sheila Jeffreys,2018-09-03 The Lesbian Revolution argues that lesbian feminists were a vital force in the Women s Liberation Movement WLM They did not just play a fundamental role in the important changes wrought by second wave feminism but created a powerful revolution in lesbian theory culture and practice Yet this lesbian revolution is undocumented The book shows that lesbian feminists were founders of feminist institutions such as resources for women survivors of men s violence including refuges and rape crisis centres and that they were central to campaigns against this violence They created a feminist squatting movement theatre groups bands art and poetry and conducted campaigns for lesbian rights They also created a profound and challenging analysis of sexuality which has disappeared from the historical record They analysed heterosexuality as a political institution arguing that lesbianism was a political choice for feminists and indeed a form of resistance in itself Using interviews with prominent lesbian feminists from the time of the WLM and informed by the author s personal experience this book aims to challenge the way the work and ideas of lesbian feminists have been eclipsed and to document the lesbian revolution The book will be of key interest to scholars and students of women s history the history of feminism the politics of sexuality women s studies gender studies lesbian and gay studies queer studies and cultural studies as well as to the lay reader interested in the WLM and feminism more generally

In Our Backyard: A Christian Perspective on Human Trafficking in the United States Nita Belles, **Liberia's Women Veterans** Leena Vastapuu, 2018-03-15 The Liberian civil wars of the 1990s and 2000s became notorious for their atrocities and for the widespread use of child soldiers. Girls and young women accounted for up to 40 per cent of these soldiers but their unique perspective and experiences have largely been excluded from accounts of the conflict. In *Liberia's Women Veterans* Leena Vastapuu uses an innovative auto photographic methodology to tell the story of two of Africa's most brutal civil wars through the eyes of 133 female former soldiers. Incorporating their testimonies alongside a series of vivid illustrations by Emmi Nieminen the book provides an in depth account of these women's experiences of trauma stigma and the challenges of reintegration into post war society as well as their hopes and aspirations for the future. Vastapuu argues that these women too often been perceived merely as passive victims of the conflict can in fact play an important role in post war reconciliation and peace building. Overturning gendered perceptions of warfare and militarism the book provides a unique take on humanitarian practices and post conflict societies making essential reading for policymakers as well as students and scholars across the humanities and social sciences.

Veiled Threats Mia Bloom, 2025-02-15 *Veiled Threats* challenges the idea that women in violent terrorist groups lack agency. Too often these women are assumed to be controlled by men their fathers their husbands or some other male relative. Mia Bloom contests this narrow understanding. Although extremist groups often control different aspects of women's lives including their religious obligations or dress jihadi women have asserted themselves in myriad ways. Bloom interrogates the prevailing perceptions about women's involvement in violent extremism exclusively as victims manipulated drugged or coerced. Following her pioneering work on women in *Bombshell* Bloom lifts the veil of the secret world of women in jihadi groups to provide a nuanced and complex explanation of their motivations and challenge misperceptions about women's agency. *Veiled Threats* explores the range of roles of the women involved in jihad not only across secular and religious groups but within affiliated religious groups and examines how these extremist groups have used rape as a weapon of war. Bloom explains how women are used and abused deployed and destroyed and the many ways in which their roles in terrorism have evolved over the past three decades.

The Idea of Prostitution Sheila Jeffreys, 1997 There are at least two competing views on prostitution prostitution as a legitimate and acceptable form of employment freely chosen by women and men's use of prostitution as a form of degrading the women and causing grave psychological damage. In *The Idea of Prostitution* Sheila Jeffreys explores these sharply contrasting views.

Global Perspectives on Victimization Analysis and Prevention Ayodele, Johnson Oluwole, 2019-11-29 Over the past two decades both developed and developing countries have experienced major individual and collective tragic victimizations leading to major structural and systemic transformations as a consequence of the influence of organized crime and international terrorism. These trends many of which as noted earlier are global in spread and have catastrophic outcomes.

revolve around some categories of political diplomacy and unsatisfactory reform responses to spiraling discontent among motivated youths Global Perspectives on Victimization Analysis and Prevention is an essential research book that provides comprehensive research on postmodern crime prevention and control strategies as well as potential transformations that could be seen in victimology It offers resources to understand and analyze the main issues relevant framework and contextual intricacies within which public safety agendas are articulated and implemented across the globe Highlighting a wide range of topics such as public safety crime prevention and terrorism this book is essential for criminologists law enforcement victim advocates criminal profilers crime analysts academicians policymakers researchers security planners NGOs government officials and students The Industrial Vagina Sheila Jeffreys,2008-11-19 This book demonstrates the importance of the global sex industry to the field of international politics exploring the development of the industry and the wider social implications Psychological Abuse in Violent Domestic Relations K. Daniel O'Leary, PhD,Roland D. Maiuro, PhD,2004 This volume addresses the importance of measuring psychological abuse and shows that psychological aggression can be reliably measured Part I identifies measurement issues and contains several scales and inventories for measuring psychological maltreatment Part II discusses the interpersonal dynamics with specific populations including battered women low income women and African American women This remains an important resource in the field of domestic violence

Beauty and Misogyny Sheila Jeffreys,2005-05-31 Should western beauty practices ranging from lipstick to labiaplasty be included within the United Nations understandings of harmful traditional cultural practices By examining the role of common beauty practices in damaging the health of women creating sexual difference and enforcing female deference this book argues that they should In the 1970s feminists criticized pervasive beauty regimes such as dieting and depilation but some new feminists argue that beauty practices are no longer oppressive now that women can choose them However in the last two decades the brutality of western beauty practices seems to have become much more severe requiring the breaking of skin spilling of blood and rearrangement or amputation of body parts Beauty and Misogyny seeks to make sense of why beauty practices are not only just as persistent but in many ways more extreme It examines the pervasive use of makeup the misogyny of fashion and high heeled shoes and looks at the role of pornography in the creation of increasingly popular beauty practices such as breast implants genital waxing and surgical alteration of the labia It looks at the cosmetic surgery and body piercing cutting industries as being forms of self mutilation by proxy in which the surgeons and piercers serve as proxies to harm women s bodies and concludes by considering how a culture of resistance to these practices can be created This essential work will appeal to students and teachers of feminist psychology gender studies cultural studies and feminist sociology at both undergraduate and postgraduate levels and to anyone with an interest in feminism women and beauty and women s health
