Lsd Visions Or Nightmares:

LSD, Visions Or Nightmares Michael E. Trulson, 1988 **The Haunting of Twentieth-Century America** William J. Birnes, Joel Martin, 2011-09-13 In this sequel to *The Haunting of America* national bestselling authors Joel Martin and William J. Birnes bring up to the present the story of how paranormal events influenced and sometimes even drove political events. In unearthing the roots of America's fascination with the ghosts, goblins, and demons that possess our imaginations and nightmares, Martin and Birnes show how the paranormal has driven America's political, public, and military policies. The authors examine the social history of the United States through the lens of the paranormal and investigate the spiritual events that inspired momentous national decisions: UFOs that frightened the nation's military into launching nuclear bomber squadrons toward the Soviet Union; out-of-body experiences used to gather sensitive intelligence on other countries; and even spirits summoned to communicate with living politicians. *The Haunting of Twentieth Century America* is a thrilling, evidence-based exploration of the often unexpected influences of the paranormal on science, medicine, law, the government, the military, psychology, theology, death and dying, spirituality, and pop culture. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Altered States D. E. Ostro, 2016-04-26 In the 1960s, Americans combined psychedelics with Buddhist meditation to achieve direct experience through altered states of consciousness. As some practitioners became more committed to Buddhism, they abandoned the use of psychedelics in favor of stricter mental discipline, but others carried on with the experiment, advancing a fascinating alchemy called psychedelic Buddhism. Many think exploration with psychedelics in Buddhism faded with the revolutionary spirit of the sixties, but the underground practice has evolved into a brand of religiosity as eclectic and challenging as the era that created it. *Altered States* combines interviews with well-known figures in American Buddhism and psychedelic spirituality, including Lama Surya Das, Erik Davis, Geoffrey Shugen Arnold, Sensei Rick Strassman, and Charles Tart, and personal stories of everyday practitioners to define a distinctly American religious phenomenon. The nuanced perspective that emerges, grounded in a detailed history of psychedelic religious experience, adds critical depth to debates over the controlled use of psychedelics and drug-induced mysticism. The book also opens new paths of inquiry into such issues as re-enchantment, the limits of rationality, the biochemical and psychosocial basis of altered states of consciousness, and the nature of subjectivity.

Rhino's Psychedelic Trip Alan Bisbort, Parke Puterbaugh, 2000-10 Readers are invited to take a time trip through the mind-blowing era of psychedelics with this illustrated narrative peppered with personal recollections about rock music and radical culture. Includes rare photos of players, album covers, and record labels. 200 photos, some in color.
