Pacific Visions:

Canada and Competing Indo-Pacific Visions of China and the US Kenneth M. Holland, 2024-12-13 This book describes and analyzes the choices that Canada as a Middle Power has regarding the strategic rivalry between the United States and China. The administrations of Republican Donald Trump and his successor Democrat Joe Biden have taken a hardline stance toward Beijing which in turn has adopted an increasingly belligerent tone toward Washington. The posture of the United States toward China has put traditional American allies in a difficult position. They must choose whether to join the effort to counter China's ambitions, support those ambitions, or take some intermediate stance. As one of America's closest and longest standing allies, Canada must make decisions that will affect its position in the world for the rest of the twenty-first century. The book argues that Canada's national interests are best served by alignment with the confrontational posture of the United States while at the same time joining the efforts of U.S. allies Japan, India, and South Korea to moderate the thrust of Washington's Indo-Pacific Strategy in a direction more consistent with multilateralism and the preservation of the rules-based international order. The book has important implications for other U.S. allies including the member states of the European Union, Organization of American States, and Association of Southeast Asian Nations, each of which finds itself caught in the middle between the world's two greatest powers. Maritime Issues and Regional Order in the Indo-Pacific

Leszek Buszynski, Do Thanh Hai, 2021-07-02 This edited volume examines the political and security issues influencing and shaping the developing maritime order in the Indo-Pacific. It focuses specifically on the impact of China's maritime expansion upon the policies and strategies of the regional states as well as the major players. The chapters examine the interaction of these players, paying particular attention to Japan as the originator of the Indo-Pacific idea and promoter of security cooperation and regionalism. It also covers the responses of the ASEAN claimants: Vietnam, Malaysia, the Philippines, as well as Indonesia, alongside the key players: India, the US, and also the EU. **Making a Modern U.S. West** Sarah Deutsch, 2022 To many Americans in the nineteenth and twentieth centuries the West was simultaneously the greatest symbol of American opportunity, the greatest story of its history, and the imagined blank slate on which the country's future would be written. From the Spanish American War in 1898 to the Great Depression's end, from the Mississippi to the Pacific, policymakers at various levels and large-scale corporate investors along with those living in the West and its borderlands struggled over who would define modernity, who would participate in the modern American West, and who would be excluded. In *Making a Modern U.S. West*, Sarah Deutsch surveys the history of the U.S. West from 1898 to 1940. Centering what is often relegated to the margins in histories of the region, the flows of people, capital, and ideas across borders, Deutsch attends to the region's role in constructing U.S. racial formations and argues that the West as a region was as important as the South in constructing the United States as a white man's country. While this racial formation was linked to claims of modernity and progress by powerful players, Deutsch shows that visions of what constituted modernity were deeply contested by others. This expansive

volume presents the most thorough examination to date of the American West from the late 1890s to the eve of World War II

The Battle over Hetch Hetchy Robert W. Righter, 2005-03-17 In the wake of the devastating 1906 earthquake and fire the city of San Francisco desperately needed reliable supplies of water and electricity Its mayor James Phelan pressed for the damming of the Tuolumne River in the newly created Yosemite National Park setting off a firestorm of protest For the first time in American history a significant national opposition arose to defend and preserve nature led by John Muir and the Sierra Club who sought to protect what they believed was the right of all Americans to experience natural beauty particularly the magnificent mountains of the Yosemite region Yet the defenders of the valley while opposing the creation of a dam and reservoir did not intend for it to be maintained as wilderness Instead they advocated a different kind of development the building of roads hotels and an infrastructure to support recreational tourism Using articles pamphlets and broadsides they successfully whipped up public opinion against the dam Letters from individuals began to pour into Congress by the thousands and major newspapers published editorials condemning the dam The fight went to the floor of Congress where politicians debated the value of scenery and the costs of western development Ultimately passage of the Raker Act in 1913 by Congress granted San Francisco the right to flood the Hetch Hetchy Valley A decade later the O'Shaughnessy Dam the second largest civil engineering project of its day after the Panama Canal was completed Yet conflict continued over the ownership of the watershed and the profits derived from hydroelectricity To this day the reservoir provides San Francisco with a pure and reliable source of drinking water and an important source of power Although the Sierra Club lost this battle the controversy stirred the public into action on behalf of national parks Future debates over dams and restoration clearly demonstrated the burgeoning strength of grassroots environmentalism In a narrative peopled by politicians and business leaders engineers and laborers preservationists and ordinary citizens Robert W.
