Exploring a subject that is as important as it is divisive this two volume work offers the first current definitive work on the intricacies and issues relative to America's faith based schools. The Praeger Handbook of Faith Based Schools in the United States K-12 is an indispensable study at a time when American education is increasingly considered through the lenses of race ethnicity gender and social class. With contributions from an impressive array of experts the two volume work provides a historical overview of faith based schooling in the United States as well as a comprehensive treatment of each current faith based school tradition in the nation. The first volume examines three types of faith based schools: Protestant schools Jewish schools and Evangelical Protestant homeschooling. The second volume focuses on Catholic Muslim and Orthodox schools and addresses critical issues common to faith based schools among them state and federal regulation and school choice as well as ethnic cultural confessional and practical factors. Perhaps most importantly for those concerned with the questions and controversies that abound in U.S. education the handbook grapples with outcomes of faith based schooling and with the choices parents face as they consider educational options for their children.
