Thinsulin Program Charles Nguyen, Tu Nguyen, 2025-05-01 High fat high sugar foods get most of the blame for weight gain and obesity but doctors have found that high insulin levels are actually the culprit When we eat foods that raise our insulin level the body stores fat when we lower our insulin level the body naturally burns fat In The Thinsulin TM Program bariatric internist Tu Song Anh Nguyen and psychiatrist Charles Nguyen share their proven science based two stage plan for weight loss First the active phase shows you how to gain control of and lower your insulin levels through food choices that enable dramatic weight loss Next the passive phase helps you to adopt a new way of thinking about food focusing on insulin rather than calories to keep excess weight off for good **The Carb Cycling Diet** Dr. Roman Malkov, 2012-06-26 Leave Atkins and South Beach behind look and feel your best with a healthy alternative to dieting that uses the body s natural metabolic system for long term results This easy to follow weight loss program helps you burn fat and build muscle through alternating a carb normal and carb limited days Low carb diets like Atkins and South Beach are notoriously difficult to maintain over time and have been deserted by millions of people Health conscious people all over America are ready for something better Discover the secret that athletes and trainers have been using for years with a healthy carb cycling diet By allowing you to eat full nutritionally balanced meals on any day The Carb Cycling Diet breaks away from the deprivation model of most diets on the market today Alternating between limited carb and normal carb days you have your cake and eat it too without having to rely on supplements or sugar substitutes The Carb Cycling Diet includes easy recipes and meal plans for normal and low carb days Monitoring what you eat is simple with the Carbohydrate Content and Glycemic Index tables included Plus The Carb Cycling Diet provides tips on exercise sports supplements and how to keep motivation high As former Nutritional Consultant for the Russian National Athletic Team physician and exercise physiologist Roman Malkov M D understands the secret that the world's top athletes have used for years Carb cycling works for them and it can work for you

Health and Lifestyle Brian S. Everitt,2016-10-19 The main message of this book is that people should be on their guard against both scare stories about risks to health and claims for miracle cures of medical conditions In the 21st century hardly a day passes without another article appearing in the media about a new treatment for a particular disease new ways of improving our health by changing our lifestyle or new foodstuffs that claim to increase or decrease the risk of heart disease cancer and the like But how should the general public react to such claims given that some of the journalists writing them focus on the sensational rather than the mundane and often have no qualms about sacrificing accuracy and honesty for the sake of a good story Perhaps the wisest initial response is one of healthy scepticism followed by an attempt to discover more about the details of the studies behind the reports But most people are not and have little desire to become experts in health

research By reading this book however these non experts can with minimal effort learn enough about the scientific method to differentiate between those health claims warnings and lifestyle recommendations that have some merit and those that are unproven or simply dishonest So if you want to know if ginseng can really help with your erectile dysfunction if breast cancer screening is all that politicians claim it to be if ECT for depression is really a horror treatment and should be banned if using a mobile phone can lead to brain tumours and how to properly evaluate the evidence from health and lifestyle related studies then this is the book for you
