Not Called Richard Kronk, 2022-02-04 So how do I know what I am supposed to do with my life I hear from my pastor and the things I read that God calls people to be pastors and missionaries Some people even talk about being called to be a doctor or a teacher I think I remember my mom saying she felt called to be a mom But what am I supposed to do with my life Has God actually called me to be a high school science teacher Should I be looking for something else How will I know if and when he does call me or is that just for people going into ministry after all *Not Called* draws on church history the evolution of Western societal norms and biblical revelation to answer these and other related questions in an effort to determine if calling as it is understood today retains the meaning it was intended to carry from the beginning In addition to a biblical and historical assessment of the evolution of the concept *Not Called* raises both cultural and practical challenges to the contemporary meaning and use of the concept which all but excludes Christians from a non Western first world cultural context

Presidential Rhetoric and Indian Policy Anne F. Boxberger Flaherty, 2022-12-30 Presidential Rhetoric and Indian Policy explores and analyses the dynamics of presidential rhetoric on Native peoples and issues from Nixon to the present Covering Presidents Washington through Johnson in an overview before turning to focus on the modern era of self determination Anne Flaherty offers a systematic analysis of 700 presidential statements that mention Native issues from 1969 through 2020 to evaluate whether presidents in the modern era have used their rhetorical platforms to bring attention to Native issues and to support this coherent strategy of self determination Flaherty provides evidence that rhetorical themes vary by administration and seem to either rely on more symbolic historical language or to connect more clearly to the dominant platforms and messages of the president in question The book then moves to incorporate an analysis of key outcomes compared across the administrations The data and analysis show that federal spending legislative outcomes and Supreme Court decisions have not consistently supported self determination policy over the past 50 years This book is a must read for scholars and students interested in indigenous politics Native American Indian Politics US presidency and rhetoric *A Charitable Morsel of*
