Nvms Canine Anatomy:

Vesalius: The China Root Epistle Andreas Vesalius, 2015-01-12 This book provides the first annotated English translation from the original Latin of Andreas Vesalius China Root Epistle. Ostensibly his appraisal of a fashionable herbal remedy, the China Root Epistle concentrates on Vesalius' skeptical appraisal of traditional Galenic anatomy, which was based on animal rather than human dissections. Along with reflections about his life as a young anatomist, Vesalius argued that the new science of anatomy should devote itself less to rhetorical polemics and more to the craft of direct observation based on human dissection. This volume provides annotations to link the Epistle with Vesalius' earlier and more famous work, *On the Fabric of the Human Body*, and includes illustrations from the famous woodcuts first used in the 1543 edition of the *Fabrica*.

Journal of the American Veterinary Medical Association, 1998 Cani & Razze Canine - Vol. III Mario Canton, 2015-10-30 Dopo più di dieci anni dall'uscita della prima edizione a stampa di *Cani Razze Canine*, esce ora la prima edizione digitale dell'opera. Molto tempo passato da allora e ancor più da quando iniziarono le ricerche per il testo nel Marzo del 1983. Il lavoro è stato realizzato per venire incontro alle esigenze di molti Lettori che mi invitavano a fornire un'edizione digitale del testo per il suo utilizzo mediante le ormai diffuse tecnologie informatiche. La versione digitale completa, costituita da tutti e tre i volumi che costituiscono la seconda edizione a stampa, è stata compilata in formato ePub, ritenendo che questo standard possa agevolmente essere fruito e, se necessario, agevolmente convertito per la lettura su qualsiasi dispositivo di lettura: smartphone, tablet e reader o monitor di computer. La realizzazione non è stata semplice in un ambiente in cui gli standard software e hardware sono in continua evoluzione. Lo sforzo è stato quello di rappresentare i contenuti nella maniera più liquida possibile per adattarli a qualsiasi mezzo con il solo uso di testo e immagini, ed evitando l'inserimento di elementi grafici strutturati, tabelle grafiche, formule che potessero impedirne la corretta riproduzione. Spero che alla fine le scelte tecnico-redazionali abbiano reso il più agevole possibile l'accesso ai contenuti. Questo terzo volume contiene le tavole anatomiche di dettaglio a supporto dei primi due volumi, nonché le metodologie di ricerca bibliografica e l'elenco per settori delle fonti e dei riferimenti utilizzati nello sviluppo dell'opera. Si ricorda che il primo volume è principalmente dedicato alla morfologia funzionale delle razze, mentre il secondo prevalentemente dedicato alla struttura, alla conformazione, alla tipizzazione e all'analisi valutativa dei soggetti. **Temì di Cinotecnica 4 - Fonti e documentazione** Mario Canton, 2016-03-08

Questo testo fa parte di una collana di studi tecnici sul cane, dedicato a materie che investono gli aspetti fisici e fisiologici dei cani e delle razze canine. I temi trattati non riguardano gli aspetti psichici del cane, come la sua etologia, psicologia, comportamento e le materie correlate come l'educazione o l'addestramento. Non vi sono trattati neppure argomenti legati all'allevamento, come la riproduzione e la crescita, o alla convivenza con il cane domestico, come la salute, l'igiene, l'alimentazione o le cure sanitarie. La collana si occupa dei cani e delle razze canine sotto l'aspetto strutturale e della loro conformazione in relazione al loro impiego.
