Miller, 2004-03 This is not a history of chemistry which uses stamps instead of the usual illustrations but a collection of short essays and comments on such chemistry as can be found on postage stamps and other philatelic items In other words the choice of topics is dictated by the philatelic material available with the necessary consequence that important parts of chemical history will be missing for the simple reason that they have not found their way onto postage stamps Thus the reader may find detailed comments on lesser known chemists such as Wilhelm August Lampadius who has been honoured with two stamps by the German Post Office but hardly anything on such luminaries as Robert Bunsen who have not been deemed worthy of a commemorative issue *The Nutcracker* Michael Hague, Sarah L.
