Michelangelo and the Pope's Ceiling Ross King, 2014-10-14 From the acclaimed author of Brunelleschi's Dome and Leonardo and the Last Supper the riveting story of how Michelangelo against all odds created the masterpiece that has ever since adorned the ceiling of the Sistine Chapel In 1508 despite strong advice to the contrary the powerful Pope Julius II commissioned Michelangelo Buonarroti to paint the ceiling of the newly restored Sistine Chapel in Rome Despite having completed his masterful statue David four years earlier he had little experience as a painter even less working in the delicate medium of fresco and none with challenging curved surfaces such as the Sistine ceiling's vaults The temperamental Michelangelo was himself reluctant He stormed away from Rome incurring Julius's wrath before he was eventually persuaded to begin Michelangelo and the Pope's Ceiling recounts the fascinating story of the four extraordinary years he spent laboring over the twelve thousand square feet of the vast ceiling while war and the power politics and personal rivalries that abounded in Rome swirled around him A panorama of illustrious figures intersected during this time the brilliant young painter Raphael with whom Michelangelo formed a rivalry the fiery preacher Girolamo Savonarola and the great Dutch scholar Desiderius Erasmus a youthful Martin Luther who made his only trip to Rome at this time and was disgusted by the corruption all around him Ross King blends these figures into a magnificent tapestry of day to day life on the ingenious Sistine scaffolding and outside in the upheaval of early sixteenth century Italy while also offering uncommon insight into the connection between art and history **The Renaissance Nude** Thomas Kren, Jill Burke, Stephen J. Christianizing Egypt

David Frankfurter,2017-12-05 How does a culture become Christian especially one that is heir to such ancient traditions and spectacular monuments as Egypt This book offers a new model for envisioning the process of Christianization by looking at the construction of Christianity in the various social and creative worlds active in Egyptian culture during late antiquity As David Frankfurter shows members of these different social and creative worlds came to create different forms of Christianity according to their specific interests their traditional idioms and their sense of what the religion could offer Reintroducing the term syncretism for the inevitable and continuous process by which a religion is acculturated the book addresses the various formations of Egyptian Christianity that developed in the domestic sphere the worlds of holy men and saints shrines the work of craftsmen and artisans the culture of monastic

scribes and the reimagination of the landscape itself through processions architecture and the potent remains of the past Drawing on sermons and magical texts saints lives and figurines letters and amulets and comparisons with Christianization elsewhere in the Roman empire and beyond Christianizing Egypt reconceives religious change from the conversion of hearts and minds to the selective incorporation and application of strategies for protection authority and efficacy and for imagining the environment Journal of the National Cancer Institute ,1990 **The Immune System: The Present** C. M. Steinberg,I. Lefkovits,1981-09-16 American Renaissance F. O. Matthiessen,1968-12-31 Studies the views of 5 prominent mid 19th century writers on the function and nature of literature and how they applied these views to their works *Peter and June and Me* ,2010-08-13 Peter and June and Me is the story of my search for my parent s first and second born children about whom I knew nothing until later in my life There were references to them but no direct discussion about them with either parent The story is wrapped inside the murder of my girlfriend by an unrequited lover and within my search for the brass ring during which by virtue of being raised in a house in which there was an icy silence and in which my parents lived in quiet desperation I did not receive much in the way of parental guidance I don t blame anyone but myself for the consequences of my actions but I think that had my parents not lost their first two children life in our home would have been significantly different The Cambridge Companion to the Italian Renaissance Michael Wyatt,2014-06-26 The Renaissance in Italy continues to exercise a powerful hold on the popular imagination and on scholarly enquiry This Companion presents a lively comprehensive interdisciplinary and current approach to the period that extends in Italy from the turn of the fourteenth century through the latter decades of the sixteenth Addressed to students scholars and non specialists it introduces the richly varied materials and phenomena as well as the different methodologies through which the Renaissance is studied today both in the English speaking world and in Italy The chapters are organized around axes of humanism historiography and cultural production and cover a wide variety of areas including literature science music religion technology artistic production and economics The diffusion of the Renaissance throughout Italian territories is emphasized Overall the Companion provides an essential overview of a period that witnessed both a significant revalidation of the classical past and the development of new vernacular and increasingly secular values **Art and Affection** Panthea Reid,1996 More than 50 after her death Virginia Woolf remains a haunting figure a woman whose life was both brilliantly successful and profoundly tragic This brilliant new biography weaves together diverse strands of Woolf s life and career offering a dazzlingly complete portrait brimming with new revelations 64 halftone illustrations *The Choreography of Environments* Janice Ross,2025-01-28 The Choreography of Environments How the Anna and Lawrence Halprin Home Transformed Contemporary Dance and Urban Design explores how objects and the domestic spaces seep into the aesthetic consciousness of movement based artists like dancers and urban designers significantly shaping their approach to movement invention and choreography If these objects and spaces happen to have been designed by a leading modernist architect and

landscape designer working with the dancer then the aesthetic imprint is amplified Dance innovation becomes pressed into dialogue with spatial environmental and urban agendas The Choreography of Environments builds on this premise to consider the use of ordinary objects from a private residence as lenses into viewing dance innovation Author Janice Ross posits the Halprins 1950s iconic mid century modern home and expansive outdoor dance deck as a hidden archive She explores four objects from their house and gardens staircase deck chair and window to trace how despite the conservative postwar climate this intimate domestic space became a radical template reshaping postmodern dance invention and its expansion into civic social and environmental engagement in the twentieth and twenty first centuries The work that happened in this white middle class Jewish American home in a San Francisco suburb paved the way for changes that continue to resonate today across contemporary dance performance and urban design These include defamiliarizing urban landscape and gardens as cloistered theaters where civic identities are rehearsed orchestrating collective problem solving and invention normalizing the nude body privileging a utilitarian and responsive rather than sentimental approach to dance in the environment and re positioning choreography as a vital medium for urban problem solving These four representative objects in the Halprin home are also used to trace the burgeoning of dance as a forceful medium for civic engagement and its valorization of the ordinary in movement As a whole this book shows how dance architecture and landscape design would have a profound confluence through these shared domestic spaces and objects of the Halprins lives
