**Trends 2000** Gerald Celente, 2009-05-30 As the millennium approaches so do many new business opportunities This practical and fascinating survival guide for the future throws a spotlight on today's hidden trends and reveals how they will shape the events of tomorrow

**The Jews and the Expansion of Europe to the West, 1450-1800** Paolo Bernardini, Norman Fiering, 2004-01-01 Jews and Judaism played a significant role in the history of the expansion of Europe to the west as well as in the history of the economic social and religious development of the New World They played an important role in the discovery colonization and eventually exploitation of the resources of the New World Alone among the European peoples who came to the Americas in the colonial period Jews were dispersed throughout the hemisphere indeed they were the only cohesive European ethnic or religious group that lived under both Catholic and Protestant regimes which makes their study particularly fruitful from a comparative perspective As distinguished from other religious or ethnic minorities the Jewish struggle was not only against an overpowering and fierce nature but also against the political regimes that ruled over the various colonies of the Americas and often looked unfavorably upon the establishment and toleration of Jewish communities in their own territory Jews managed to survive and occasionally to flourish against all odds and their history in the Americas is one of the more fascinating chapters in the early modern history of European expansion

Terror Television John Kenneth Muir, 2013-02-25 Although horror shows on television are popular in the 1990s thanks to the success of Chris Carter's *The X-Files* such has not always been the case Creators Rod Serling Dan Curtis William Castle Quinn Martin John Newland George Romero Stephen King David Lynch Wes Craven Sam Raimi Aaron Spelling and others have toiled to bring the horror genre to American living rooms for years This large scale reference book documents an entire genre from the dawn of modern horror television with the watershed Serling anthology *Night Gallery* 1970 a show lensed in color and featuring more graphic makeup and violence than ever before seen on the tube through more than 30 programs including those of the 1998 1999 season Complete histories critical reception episode guides cast crew and guest star information as well as series reviews are included along with footnotes a lengthy bibliography and an in depth index From Kolchak *The Night Stalker* to *Millennium* from *The Evil Touch* to *Buffy the Vampire Slayer* and *Twin Peaks* *Terror Television* is a detailed reference guide to three decades of frightening television programs both memorable and obscure

*Earth Odyssey* Mark Hertsgaard, 1999 Based on his extensive investigation of the global environmental crisis in which he explored five continents *Earth Odyssey* recounts Hertsgaard's search for the answer to the essential question of our time Is the future of the human species at risk

*Preserving Democracy* Elgin L Hushbeck, Jr, 2024-05-21 Like an aging monument democracy itself is crumbling An ever expanding government threatens both our freedom and a financial collapse Increasing polarization makes the task of governing effectively difficult Government's attempts to make people's lives better often have the opposite effect Differing views of the Constitution divide more than unify us Both sides increasingly question elections if they don't win Even

the concept of what an American is leads to division Debate is often less about solving problems and more about political advantage and defeating the other side Today 15 years after the first edition of this book was published these problems are growing worse not better But the solutions still remain in deeper understanding of the issues and in the ability to work together to produce effective solutions that are based on facts and evidence We can learn a great deal about how to accomplish this by studying the history of American representative democracy Preserving Democracy delves into areas such as taxation and the welfare state planning versus competition the rule of law the breakdown of voting the distortion of language the importance of an informed electorate and the loss of American values It highlights how these factors have impacted the health of American democracy and government and outlines the long term consequences This book points the way to seriously studying American democratic traditions and the things that have made them function this long It then talks about how we can get back onto the track of building and preserving a just society Every American who plans to vote or otherwise participate in our government needs to read this book not necessarily to agree with the author on each subject but to find a way to better understand both the subject and the background of diverse views Informed dialogue may be the key to preserving democracy in America

*Visions of Schooling* Rosemary C. Salomone, 2008-10-01

At no time in the past century have there been fiercer battles over our public schools than there are now Parents and educational reformers are challenging not only the mission content and structure of mass compulsory schooling but also its underlying premise that the values promoted through public education are neutral and therefore acceptable to any reasonable person In this important book Rosemary Salomone sets aside the ideological and inflammatory rhetoric that surrounds today's debates over educational values and family choice She offers instead a fair minded examination of education for democratic citizenship in a society that values freedom of conscience and religious pluralism And she proposes a balanced course of action that redefines but does not sever the relationship between education and the state Salomone demonstrates how contemporary conflicts are the product of past educational and social movements She lays bare some of the myths that support the current government monopoly over education and reveals how it privileges those of economic means Through a detailed case study of recent controversy in a suburban New York school district the author explores the legal and policy issues that arise when widely disparate world views stand in the way of political compromise on educational materials techniques and programs Salomone builds a case for educational governance that places the developmental needs of the child at the center of family autonomy She advances a plan that respects diverse values and visions of schooling while preserving the core commitments that bind our nation

div *Prosecuting War Crimes and Genocide* Howard Ball, 1999-10-15

The ethnic cleansing that has gripped the Balkans for much of this decade is but another chapter in the long history of man's inhumanity to man Hopeful but unflinching in the face of such realities Howard Ball's book focuses on international efforts to punish perpetrators of genocide and other war crimes Combining history politics and critical analysis he revisits the killing fields of Cambodia

documents the three month Hutu machete genocide of about 800 000 Tutsi villagers in Rwanda and casts recent headlines from Kosovo in the light of these other conflicts Beginning with the 1899 Geneva Accords and the Armenian genocide of World War I Ball traces efforts to create an institution to judge punish and ultimately deter such atrocities particularly since World War II since which there have been fourteen cases of genocide He shows how international military tribunals in Nuremberg and Tokyo set important precedents for international criminal justice tells what the international community learned from its failure to stop Pol Pot in Cambodia and describes the ad hoc tribunals convened to address genocide in the Balkans and Rwanda He then focuses on the establishment of the International Criminal Court with the Treaty of Rome in 1998 and assesses its probable future The book also analyzes the reluctance of the United States to sanction the ICC tracing longstanding U S reluctance to grant criminal justice jurisdiction to an international prosecutor Ball examines questions of national sovereignty versus international law and reminds us that although most Americans consider such horrors to be problems of other countries these are in fact countries in which many of our own citizens have their roots With its unique focus on the ICC Prosecuting War Crimes and Genocide is a work of both synthesis and advocacy that combines history and current events to make us more aware of the racist fervor with which these brutalities are carried out more alert to the euphemisms in which they are cloaked It forces us to ask not only whether the killing will stop but whether humanity can prevent future genocides

Making Social Welfare Policy in America Edward D. Berkowitz, 2020-04-17 American social welfare policy has produced a health system with skyrocketing costs a disability insurance program that consigns many otherwise productive people to lives of inactivity and a welfare program that attracts wide criticism Making Social Welfare Policy in America explains how this happened by examining the historical development of three key programs Social Security Disability Insurance Medicare and Temporary Aid to Needy Families Edward D Berkowitz traces the developments that led to each program s creation Policy makers often find it difficult to dislodge a program s administrative structure even as political economic and cultural circumstances change Faced with this situation they therefore solve contemporary problems with outdated programs and must improvise politically acceptable solutions The results vary according to the political popularity of the program and the changes in the conventional wisdom Some programs such as Social Security Disability Insurance remain in place over time Policy makers have added new parts to Medicare to reflect modern developments Congress has abolished Aid to Families of Dependent Children and replaced with a new program intended to encourage work among adult welfare recipients raising young children Written in an accessible style and using a minimum of academic jargon this book illuminates how three of our most important social welfare programs have come into existence and how they have fared over time

Dangerous Music? – 'Explicit' Lyrics in the United States of America Julian Weller, 2024-07-22 This book discusses the history of music warning labels specifically the Parental Advisory Label PAL and the Parents Music Resource Center PMRC It aims to answer these questions How could the PMRC trigger a debate on music lyrics as a negative influence on

children that led to the introduction of the PAL in the long run What did the implementation of the PAL warning mean for musicians and how had the perception of music changed so that the advisory label was deemed necessary The central thesis is that through the discourse on explicit lyrics certain music was marked as an actual threat to children and society and consequently started to be perceived as such By the way in which the discourse evolved and how other actors conducted themselves in the debates this understanding of certain music was repeatedly re negotiated and connected to other current discourses such as discourses on family values sexuality youth culture generational conflicts and social problems Through this the understanding of certain music as a threat to children and society was constantly renewed The book analyses the PMRC s campaign on explicit lyrics and provides insights into their strategy and success from a historical perspective

**The War on Drugs** Ron Chepesiuk,1999-12-17 Here is the whole story of the world of drugs from the infamous Opium Wars to the legal availability of narcotics in the United States during the past century from the unexpected boost given to illicit drugs by Prohibition to the great success of the French Connection The global drug trade is one of the most prominent examples of the law of supply and demand Despite such countermeasures as the execution of narcotics dealers in China and the United States s much ballyhooed War on Drugs drug traffickers have always managed to meet the demand and satisfy an ever growing customer base In addition to offering a wealth of little known facts The War on Drugs also covers major dealers cartels organizations smuggling and anti smuggling strategies major miscalculations and disasters drug epidemics legal restraints famous incidents and more *American Indian Image Makers of Hollywood* Frank Javier Garcia

Berumen,2020-01-01 Images from movies and film have had a powerful influence in how Native Americans are seen In many cases they have been represented as violent uncivilized and an impediment to progress and civilization This book analyzes the representation of Native Americans in cinematic images from the 1890s to the present day deconstructing key films in each decade This book also addresses efforts by Native Americans to improve and have a part in their filmic representations including mini biographies of important indigenous filmmakers and performers **The Long March** Roger

Kimball,2001-06-01 In The Long March Roger Kimball the author of Tenured Radicals shows how the cultural revolution of the 1960s and 70s took hold in America lodging in our hearts and minds and affecting our innermost assumptions about what counts as the good life Kimball believes that the counterculture transformed high culture as well as our everyday life in terms of attitudes toward self and country sex and drugs and manners and morality Believing that this dramatic change cannot be understood apart from the seductive personalities who articulated its goals he intersperses his argument with incisive portraits of the life and thought of Allen Ginsberg Norman Mailer Timothy Leary Susan Sontag Eldridge Cleaver and other cultural revolutionaries who made their mark For all that has been written about the counterculture until now there has not been a chronicle of how this revolutionary movement succeeded and how its ideas helped provoke today s culture wars The Long March fills this gap with a compelling and well informed narrative that is sure to provoke discussion and debate

*Reinventing Richard Nixon* Daniel Frick, 2023-04-21 Nixon's the One proclaimed his campaign paraphernalia Tricky Dick retorted his detractors From presidential savior for conservative America to bête noire for the political Left the Richard Nixon persona has worn many masks and labels In fiction and poetry and pop songs in television and film no other national political figure has so thoroughly saturated our public consciousness with so many contrasting images Focusing on the process of Nixon's continuous reinvention Daniel Frick reveals a figure who continues to expose key fault lines in the nation's self definition Drawing on references ranging from *All in the Family* to Zappa and the Mothers of Invention he shows how Nixon has become one of America's most durable and multifaceted icons in the ongoing and fierce debates over the import and meaning of the last sixty years of national life Examining Nixon's autobiographies and political memorabilia Frick offers far reaching perceptions not only of the man but of Nixon's version of himself contrasted with those who would interpret him differently He cites reinventions of Nixon from the late 1980s particularly the museum at the Richard Nixon Library and Birthplace to demonstrate the resilience of certain national mythic narratives in the face of liberal critiques And he recounts how celebrants at Nixon's state funeral at which Bob Dole's eulogy depicted a God fearing American hero attempted to bury the sources of our divisions over him rendering in some minds the judgment of redeemed statesman to erase his status as disgraced president With dozens of illustrations Nixon posing with Elvis the National Archives most requested photo Nixonian cultural artifacts classic editorial cartoons no other book collects in one place such varied images of Nixon from so many diverse media These reinforce Frick's probing analysis to help us understand why we disagree about Nixon and why it matters how we resolve our disagreements Whether your image of Nixon is shaped by his autobiography *Six Crises* Oliver Stone's surprisingly sympathetic film *Nixon* John Adams's landmark opera *Nixon in China* or by the saga of Watergate *Reinventing Richard Nixon* expands on all perspectives It shows how through these contradictory mythic stories we continue to reinvent much like Nixon himself our own sense of national identity

**Sigmund Freud** Ruth Sheppard, 2021-07-15 Neurologist Sigmund Freud known as the father of psychoanalysis helped many dive into their subconscious and better understand themselves Less known is that Freud struggled with neuroses too In fact he used some of his famed techniques on himself This extraordinary book is a compelling chronological account of Freud's life both personal and professional Of particular focus is the examination of how he developed his theories Primary sources from the London Freud Museum such as diary extracts rare photographs and personal notes give insight into the mind of the man who helped unravel the mystery of our own minds

**Not Here, Not Now, Not That!** Steven J. Tepper, 2011-07-15 In the late 1990s *Angels in America* Tony Kushner's epic play about homosexuality and AIDS in the Reagan era toured the country inspiring protests in a handful of cities while others received it warmly Why do people fight over some works of art but not others *Not Here Not Now Not That* examines a wide range of controversies over films books paintings sculptures clothing music and television in dozens of cities across the country to find out what turns personal offense into public protest What Steven J Tepper discovers is that these

protests are always deeply rooted in local concerns Furthermore they are essential to the process of working out our differences in a civil society To explore the local nature of public protests in detail Tepper analyzes cases in seventy one cities including an in depth look at Atlanta in the late 1990s finding that debates there over memorials public artworks books and parades served as a way for Atlantans to develop a vision of the future at a time of rapid growth and change Eschewing simplistic narratives that reduce public protests to political maneuvering Not Here Not Now Not That at last provides the social context necessary to fully understand this fascinating phenomenon **Stranger Danger** Paul M. Renfro,2020

Stranger Danger examines the moral panic over child kidnapping and exploitation that erupted in the late 1970s and early 1980s It shows how several high profile cases of missing and murdered white photogenic children generated a national furor over child safety and led to the creation of new legal and cultural instruments designed to keep children safe and to punish those who ostensibly wished them harm **Making News at The New York Times** Nikki Usher,2014-04-24 An ethnographic study of The New York Times business desk provides a unique vantage point to see the future for news in the digital age **In the Red** Geremie Barmé,1999 A leading observer of Chinese literature society and politics lifts the veil on the culture wars that have raged between officials and dissidents in the period before and after the June 4 1989 Tiananmen Square massacre **The Dynamics of Political Communication** Richard M. Perloff,2013-12-04 What impact do news and political advertising have on us How do candidates use media to persuade us as voters Are we informed adequately about political issues Do 21st century political communications measure up to democratic ideals The Dynamics of Political Communication Media and Politics in a Digital Age explores these issues and guides us through current political communication theories and beliefs Author Richard M Perloff details the fluid landscape of political communication and offers us an engaging introduction to the field and a thorough tour of the d *Before I Forget . . .* Herbert W. Herbert W. Hobler,2013-08-13 When I was young the Civil War and the Revolutionary War was ancient history to me However as I now reflect on my life I suddenly realize how young our country is for I knew somebody who knew people in the Revolutionary War that ended over 225 years ago GrandmotherGranniemother of my Grandfather Herbert Windsorwas born in 1835 and died in 1927 when I was fivea wonderful old lady I loved She was 10 in 1845 60 years after that war ended I am sure there were numerous veterans then 80 90 years old And so I touched the woman who touched some veterans of the Revolutionary War She also had to know quite a few in the Civil War when she was 20 years old a war that ended only 57 years before my birth Put in this perspective what has happened to our country in that time is incredible from total population to trains planes telephones automobiles medicines radio TV computers a man on the moon and millions of new citizens from all over the world None of these people could even have conceived of such marvels nor a life expectancy from about 35 to 40 to 83 plus My life has seen an explosion in technology that now affects the entire world I have been privileged to be in on the beginning of some of that technology I have written these memoirs so that the family and possible future generations might share in my

experiences of a life of many involvements many accomplishments some failures many contacts with the famous and a life for which I can be so grateful As the youngest of four I often was rebellious I wanted my own way I suspect this was partly due to inheriting some of my fathers genes Occasionally I had tantrums which were easily handled by mother who would say Go on and yell Ill wait That pretty well cooled my attempt at getting attention Still I was brought up in a loving family the four of us with our parents were all for each other Thanks to Dads success in business we were brought up even with the Depression with comfort Throughout my career I was known for being quite creative I think that too came in part from Dad being very positive about doing things his way I wanted to challenge him on many things and that caused me to think about new ways I never could have guessed I would marry a girl from my kindergarten class I was based in California and fearlessly spoke up to my commanding officer a Major whose name was the same as a fellow member of Tiger Inn at Princeton He changed my orders that permitted me to call a girl I had dated at Vassar and while on a weekend date in La Jolla I visited the parents of Mary Randolph who lived there I always enjoyed the Randolphs each of whom had creative talents and an unusual sense of humor They enjoyed small situations that would pass by most people Their only child absorbed the best of each Sixty years later she could still reel off a classic story while having fun doing it Randy has been an extraordinary companion all these years She was always very creative with great talents in so many ways Still except for our common background in Bronxville from the start we had different interests Mine were sports and music and taking risks Hers were reading writing and avoidance of conflict By necessity she was brought up frugally The fact we stayed together all these 68 years is a great tribute to her hanging in as she raised our kids cooked their meals on time dressed them and drove them to wherever In our earlier years when we were still trying to adjust to each other she once said she should have married a 9 5 husband who didnt commute Her support for my passion for various jobs with late hours and business trips while she was stuck at home made my life possible How lucky can a man be She raised four wonderful children each quite different from the other yet each closely and lovingly attached to each other and to us NOTE To minimize confusion when Randy
