Nursery World Of Dr Blatz:

The Nursery World of Dr Blatz Jocelyn Motyer Raymond, 1991 Nursery World of Dr. Blatz Jocelyn Motyer Raymond, 1991-12-15 In 1925 Blatz established St George's school for child study associated with the University of Toronto. The school consisted of two divisions: one was Parent Education, a research program created to educate parents in the newest techniques of child rearing. *The Nurture of Nature* Sharon Wall, 2010-01-01 Thousands of children attended summer camps in twentieth-century Ontario. Did parents simply want a break or were broader developments at play? *The Nurture of Nature* explores the history of summer camps and sheds light on a wider phenomenon: the divided consciousness that informs modern assumptions about nature, technology, and identity. Wall examines how two competing tendencies—antimodern nostalgia and modern sensibilities about the landscape, child rearing, and identity—played out in the camp's interaction with nature, its class and gendered dimensions, its engagement with emerging ideologies of childhood, and in the politics of race inherent in its Indian programming. *The Nurture of Nature* offers a fascinating discussion of the summer camp's contribution to modern social life that will appeal to students and practitioners of the history of childhood, the natural environment, and recreation, or anyone who has been packed off to camp and wants to explore why. **Ring Around the Maple** Cynthia R. Comacchio, Neil Sutherland, 2024-10-29 *Ring Around the Maple* is about the condition of children in Canada from roughly 1850 to 2000, a time during which the modern increasingly disrupted traditional ways. Authors Cynthia R. Comacchio and Neil Sutherland trace the lives of children over this long century with a view to synthesizing the rich interdisciplinary literature that has emerged since the 1970s. Integrated into this synthesis is the authors' new research into many often seemingly disparate archival and published primary sources. Emphasizing how the child and childhood are sociohistoric constructs and employing age analytically and relationally, they discuss the constants and the variants in their historic dimensions. While childhood tangibly modernized during these years, it remained far from universal experience due to identifiers of race, gender, culture, region, and intergenerational adaptations that characterize the process of growing up. This work highlights children's perspectives through close critical readings of diaries, correspondence, memoirs, interviews, oral histories, and autobiographies, many buried in obscure archives. It is the only extant historical discussion of Canadian children that interweaves the experiences of First Nations, Métis, and Inuit children with those of children from a number of settler groups. *Ring Around the Maple* makes use of photographs, catalogues, advertisements, government publications, musical recordings, radio shows, television shows, material goods, documentary and feature films, and other such visual and aural testimony. Much of this evidence has not to date been used as historical testimony to uncover the lives of ordinary children. This book is generously illustrated with photographs and ephemera carefully selected to reflect children's lives, conditions, interests, and obligations. It will be of special interest to historians and social scientists interested in children and the culture of childhood, but will also appeal to readers who enjoy the little stories that together make up our collective

Born at the Right Time Doug Oram, 1997-12-15 It is rare in history for people to link their identity with their generation and even rarer when children and adolescents actually shape society and influence politics Both phenomena aptly describe the generation born in the decade following the Second World War These were the baby boomers viewed by some as the spoiled selfish generation that had it all and by others as a shock wave that made love and peace into tangible ideals In this book Doug Oram brings us the untold story of this famous generation as it played out its first twenty five years in Canadian society Beginning with Dr Spock s dictate that this particular crop of babies must be treated gently Oram explores the myth and history surrounding this group from its beginning at war s end to the close of the 1960s The baby boomers wielded extraordinary power right from birth Oram points out and laid their claim on history while still in diapers He sees the generation s power and sense of self stemming from three factors its size its affluent circumstance and its connection with the 1960s the fabulous decade of free love flower power women s liberation drugs protest marches and rock n roll From Davy Crockett hats and Barbie dolls to the civil rights movement and the sexual revolution the concerns of this single generation became predominant themes for all of society Thus Oram s history of the baby boomers is in many ways a history of the era Doug Oram has written extensively on cultural icons Utopian hopes and the gap between realities and images all powerful themes in the story of this idealistic generation A well researched lucid and humorous book *Born at the Right Time* is the first Canadian history of the baby boomers and the society they helped to shape
