supervision such as weight loss centers but they re popular with the general public as well In fact many weight loss coaches personal trainers and popular dieting websites offer 1 200 calorie meal plans promising that following a 1 200 calorie diet will help you slim down fast These diets typically promote the use of low calorie fat free and reduced fat foods to help keep calorie intake low and usually involve calorie counting so that dieters make sure they re staying under their daily limit While a 1 200 calorie diet may be appropriate in the short term in certain situations 1 200 calories are far too few for the majority of adults Plus while you may initially experience fast weight loss when dramatically reducing your calorie intake studies show that low calorie diets rarely work for keeping weight off for good
