The Routledge Handbook of Spanish Translation Studies Roberto Valdeón, África Vidal, 2019-05-28 Written by leading experts in the area The Routledge Handbook of Spanish Translation Studies brings together original contributions representing a culmination of the extensive research to date within the field of Spanish Translation Studies The Handbook covers a variety of translation related issues both theoretical and practical providing an overview of the field and establishing directions for future research It starts by looking at the history of translation in Spain the Americas during the colonial period and Latin America and then moves on to discuss well established areas of research such as literary translation and audiovisual translation at which Spanish researchers have excelled It also provides state of the art information on new topics such as the interface between translation and humour on the one hand and the translation of comics on the other This Handbook is an indispensable resource for postgraduate students and researchers of translation studies *El Códice mendocino: nuevas perspectivas* Jorge Gómez Tejada, Davide Domenici, Chiara Grazia, David Buti, Laura Cartechini, Francesca Rosi, Francesca Gabrieli, Virginia María Lladó-Buisán, Aldo Romani, Antonio Sgamelloti, Constanza Milani, B. C. Barker Benfield, Diana Magaloni, Mary E. Miller, Claudia Brittenham, Frances F. Berdan, Barbara E. Mundy, Daniela Bleichmar, Todd P. Olson, Carmen Fernández-Salvador, Joanne Harwood, Lucien Sun, 2021-12-23 Conceptualizado como una contribución a la continua construcción de la identidad del Códice mendocino el presente volumen está organizado en torno a tres ejes el análisis material la interpretación textual y estilística y la recepción y transmisión del manuscrito Los estudios de Barker Benfield y MOLAB abren una ventana hacia el entendimiento objetivo de la materialidad del manuscrito El proceso de conservación y encuadernamiento del Mendocino registrado por Barker Benfield ha disipado especulaciones en cuanto al material de construcción del manuscrito y sus posibles encuadernaciones previas permitiendo que conexiones antes aceptadas como la autoría de Francisco Gualpuyogualcal sean reexaminadas Asimismo el análisis llevado a cabo por el equipo de MOLAB liderado por Davide Domenici ha sacado del ámbito de la especulación la naturaleza de los pigmentos del manuscrito así como ha permitido que hipótesis interpretativas previamente articuladas al respecto del significado de pigmentos específicos y lo

estricto de su aplicación en el tlacuillo sean refinadas y contenidas Si bien el color tiene significado para el tlacuilo este no es directa y necesariamente ligado a su materialidad A partir de estas observaciones se puede desarrollar una nueva generación de estudios interpretativos cuyas propuestas se basen en datos cada vez más certeros acerca de la naturaleza material del Mendocino Los estudios interpretativos del manuscrito que ocupan el presente volumen representan una línea de investigación que al considerar al manuscrito desde la perspectiva compleja de la obra de arte bibliográfica y literaria complementa las lecturas antropológicas e históricas que se han hecho del Mendocino en estudios anteriores As los ensayos de Diana Magaloni Daniela Bleichmar y Jorge Gómez Tejada editor del libro reconsideran el número y estilo de los artistas que crearon el manuscrito para entender tanto el proceso de creación del mismo como el lugar que este ocupa en el contexto artístico del virreinato temprano Las decisiones que estos artistas e intelectuales toman en el Mendocino lejos de insertarse en una relación binaria dominante dominado se presentan como una manifestación de los modos de pensar y ver el espacio y el tiempo en el mundo mesoamericano Las pinturas del Mendocino ejecutadas a manera de taller en donde uno dos o más individuos intervienen en una misma página para crear de manera sincronizada una sola composición tal como demuestra quien escribe toman visos de ritualidad y funcionan como instrumento para re crear reactualizar y hacer coherente el devenir histórico ligado al territorio y los patrones cíclicos ver Capítulo 4 Esta última observación complementa y refuerza la lectura de la tercera sección del manuscrito propuesta por Joanne Harwood para quien independientemente de lo original de las soluciones visuales utilizadas para componer esta sección del manuscrito su modelo prehispánico se encuentra en un género de resonancia religiosa mesoamericana el teomoxtili

Nuevas perspectivas desde, sobre América Latina Mabel Moraña, 2000 El tema de la violencia es connatural a la historia de América Latina y por lo mismo resulta inagotable en cualquiera de sus múltiples manifestaciones materiales y simbólicas desde los orígenes coloniales hasta la actualidad A nivel continental la praxis y el discurso de la violencia pueden perseguirse desde la penetración de la depredación colonizadora con que América Latina es inscrita en el desarrollo cultural de Occidente hasta llegar a las más recientes y sutiles formas asumidas por la violencia de Estado pasando por las instancias de imposición de modelos culturales y económicos que en las distintas épocas impactaron radicalmente las culturas criollas y vernáculas América Latina ha sufrido históricamente las consecuencias de una violencia fundacional que la condenara a una posición periférica con respecto a sistemas globales cuyos centros han difundido en sus correspondientes áreas de influencia la racionalidad de su propia reproducción cultural política y económica De esta manera la trama social que resultara de la matriz colonialista registró desde el comienzo las huellas imborrables de la violencia que se manifestara tanto a nivel racial como económico tanto en lo referido a las políticas de género como en lo relacionado con la distribución geocultural del poder en todos sus niveles Las dolorosas repúblicas hispanoamericanas de que hablara Martí se han debatido desde entonces contra las formas naturalizadas de la violencia de la exclusión y el autoritarismo la miseria interna y la depredación imperialista la penetración cultural las intervenciones políticas siempre amparadas en la retórica legitimadora que las clases dominantes esgrimieran en cada caso para perpetuar su poder El presente volumen que compila trabajos que fueran presentados y discutidos en la Segunda Conferencia Internacional de Estudios Culturales Latinoamericanos que se llevara a cabo en la Universidad de Pittsburgh en marzo del año 2000 tiene como foco principal una articulación específica en torno al tema de la violencia contemporánea la que analiza los cruces y formas específicas en que la violencia se manifiesta teniendo como escenario principal los centros urbanos de América Latina y las modalidades a partir de las cuales el fenómeno de la violencia es recogido y representado por los medios de comunicación de masas tanto como por la cultura popular el arte la literatura y otras formas de discurso letras y la alta cultura The theme of violence is natural to the history of Latin America and therefore it is endless in any of its multiple material and symbolic manifestations from its colonial origins to the present At a continental level the praxis and discourse of violence can be traced back to the spread of the colonising voracity that conditioned Latin America within the cultural development of the West followed by the most recent and subtle forms

assumed by state violence including the instances of imposition of cultural and economic models that at the different times radically impacted the Creole and vernacular cultures. Thus Latin America has historically suffered the consequences of a founding violence which condemned it to a peripheral position in relation to global systems which centres have spread in their corresponding areas of influence the rationality of their own cultural political and economic replication. In this way the social fabric resulting from the colonialist matrix has recorded from the beginning the indelible traces of violence that are displayed both at racial and economic levels both in terms of gender policies and in terms of the geocultural distribution of power at all levels. The painful Spanish American republics of which Martí spoke have since fought against the normalisation of the violence of exclusion and authoritarianism the internal misery and imperialistic greed the cultural colonisation and political actions always condoned by a legitimising rhetoric that the ruling classes wielded in every instance to perpetuate their power. This volume which compiles papers that were presented and discussed at the Second International Conference on Latin American Cultural Studies to be held at the University of Pittsburgh in March 2000 has as its main focus a specific articulation around the topic of contemporary violence it analyses the intersections and specific ways in which violence presents itself in the urban centres of Latin America as its main scenario and the modalities from which the phenomenon of violence is recorded and represented by the mass media as well as popular culture art literature and other forms of literary discourse and high culture.

Pagni, 2017 Este libro ofrece un aporte innovador a la reflexión sobre la incidencia del género en los procesos traductivos en distintos momentos de la historia de la traducción literaria en Francia España y las Américas. El concepto de refracción remite a la interacción del género con otros factores sociales y culturales a lo largo del proceso de traducción. Desde la historia cultural la traductología los estudios literarios y la lingüística se focalizan las condiciones históricas de la actividad traductora las estrategias editoriales y el acto mismo de la traducción literaria en su interacción con el género.
