The Oxford Handbook of Prehistoric Figurines Timothy Insoll, 2017-04-13 Figurines dating from prehistory have been found across the world but have never before been considered globally The Oxford Handbook of Prehistoric Figurines is the first book to offer a comparative survey of this kind bringing together approaches from across the landscape of contemporary research into a definitive resource in the field The volume is comprehensive authoritative and accessible with dedicated and fully illustrated chapters covering figurines from the Americas Europe Africa Asia and Australasia and the Pacific laid out by geographical location and written by the foremost scholars in figurine studies wherever prehistoric figurines are found they have been expertly described and examined in

relation to their subject matter form function context chronology meaning and interpretation Specific themes that are discussed by contributors include for example theories of figurine interpretation meaning in processes and contexts of figurine production use destruction and disposal and the cognitive and social implications of representation Chronologically the coverage ranges from the Middle Palaeolithic through to areas and periods where an absence of historical sources renders figurines prehistoric even though they might have been produced in the mid 2nd millennium AD as in parts of sub Saharan Africa The result is a synthesis of invaluable insights into past thinking on the human body gender identity and how the figurines might have been used either practically ritually or even playfully

North American Indigenous Warfare and Ritual Violence Richard J. Chacon, Rubén G. Mendoza, 2007-09-15 Despite evidence of warfare and violent conflict in pre Columbian North America scholars argue that the scale and scope of Native American violence is exaggerated They contend that scholarly misrepresentation has denigrated indigenous peoples when in fact they lived together in peace and harmony In rebutting that contention this groundbreaking book presents clear evidence from multiple academic disciplines that indigenous populations engaged in warfare and ritual violence long before European contact In ten well documented and thoroughly researched chapters fourteen leading scholars dispassionately describe sources and consequences of Amerindian warfare and violence including ritual violence Originally presented at an American Anthropological Association symposium their findings construct a convincing case that bloodshed and killing have been woven into the fabric of indigenous life in North America for many centuries The editors argue that a failure to acknowledge the roles of warfare and violence in the lives of indigenous North Americans is itself a vestige of colonial repression depriving native warriors of their history of armed resistance These essays document specific acts of Native American violence across the North American continent Including contributions from anthropologists archaeologists historians and ethnographers they argue not only that violence existed but also that it was an important and frequently celebrated component of Amerindian life

Household Archaeology on the Northwest Coast

Elizabeth A. Sobel, D. Ann Trieu Gahr, Kenneth A. Ames, 2006-07-01 Since the late 1970s household archaeology has become a key theoretical and methodological framework for research on the development of permanent social inequality and complexity as well as for understanding the social political and economic organization of chiefdoms and states This volume is the cumulative result of more than a decade of research focusing on household archaeology as a means to gain understanding of the evolution of social complexity regardless of underlying economy **Unsettling Native Art Histories on the Northwest Coast** Kathryn Bunn-Marcuse, Aldona Jonaitis, 2020-07-20 Inseparable from its communities Northwest Coast art functions aesthetically and performatively beyond the scope of non Indigenous scholarship from demonstrating kinship connections to manifesting spiritual power Contributors to this volume foreground Indigenous understandings in recognition of this rich context and its historical erasure within the discipline of art history By centering voices that uphold Indigenous priorities integrating the expertise of Indigenous knowledge holders about their artistic heritage and questioning current institutional practices these new essays unsettle Northwest Coast art studies Key themes include discussions of cultural heritage protections and Native sovereignty re centering women and their critical role in transmitting cultural knowledge reflecting on decolonization work in museums and examining how artworks function as living documents The volume exemplifies respectful and relational engagement with Indigenous art and advocates for more accountable scholarship and practices Family origin histories Edward Sapir, Morris Swadesh, Alexander Thomas, John Thomas, 2009-01-01 Nuuchah-nulth family histories are actually tribal histories since their idea of family encompasses the tribe Eighteen such histories are presented here chronicling the origins and resources of a number of tribal families In lieu of written records these oral traditions stood as Nuuchah-nulth history and were recited formally in public on ceremonial occasions Several accounts give long lists of foods Others describe the acquisition of important technological advances such as a salmon trap Half of the texts are short focusing on a particular item like a mask or a house decoration One text lists hundreds of Nuuchah-nulth place names given mythically by Swan Women to the Port Alberni region which was previously Salish in population and language Generally these histories explain how the world came to be and set forth family claims to material and spiritual resources Each account belonged to the family which had the exclusive right to tell it publicly Summary outlines are provided in the introduction Published in English Spirits of Our Whaling Ancestors Charlotte Coté, 2015-07-21 Following the removal of the gray whale from the Endangered Species list in 1994 the Makah tribe of northwest Washington State announced that they would revive their whale hunts their relatives the Nuuchah-nulth Nation of British Columbia shortly followed suit Neither tribe had exercised their right to whale in the case of the Makah a right affirmed in their 1855 treaty with the federal government since the gray whale had been hunted nearly to extinction by commercial whalers in the 1920s The Makah whale hunt of 1999 was an event of international significance connected to the worldwide struggle for aboriginal sovereignty and to the broader discourses of environmental sustainability treaty rights

human rights and animal rights It was met with enthusiastic support and vehement opposition As a member of the Nuuchahnulth Nation Charlotte Cote offers a valuable perspective on the issues surrounding indigenous whaling past and present Whaling served important social economic and ritual functions that have been at the core of Makah and Nuuchahnulth societies throughout their histories Even as Native societies faced disease epidemics and federal policies that undermined their cultures they remained connected to their traditions The revival of whaling has implications for the physical mental and spiritual health of these Native communities today Cote asserts Whaling she says defines who we are as a people Her analysis includes major Native studies and contemporary Native rights issues and addresses environmentalism animal rights activism anti treaty conservatism and the public's expectations about what it means to be Indian These thoughtful critiques are intertwined with the author's personal reflections family stories and information from indigenous anthropological and historical sources to provide a bridge between cultures A Capell Family Book
