Negotiating Gendered Discourses

Jane L. Christie,2015-11-25 It has been argued that the first presidential campaign of Michelle Bachelet in Chile and Cristina Fernandez de Kirchner in Argentina used a rhetoric of newness Some political observers have said that as the first women to successfully run for the highest office in these countries they were presented as the new faces of democracy These observers argued that gender was not a determining factor in their electoral success but the focus on this first women frame did generate heavily gendered criticisms of these two candidates Negotiating Gendered Discourses addresses these views by asking how the gender factor is negotiated when women from the Southern Cone of Latin America run for high political office In particular Jane L Christie examines how Bachelet and Fernandez positioned themselves in relation to the numerous women led social movements and in doing so reveals points of intersection between these contemporary political discourses and existing sources of female authority when negotiating complicated ideological debates about human rights the economy and women s rights

The Spectre of Race Michael G. Hanchard,2020-03-03 How racism and discrimination have been central to democracies from the classical period to today As right wing nationalism and authoritarian populism gain momentum across the world liberals and even some conservatives worry that democratic principles are under threat In The Spectre of Race Michael Hanchard argues that the current rise in xenophobia and racist rhetoric is nothing new and that exclusionary policies have always been central to democratic practices since their beginnings in classical times Contending that democracy has never been for all people Hanchard discusses how marginalization is reinforced in modern politics and why these contradictions need to be fully examined if the dynamics of democracy are to be truly understood Hanchard identifies continuities of

discriminatory citizenship from classical Athens to the present and looks at how democratic institutions have promoted undemocratic ideas and practices The longest standing modern democracies France Britain and the United States profited from slave labor empire and colonialism much like their Athenian predecessor Hanchard follows these patterns through the Enlightenment and to the states and political thinkers of the late nineteenth and early twentieth centuries and he examines how early political scientists including Woodrow Wilson and his contemporaries devised what Hanchard has characterized as racial regimes to maintain the political and economic privileges of dominant groups at the expense of subordinated ones Exploring how democracies reconcile political inequality and equality Hanchard debates the thorny question of the conditions under which democracies have created and maintained barriers to political membership Showing the ways that race gender nationality and other criteria have determined a person's status in political life *The Spectre of Race* offers important historical context for how democracy generates political difference and inequality *The Palgrave Encyclopedia of Peace and Conflict Studies* Oliver P. Argentina Betrayed Antonius C. G. M. Robben, 2018-03-19 The ruthless military dictatorship that ruled Argentina between 1976 and 1983 betrayed the country's people presiding over massive disappearances of its citizenry and in the process destroying the state's trustworthiness as the guardian of safety and well being Desperate relatives risked their lives to find the disappeared and one group of mothers defied the repressive regime with weekly protests at the Plaza de Mayo in Buenos Aires How do societies cope with human losses and sociocultural traumas in the aftermath of such instances of political violence and state terror In *Argentina Betrayed* Antonius C G M Robben demonstrates that the dynamics of trust and betrayal that convulsed Argentina during the dictatorship did not end when democracy returned but rather persisted in confrontations over issues such as the truth about the disappearances the commemoration of the past and the guilt and accountability of perpetrators Successive governments failed to resolve these debates because of erratic policies made under pressure from both military and human rights groups Mutual mistrust between the state retired officers former insurgents and bereaved relatives has been fueled by recurrent revelations and controversies that prevent Argentine society from

conclusively coming to terms with its traumatic past With thirty years of scholarly engagement with Argentina and drawing on his extensive fair minded interviews with principals at all points along the political spectrum Robben explores how these ongoing dynamics have influenced the complicated mourning over violent deaths and disappearances His analysis deploys key concepts from the contemporary literature of human rights transitional justice peace and reconciliation and memory studies including notions of trauma denial accountability and mourning The resulting volume is an indispensable contribution to a better understanding of the terrible crimes committed by the Argentine dictatorship in the 1970s and their aftermath
