American Literacies is a personal public and political exploration of the problems faced by student writers from the African American Vernacular English AAVE culture Drawing on personal experience Elaine Richardson provides a compelling account of the language and literacy practices of African American students The book analyses the problems encountered by the teachers of AAVE speakers and offers African American centred theories and pedagogical methods of addressing these problems Richardson builds on recent research to argue that teachers need not only to recognise the value and importance of African American culture but also to use African American English when teaching AAVE speakers standard English African American Literacies offers a holistic and culturally relevant approach to literacy education and is essential reading for anyone with an interest in the literacy practices of African American students Landscape with Two Saints Lisa M. Bitel,2009-05-19 Lisa Bitel uses the history of two unique holy women Genovefa of Paris ca 420 509 and Brigit of Kildare ca 452 524 to reveal how ordinary Europeans lived through Christianization at the dawn of the Middle Ages Most converts did not have a sudden epiphany Bitel argues Instead they learned and lived their new religion in continuous conversation with preachers saints rulers and neighbors Together they built their faith over many years brick by brick into their churches and shrines cemeteries houses and even their markets and farms *The Contrast Between Good and Bad Men* Gardiner Spring,1855 City of God, City of Satan Robert C. Linthicum,2011-03-01 Why is the city a battleground of hostile principalities and powers What is the mission of the church in the city How can the church be supported in accomplishing that mission These are the questions that Robert Linthicum treats in his comprehensive and probing biblical theology of the city In the Bible the city is depicted both as a dwelling place of God and his people and as a center of power for Satan and his minions The city is one primary stage on which the drama of salvation is played out And that is no less the case at the end of this pivotal century as megacities become the focal point of most human activity and aspirations around the world This is a timely theology of the city that weaves the theological images of the Bible and the social realities of the contemporary world into a revealing tapestry of truths about the urban experience Its purpose is to define clearly the mission of the church in the midst of the urban realities and to support well the work of the church in the urban world **Northumberland and Its Neighbour Lands ...
