China was the most highly coveted new medium in sixteenth and early seventeenth century Europe. Its pure white color, translucency and durability as well as the delicacy of decoration were impossible to achieve in European earthenware and stoneware. In response, European ceramic factories set out to discover the process of producing porcelain in the Chinese manner, with significant artistic, technical and commercial ramifications for Britain and the Continent. Indeed, not only artisans but kings, noble patrons and entrepreneurs all joined in the quest, hoping to gain both prestige and profit from the enterprises they established. This beautifully illustrated volume showcases ninety works that span the late sixteenth to the mid nineteenth century and reflect the major currents of European porcelain production. Each work is illustrated with glorious new photography accompanied by analysis and interpretation by one of the leading experts in European decorative arts. Among the wide range of porcelains selected are rare blue and white wares and figures from Italy, superb examples from the Meissen factory in Germany and the Sèvres factory in France and ceramics produced by leading British eighteenth century artisans. Taken together, they reveal why the Metropolitan Museum's holdings in this field are among the finest in the world. p 1

bachelor life stirred rumors and the Nazi regime relied on the dictator's three dwellings: the Old Chancellery in Berlin, his apartment in Munich, and the Berghof, his mountain home on the Obersalzberg, to foster the myth of the Führer as a morally upstanding and refined man. Author Despina Stratigakos also reveals the previously untold story of Hitler's interior designer, Gerdy Troost, through newly discovered archival sources. At the height of the Third Reich, media outlets around the world showcased Hitler's homes to audiences eager for behind-the-scenes stories. After the war, fascination with Hitler's domestic life continued as soldiers and journalists searched his dwellings for insights into his psychology. The book's rich illustrations, many previously unpublished, offer readers a rare glimpse into the decisions involved in the making of Hitler's homes and into the sheer power of the propaganda that influenced how the world saw him. Inarguably the powder keg title of the year.

Mitchell Owen Architectural Digest: A fascinating read which reminds us that in Nazi Germany the architectural and the political can never be disentangled. Like his own confected image, Hitler's buildings cannot be divorced from their odious political hinterland. Roger Moorhouse, *Times*
