Lands of Likeness Kevin Hart, 2024-05-31 An original and profound exploration of contemplation from philosopher theologian and poet Kevin Hart In *Lands of Likeness* Kevin Hart develops a new hermeneutics of contemplation through a meditation on Christian thought and secular philosophy Drawing on Kant Schopenhauer Coleridge and Husserl Hart first charts the emergence of contemplation in and beyond the Romantic era Next Hart shows this hermeneutic at work in poetry by Gerard Manley Hopkins Marianne Moore Wallace Stevens and others Delivered in its original form as the prestigious Gifford Lectures *Lands of Likeness* is a revelatory meditation on contemplation for the modern world *The Global Connections of Gandhāran Art* Wannaporn Rienjang, Peter Stewart, 2020-09-02 Gandhāran art is often regarded as the epitome of cultural exchange in antiquity The ancient region of Gandhāra centred on what is now the northern tip of Pakistan has been called the crossroads of Asia The Buddhist art produced in and around this area in the first few centuries AD exhibits extraordinary connections with other traditions across Asia and as far as the Mediterranean Since the nineteenth century the Graeco Roman associations of Gandhāran art have attracted particular attention Classically educated soldiers and administrators of that era were astonished by the uncanny resemblance of many works of Gandhāran sculpture to Greek and Roman art made thousands of miles to the west More than a century later we can recognize that the Gandhāran artists' appropriation of classical iconography and styles was diverse and extensive but the explanation of this influence remains puzzling and elusive The Gandhāra Connections project at the University of Oxford's Classical Art Research Centre was initiated principally to cast new light on this old problem This volume is the third set of proceedings of the project's annual workshop and the first to address directly the question of cross cultural influence on and by Gandhāran art The contributors wrestle with old controversies particularly the notion that Gandhāran art is a legacy of Hellenistic Greek rule in Central Asia and the growing consensus around the important role of the Roman Empire in shaping it But they also seek to present a more complex and expansive view of the networks in which Gandhāra was embedded Adopting a global perspective on the subject they examine aspects of Gandhāra's connections both within and beyond South Asia and Central Asia including the profound influence which Gandhāran art itself had on the development of Buddhist art in China and India *Paysages en perspective* Gérald Domon, Philippe Poullaouec-Gonidec, Sylvain Paquette, Université de Montréal. Chaire en paysage et environnement, 2005 Il peut paraître tonnant de consacrer tout un livre l'étude des inégalités sociales en matière de santé dans le cadre des pays occidentaux très majoritairement dotés de systèmes universels de soins de qualité Pourtant force est de constater que les disparités sociales persistent encore dans nos sociétés où l'accès à la santé n'est toujours pas synonyme d'égalité sur le plan de la santé et devant la mort Cet ouvrage dresse un portrait détaillé et offre une analyse rigoureuse des inégalités sociales dans le domaine de la santé mettant en lumière les recherches importantes faites en sciences sociales en psychologie et en sciences de la santé Tout en proposant des pistes d'intervention Ginette Paquet montre le rôle déterminant de la petite
