Parliamentary Papers Great Britain. Parliament. House of Commons,1906 *The Survey of London: London north of the Thames* Walter Besant,1911 *The Survey of London: London south of the Thames.* 1912 Walter Besant,1911 London Walter Besant,Geraldine Edith Mitton,1911 London in Cinema Charlotte Brunsdon,2019-07-25 Charlotte Brunsdon s illuminating study explores the variety of cinematic Londons that appear in films made since 1945 Brunsdon traces the familiar ways that film makers establish that a film is set in London by use of recognisable landmarks and the city s shorthand iconography of red buses and black taxis as well as the ways in which these icons are avoided She looks at London weather fog and rain and everyday locations like the pub and the housing estate while also examining the recurring patterns of representation associated with films set in the East and West Ends of London from Spring in Park Lane 1948 to Mona Lisa

1986 and from Night and the City 1950 to From Hell 2001 Brunson provides a detailed analysis of a selection of films exploring their contribution to the cinematic geography of London and showing the ways in which feature films have responded to and created changing views of the city She traces London's transformation from imperial capital to global city through the different ways in which the local is imagined in films ranging from Ealing comedies to Pressure 1974 as well as through the shifting imagery of the River Thames and the Docks She addresses the role of cinematic genres such as horror and film noir in the constitution of the cinematic city as well as the recurrence of figures such as the cockney the gangster and the housewife Challenging the view that London is not a particularly cinematic city Brunson demonstrates that many London set films offer their own meditation on the complex relationships between the cinema and the city Old and New London a Narrative of Its History, Its People, and Its Places by Walter Thornbury Edward Walford, 1870 **St Mary's**
