Pacific Asia Prospects For Security And Cooperation In East Asia:

Pacific Asia? Mel Gurtov, 2001-12-17 Most studies of Asia Pacific security are marked by pessimism and continuing belief in the virtues of a balance of power Pacific Asia goes against the grain by pointing to a number of positive developments especially economic in regional relationships the absence of an arms race the growth of multilateral groups and an emerging consensus on the importance of nonmilitary paths to national security Above all Mel Gurtov stresses a definition of security that focuses on basic human needs social justice and environmental protection The author disagrees with proponents of a China threat criticizes U S Cold War notions of security through forward based power and argues for new efforts at regional dialogue based on multilateral cooperation sensitivity to Asian nationalism and a role for Japan as a global civilian power

The East Asian Peace M. Weissmann, 2012-06-12 Using a case study based approach Weissmann analyses the post Cold War East Asian security setting to demonstrate why there is a paradoxical inter state peace He points out processes that have been important for the creation of a continuing relative peace in East Asia as well as conflict prevention and peacebuilding mechanisms

Japan's Security Agenda Christopher W. Hughes, 2004 Long constrained as a security actor by constitutional as well as external factors Japan now increasingly is called to play a greater role in stabilizing both the Asia Pacific region and the entire international system Japan's Security Agenda explores the country's diplomatic political military and economic concerns and policies within this new context

Advancing East Asian Regionalism Melissa Curley, Nicholas Thomas, 2012-10-12 Developments in East Asia have progressed rapidly in terms of regionalism since the 1997 crisis The end of the Asian miracle called into question not only the capacity of regional states to meet the needs of their attendant peoples but also challenged the viability of regional organizations such as ASEAN to adapt and respond to the changing circumstances Advancing East Asian Regionalism looks at the ways in which ASEAN has expanded since the crisis and evaluates the potential of East Asia to come together in a regional formation one capable of representing the region as a whole akin to the European Community It draws upon the knowledge and perspectives of academics and policy makers actively engaged in the contradictory issues of regionalism Coupling case study material on regionalism institutions and sectoral cooperation with theoretical debates on regionalization this book is an invaluable resource that pushes our understanding of East Asian regionalism forward

China and Japan at Odds J. Hsiung, 2007-09-17 This book is a penetrating study of the long conflict between China and Japan Drawing upon history geopolitics and geoeconomics this volume examines these important Asian powers at the bilateral regional and global levels Contributors examine issues including oil feuds the Taiwan factor and implications for U S interests in Asia Pacific

Peace and Security in Indo-Pacific Asia Sorpong Peou, 2021-11-21 Peace and Security in Indo Pacific Asia is for the informed the interested and the engaged Sorpong Peou brings together the skills of the pedagogue with the knowledge of the scholar Dr David Dewitt University Professor Emeritus Senior Scholar York University Toronto Canada Peou's excellent book provides

both the lay reader and the specialist with six important theoretical frameworks which should provide the basis for better appreciation of what a security community in Indo Pacific Asia means in our world today There are very few scholars who understand the region like Peou Dr W Andy Knight Professor of Political Science the University of Alberta Canada Sorpong Peou s extraordinary breadth of knowledge of both International Relations theory and the key trends in Indo Pacific Asia shines through in this authoritative analysis Dr Richard Stubbs Professor of Political Science McMaster University Canada A pedagogical approach of the textbook that is appreciated is how the author respectfully engages with the theories of IR and is not pushing an agenda of denouncing some theories and trying to persuade the reader of others We live in such polarizing times that it is truly refreshing to read scholarly work that avoids sensationalistic attacks on theories that have been debated for decades Each theory in this manuscript is explored on its own terms and the reader is encouraged to figure out where they stand on these enduring debates in the context of Indo Pacific security The approach will lead to compelling classroom discussions of the theories and the politics of the region This book is a must read for any student or observer of security trends in the region Dr Mark Williams Chair and Professor of Political Studies Vancouver Island University B C Canada

Entering Uncharted Waters? Pavin Chachavalpongpun, 2014-01-03 ASEAN has an abiding interest in peace and stability in this region and in freedom of navigation in and overflight above the South China Sea Much of ASEANs commerce including its members traded food and energy resources passes through or over the South China Sea The stakes for ASEAN and its members in the South China Sea are very high This book is the product of a conference on Entering Uncharted Waters ASEAN and the South China Sea Dispute initiated to remind all claimants to bring their claims as close as possible to the provisions of the 1982 UN Convention on the Law of the Sea After all ASEAN has sought to promote the rule of law in the region The conference and this book were inspired by the following objectives peace stability freedom of navigation and overflight confidence building cooperation and the rule of law

American Foreign Policy in a Globalized World David P. Forsythe, Patrice C. MacMahon, Andrew Wedeman, 2013-05-13 In this volume several leading foreign policy and international relations experts consider the long term prospects and implications of US foreign policy as it has been shaped and practiced during the presidency of George W Bush The essays in this collection based on the research of well respected scholars such as Ole Holsti Loch Johnson John Ruggie Jack Donnelly Robert Leiber Karen Mingst and Edward Luck offer a clear assessment while US resources are substantial Washington s ability to shape outcomes in the world is challenged by its expansive foreign policy goals its exceptionalist approach to international relations serious questions about the limits of its hard power resources as well as fundamental changes in the global system Illustrating one of the central ironies of the contemporary situation in foreign affairs and international relations that at the very time of the unipolar moment the world has become globalized to such an extent that the unilateralism of the Bush Administration leads as much to resistance as it does to coercion compliance and cooperation American Foreign Policy in a Globalized World will be of interest to students

and scholars of politics and international relations The Geopolitics of Australia's Regional Relations D.

Rumley, 2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people I owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda

Wu, 2007-09-12 China's recent rapid economic growth has drawn global attention to its foreign policy which increasingly has had an impact on world politics In contrast with China's long standing preference for bilateralism or unilateralism in foreign policy recent decades have seen changes in the PRC's attitude and in its declaratory and operational policies with a trend toward the accepting and advocating of multilateralism in international affairs Whilst China's involvement has been primarily in the economic arena for example participation in the World Trade Organization and ASEAN Plus Three it has more recently expanded into international security institutions such as the Shanghai Cooperation Organization This book records analyzes and attempts to conceptualize this phenomenal development in Chinese foreign policy and its impact on international relations with the emphasis on China's active participation in multilaterally oriented regional security regimes Written by an impressive team of international scholars this book is the first collective effort in the field of China studies and international relations to look at China's recent turn to multilateralism in foreign affairs It will appeal to students and scholars of Chinese politics and foreign policy security studies and international relations **The European Union's Security Relations with**
