Patience the game of a million hastily concealed PC windows Its popularity is perhaps due to its strangely hypnotic nature even though it takes real persistence to win The game is played using a tableau of seven columns Running from left to right the first column contains one card the second contains two the third three etc In each column the top card should be face up and the rest face down Deal by placing one card face up on the table in front of you then to this card s right six more face down Repeat this row by row dealing one less card each time As well as the face up cards in the tableau you ll work with every third card in the remaining pack one at a time Move through the pack by taking three cards from the top and turning them over creating a new face up pile When you ve passed through the deck turn it over and start again Get your copy today by scrolling up and clicking Buy Now to get your copy today
