Pafko At The Wall A Novella:

Pafko at the Wall Don DeLillo, 2008-06-30 There's a long drive. It's gonna be I believe. The Giants win the pennant. The Giants win the pennant. The Giants win the pennant. Russ Hodges, October 3, 1951. On the fiftieth anniversary of The Shot Heard Round the World, Don DeLillo reassembles in fiction the larger-than-life characters who on October 3, 1951, witnessed Bobby Thomson's pennant-winning home run in the bottom of the ninth inning. Jackie Gleason is razzing Toots Shor in Leo Durocher's box seats. J. Edgar Hoover, basking in Sinatra's celebrity, is about to be told that the Russians have tested an atomic bomb, and Russ Hodges, raw-throated and excitable, announces the game: the Giants and the Dodgers at the Polo Grounds in New York. DeLillo's transcendent account of one of the iconic events of the twentieth century is a masterpiece of American sportswriting.

The Cambridge Companion to Don DeLillo John N. Duvall, 2008-05-29 With the publication of his seminal novel *White Noise*, Don DeLillo was elevated into the pantheon of great American writers. His novels are admired and studied for their narrative technique, political themes, and their prophetic commentary on the cultural crises affecting contemporary America. In an age dominated by the image, DeLillo's fiction encourages the reader to think historically about such matters as the Cold War, the assassination of President Kennedy, threats to the environment, and terrorism. This Companion charts the shape of DeLillo's career, his relation to twentieth-century aesthetics, and his major themes. It also provides in-depth assessments of his best-known novels: *White Noise*, *Libra*, and *Underworld*, which have become required reading not only for students of American literature but for all interested in the history and the future of American culture.

The Self-Reflexive Art of Don DeLillo Graley Herren, 2019-06-27 Don DeLillo has spent his career reflecting upon the creative processes of artists. In recent years, he has become increasingly drawn to spectators and how they project and indulge their own private obsessions through art. *The Self-Reflexive Art of Don DeLillo* is the first book devoted to this dimension of DeLillo's art. It is also the first book to identify and analyze a signature DeLillo motif: the embedded author. In multiple novels, short stories, and plays, DeLillo inserts a character subtly implied as the creator of the very narrative we are reading or watching. Spanning his entire career but focusing primarily on his work from *Underworld* (1997) to *Zero K* (2016), *The Self-Reflexive Art of Don DeLillo* breaks important new ground in DeLillo studies.

Life between Two Deaths, 1989-2001 Phillip E. Wegner, 2009-07-10 An argument that it was only on September 11, 2001, that the symbolic universe of the Cold War was finally destroyed and a new world order put into place.

Critical Essays on American Literature K. Balachandran, L. Jeganatha Raja, 2005 Contributed essays.

Don DeLillo's Underworld John Duvall, 2002-01-11 This is part of a new series of guides to contemporary novels. The aim of the series is to give readers accessible and informative introductions to some of the most popular, most acclaimed, and most influential novels of recent years, from *The Remains of the Day* to *White Teeth*. A team of contemporary fiction scholars from both sides of the Atlantic has been assembled to provide a thorough and readable analysis of each of the novels in question.

The Baseball Novel

Noel Schraufnagel, 2008-08-29 This annotated bibliography covers approximately 400 novels published from 1838 through 2007 A substantial introduction to the history and development of the genre precedes the chronologically arranged entries which provide bibliographic details and extensive annotations on plot themes and compositional strengths and weaknesses Mainstream novels by writers such as Hemingway Wolfe Roth and DeLillo are included Appendices provide historical overviews for the primary baseball subgenres including mystery fantasy and science fiction lists for novels that foreground issues of race or ethnicity or both as in Winegardner's Vera Cruz Blues gender Gilbert's A League of Their Own and class Hay's The Dixie Association and the author's rankings of great baseball novels overall and by subgenre

Postmodernism in Pieces Matthew Mullins, 2016-07-01 Postmodernism in Pieces performs a postmortem on what is perhaps the most contested paradigm in literary studies In the wake of a critical consensus proclaiming its death Matthew Mullins breaks postmodernism down into its most fundamental orthodoxies and reassembles it piece by piece in light of recent theoretical developments in Actor Network Theory object oriented philosophy new materialism and posthumanism In the last two decades postmodernism has collapsed under the weight of the very phenomena it set out to deconstruct language whiteness masculinity class the academy Recasting these categories as social constructs has done little to alleviate their material effects Through detailed analyses of everyday objects in novels by Leslie Marmon Silko Toni Morrison Jonathan Lethem John Barth David Foster Wallace Don DeLillo and Julia Alvarez Mullins argues that what makes fiction postmodern is its refusal to accept social explanations for problems facing a given culture and its tendency instead to examine everyday things and people as constituent pieces of larger networks The result is a new story of postmodernism one that reimagines postmodernism as a starting point for a new mode of literary history rather than a finish line for modernity

Don DeLillo In Context Jesse Kavadlo, 2022-06-02 Don DeLillo is one of the most important novelists of the late twentieth and early twenty first century Yet despite DeLillo's prolific output and scholarly recognition much of the attention has gone to his works individually rather than collectively or thematically This volume provides separate entries into the wide variety and categories of contexts that surround and help illuminate DeLillo's writings Don DeLillo in Context examines how geography biography history media studies culture philosophy and the writing process provide critical frameworks and ways of reading and understanding DeLillo's prodigious body of work

Understanding Don DeLillo Henry Veggian, 2014-11-10 Henry Veggian introduces readers to one of the most influential American writers of the last half century Winner of the National Book Award American Book Award and the first Library of Congress Prize for American Fiction Don DeLillo is the author of short stories screenplays and fifteen novels including his breakthrough work White Noise 1985 and Pulitzer Prize finalists Mao II 1992 and Underworld 1998 Veggian traces the evolution of DeLillo's work through the three phases of his career as a fiction writer from the experimental early novels through the critically acclaimed works of the mid 1980s and 1990s into the smaller but newly innovative novels of the last decade He guides readers to DeLillo's principal concerns the tension between

biography and anonymity the blurred boundary between fiction and historical narrative and the importance of literary authorship in opposition to various structures of power and traces the evolution of his changing narrative techniques Beginning with a brief biography an introduction to reading strategies and a survey of the major concepts and questions concerning DeLillo's work Veggian proceeds chronologically through his major novels His discussion summarizes complicated plots reflects critical responses to the author's work and explains the literary tools used to fashion his characters narrators and events In the concluding chapter Veggian engages notable examples of DeLillo's other modes particularly the short stories that reveal important insights into his modular working method as well as the evolution of his novels

Conspiracy Culture Dr Peter Knight, Peter Knight, 2013-04-15 Conspiracy theories are everywhere in post war American culture From postmodern novels to The X Files and from gangsta rap to feminist polemic there is a widespread suspicion that sinister forces are conspiring to take control of our national destiny our minds and even our bodies Conspiracy explanations can no longer be dismissed as the paranoid delusions of far right crackpots Indeed they have become a necessary response to a risky and increasingly globalized world in which everything is connected but nothing adds up Peter Knight provides an engaging and cogent analysis of the development of conspiracy culture from 1960s countercultural suspicions about the authorities to the 1990s where a paranoid attitude is both routine and ironic Conspiracy Culture analyses conspiracy narratives about familiar topics like the Kennedy assassination alien abduction body horror AIDS crack cocaine the New World Order as well as more unusual ones like the conspiracies of patriarchy and white supremacy Conspiracy Culture shows how Americans have come to distrust not only the narratives of the authorities but even the authority of narrative itself to explain What Is Really Going On From the complexities of Thomas Pynchon's novels to the endless mysteries of The X Files Knight argues that contemporary conspiracy culture is marked by an infinite regress of suspicion Trust no one because we have met the enemy and it is us Rewiring the Real Mark C. Taylor, 2013-01-22 Digital and electronic technologies that act as extensions of our bodies and minds are changing how we live think act and write Some welcome these developments as bringing humans closer to unified consciousness and eternal life Others worry that invasive globalized technologies threaten to destroy the self and the world Whether feared or desired these innovations provoke emotions that have long fueled the religious imagination suggesting the presence of a latent spirituality in an era mistakenly deemed secular and posthuman William Gaddis Richard Powers Mark Danielewski and Don DeLillo are American authors who explore this phenomenon thoroughly in their work Engaging the works of each in conversation Mark C Taylor discusses their sophisticated representations of new media communications information and virtual technologies and their transformative effects on the self and society He focuses on Gaddis's The Recognitions Powers's Plowing the Dark Danielewski's House of Leaves and DeLillo's Underworld following the interplay of technology and religion in their narratives and their imagining of the transition from human to posthuman states Their challenging ideas and inventive styles reveal the fascinating ways religious

interests affect emerging technologies and how in turn these technologies guide spiritual aspirations To read these novels from this perspective is to see them and the world anew **Lyrical Strategies** Katie Owens-Murphy,2018-01-15 *Lyrical Strategies* advances the highly original idea that not all literary fiction should be read as a novel Instead Katie Owens Murphy identifies a prominent type of American novel well suited to the reading methods of lyric poetry and exhibiting lyric frameworks of structural repetition rhythm figurative meaning dramatic personae and exclusive address Owens Murphy surveys a broad array of writers poets from the lyrical transatlantic tradition as well as American novelists including Gertrude Stein Jean Toomer William Faulkner Toni Morrison Louise Erdrich and Cormac McCarthy Through a masterful reexamination of canonical works of twentieth century American fiction through the lens of lyric poetry she reveals how many elements in these novels can be better understood as poetic and rhetorical figures metaphysical conceit polysyndeton dramatic monologue apostrophe and so on than as narrative ones Making fresh contributions to literary theory and American fiction *Lyrical Strategies* will fascinate readers and scholars of the American novel fiction poetry and poetics alike

Liminal Fictions in Postmodern Culture Thomas Phillips,2015-09-16 *Liminal Fictions in Postmodern Culture* examines distinctive literary musical and cinematic narratives that seek to inspire critical thought and conduct through provocation From Gogol's *Dead Souls* to Salinger's *Franny and Zooey* Phillips argues liminal narratives offer an antidote to the modern commodification of the self *Don DeLillo* Stacey Olster,2011-02-17 A collection of original stimulating interpretations of key texts by Don DeLillo designed for students and edited and written by leading scholars in the field The book offers new perspectives on two of the most important pre millennial novels by any American writer *Mao II* and *Underworld* and the first extended discussions of *Falling Man* DeLillo's exploration of 9 11 and its aftermath An American Studies approach to the texts brings together both established DeLillo scholars and other academics whose interdisciplinary methodologies drawn from history ethnic studies new economic criticism women's studies art history and urban studies shed new light on DeLillo's work and demonstrate its wide ranging significance in contemporary American culture *Don DeLillo* David Cowart,2012-08-15 Don DeLillo author of twelve novels and winner of the National Book Award the PEN Faulkner Award the William Dean Howells Medal and the Jerusalem Prize has begun to rival Thomas Pynchon as the definitive postmodern novelist Always thought provoking and occasionally controversial DeLillo has become the voice of the bimillennial moment Charting DeLillo's emergence as a contemporary novelist of major stature David Cowart discusses each of DeLillo's twelve novels including his most recent work *The Body Artist* 2001 Rejecting the idea that DeLillo lacks affinities across the cultural spectrum Cowart argues that DeLillo's work invites comparison with that of wide range of antecedents including Dunbar Whitman Wittgenstein Heidegger Freud Lacan Derrida Hemingway Joyce Rilke and Eliot At the same time Cowart explores the ways in which DeLillo's art anticipates parallels and contests ideas that have become the common currency of poststructuralist theory The major site of DeLillo's engagement with postmodernism Cowart argues is language which

DeLillo represents as more mysterious numinous even than current theory allows For DeLillo language remains what Cowart calls the ground of all making Don DeLillo *The Physics of Language* is a provocative investigation of the most compelling issues of contemporary fiction UnderWords Joseph Dewey, Steven G. Kellman, Irving Malin, 2002 Don DeLillo's 1997 masterwork *Underworld* one of the most acclaimed and long awaited novels of the last twenty years was immediately recognized as a landmark novel not only in the long career of one of America's most distinguished novelists but also in the ongoing evolution of the postmodern novel Vast in scope intricately organized and densely allusive the text provided an immediate and engaging challenge to readers of contemporary fiction This collection of thirteen essays brings together new and established voices in American studies and contemporary American literature to assess the place of this remarkable novel not only within the postmodern tradition but within the larger patterns of American literature and culture as well By seeking to place the novel within such a context this lively collection of provocative readings offers a valuable guide for both students and scholars of the American literary imagination *Aethlon*, 1992 The journal of sport literature Updike in Cincinnati John Updike, 2007 I had a great time in Cincinnati but why is there no shrine to Doris Day John Updike In the wake of race riots and an airline strike John Updike came to the University of Cincinnati in April 2001 as an honored guest Over two spring days he engaged and charmed his audiences reading from his fiction fielding questions sitting for an interview participating in a panel discussion and touring Cincinnati Successful writers typically spend a portion of their non writing lives traveling the country to give readings and lectures While a significant experience for author and audience alike this public spectacle once covered in detailed newspaper accounts now is barely noticed by the media Updike in Cincinnati composed of a wealth of materials including session transcripts short fiction read and discussed by the author photographs and anecdotal observations about Updike's behavior in the Queen City is unique in comprehensively documenting a literary visit by a major American author Updike's verbal eloquence intelligence improvisational skills and gift for comedy are displayed in full vigor With natural grace the author discusses a range of topics including his own work his mother and his oldest son as writers Pete Rose and Shoeless Joe Jackson the Nobel Prize his appearance on *The Simpsons* the divine right of kings and Ottoman sultans and Hamlet Updike in Cincinnati portrays one of America's literary giants as an adept and talented public performer **Multimodal Poetics in Contemporary Fiction** Thomas Mantzaris, 2024-10-24 This book explores the growing body of multimodal literary texts books that creatively experiment with the potential of design to represent narrative content Examining five North and Central American novels from the first two decades of the twenty first century this study draws attention to texts that combine verbal text writing with non verbal elements photographic images varied typography maps color etc as integral parts of their narratives Their experimentation both reconfigures the potential for print based and born digital fiction in the future and holds a mirror to past practices of design and typography that were rendered invisible or which received limited attention by authors publishers and readers By placing the five case studies and

related texts within a broader history of experimentation in literature this book demonstrates how multimodal novels have changed the conceptualization of narrative content in literary texts and ushered in a new era for fiction
