Handbook of Research and Policy in Art Education Elliot W. Eisner, Michael D. Day, 2004-04-12 This work provides an overview of the progress that has characterized the field of research and policy in art education It profiles and integrates history policy learning curriculum and instruction assessment and competing perspectives

The History of American Art Education Peter Smith, 1996-07-22 The ideas people and events that developed art education are described and analyzed so that art educators and educators in general will have a better understanding of what has happened and is happening to visual art in the schools Peter Smith raises the issue of art education's inordinate emphasis on Eurocentric art He challenges the often expressed notion that the field of education is the cause of art education's problems and proposes that confused conceptions within the art world are just as much a root of the difficulty No other book in art education history gives such close and analytical attention to the careers of women in the field The materials on Germanic cultural and historical influences are unequalled as is the scholarly treatment of Viktor Lowenfeld probably the most influential single figure in 20th century American art education

Revitalizing History Paul E. Bolin, Ami Kantawa, 2021-03-09 Historical inquiry forms the foundation for much research undertaken in art education While traversing paths of historical investigation in this field we may discover undocumented moments and overlooked or hidden individuals as well as encounter challenging ideas in need of exploration and critique In doing so history is approached from multiple and at times vitally diverse perspectives Our hope is that the conversations generated through this text will continue to strengthen and encourage more interest in histories of art education but also more sophisticated and innovative approaches to historical research in this field The overarching objective of the text is to recognize the historical role that many overlooked individuals particularly African Americans and women

have played in the field of art education and acknowledge the importance of history and historical research in this digital age This text opens up possibilities of faculty collaborations across programs interested in history and historical research on a local national and international level By assembling the work of various scholars from across the United States this text is intended to elicit rich conversations about history that would be otherwise beyond what is provided in general art education textbooks *Child Creativity and the Visual Arts: From Secessionist Vienna to Postwar America* Megan

Brandow-Faller,2025-07-24 Tracing the dissemination of Secessionist ideas of child creativity from their origination in early 20th century Vienna through to their eventual commodification in postwar America this book highlights the central role that visual art has played in child education and in nurturing creativity in elementary and preschool curricula Taking the reader through the ideas of three artistic visionaries and their students Franz Ci ek and Austrian American migr s Emmy Zweybr ck and Viktor L wenfeld this book reveals how these ideas developed in postwar America through a focus on child centered methods of learning by doing in artistic practice By centring the visual arts as a vital educational medium we see how these teachings have been popularized as a means of nurturing creativity in childhood Across three chapter length case studies interspersed with three mini chapters on the reception of each artist educator s radical teachings in the American education system *Child Creativity and the Visual Arts* provides new interpretations into the impact of these three luminaries differing philosophies on a broader program of socio political activism in the USA Drawing on previously untapped archival and primary source materials it blends deep material culture analysis with narrative elements to present a compelling account of the unrecognized influence of migr art pedagogy on progressive international art education In doing so it provides fresh transregional and thematic perspectives on early 1900s Vienna as a hotbed of creative and cultural experimentation and mecca of progressive art education **Early Childhood Education** Moncrieff Cochran,Rebecca S. Redesenhando o desenho: educadores, política e história Ana Mae Barbosa, 2015-09-24 Redesenhando o desenho

trata de um período muito rico do ensino do Desenho entre 1927 e 1937 e da destruição que se seguiu com a perseguição a educadores promovida pela ditadura do Estado Novo. A obra procura rever, relembrar, recuperar, ressignificar ou redesenhar o esforço interrompido por uma ditadura em prol do ensino do Desenho como iniciação ao Design e Arte. Um texto inédito de John Dewey encontrado nas pesquisas nos Estados Unidos explica muito bem o sentido de desenho como técnica e criação que a Escola Nova defendeu.
