Painting Popularly Explained Thomas John Gullick, 2023-08-18 Reprint of the original first published in 1873 ***The Art of Impressionism*** Anthea Callen, 2000-01-01 Drawing on scientific studies of pigments and materials artists treatises colourmen's archives and contemporary and modern accounts Anthea Callen demonstrates how raw materials and paintings are profoundly interdependent She analyses the material constituents of oil painting and the complex processes of making entailed in all aspects of artistic production discussing in particular oil painting methods for landscapists and the impact of plein air light on figure painting studio practice and display Insisting that the meanings of paintings are constituted by and within the cultural matrices that produced them Callen argues that the real modernity of the Impressionist enterprise lies in the painters material practices **BOOK JACKET**

Explaining Pictures Ikumi Kaminishi, 2006-02-28 Early Japanese Buddhism was patronized by the literate classes and remained a prerogative of the elite until the end of the twelfth century With the fiscal and political decline of its aristocratic patrons the Buddhist establishment turned increasingly to lay commoners for financial support using paintings to accommodate its new and often subliterate audiences One type of preaching known as etoki pictorial decipherment helped bridge the worlds of esoteric Buddhism and lay practice and reveals much about the role of art in the context of didactic storytelling and proselytization Beginning with the provocative claim that the popularization of Buddhism in the medieval period was a phenomenon of visual culture *Explaining Pictures* reexamines the history and historiography of medieval Japanese Buddhism With theoretical sophistication and a full appreciation of the power of imagery to convey and control religious meaning it investigates a range of aspects of etoki including the particularly active role of itinerant nuns whose performances were especially edifying to female audiences as well as the visual hagiography of the reputed founder of Japanese Buddhism the pictorial projections of Buddhist paradise and hell and the explanation through visual imagery of sacred mountains Part One presents the social history of etoki as it appears in a broad variety of written sources from the tenth to fifteenth centuries and investigates how etoki helped establish the cult of Shot ku Taishi Part Two covers the period between the late twelfth and fourteenth centuries

with a focus on Pure Land Buddhist propaganda and its use in etoki practice Etoki sermons on the Taima Mandala the visual description of the Pure Land Buddhist canons show how envisioning the land of bliss substitutes for meditative concentration to gain enlightenment Ikumi Kaminishi next turns to the itinerant etoki proselytes and similar performing artists between the fifteenth and the sixteenth centuries These individuals preached on the road and through their missionary work reached out to commoners turning etoki into an effective method of imparting religious beliefs and soliciting alms In the late medieval period audiences regarded itinerant preachers much like traveling artists and vendors which has led modern scholars to conclude that etoki priests desecrated religious rituals Kaminishi reconsiders this historiographical problem in relation to the social meaning of itinerant performing artists of the period Finally she examines etoki's effect on the popularization of sacred mountain worship in particular Kumano and Tateyama during the seventeenth through nineteenth centuries Chapters focus on the Kumano propaganda image used by nuns how Christian religious imagery was exploited in seventeenth century Buddhist propaganda and the ways in which etoki campaigns made the remote Tateyama a popular pilgrimage site in early modern times Explaining Pictures is an important groundbreaking work the first book length study devoted to the phenomenon of Buddhist art as religious propaganda and pictorial storytelling as a form of popular culture in medieval Japan A truly interdisciplinary study it suggests fruitful avenues of discussion between art historians and historians of Japanese Buddhism Scholars and students with an interest in Japanese Buddhism art and social and cultural history will find its examination of significant issues fresh and stimulating It will also find an appreciative audience among those concerned with the relationship between art and religion the mechanics of proselytization and Asian visual culture **Painting Explained**

Thomas John Gullick, Paul Dennis Sporer, 2005-08-01 A common lament among artists is that there are no books available that give specific practical information about the procedures used by those creative geniuses collectively known as the Old Masters The reason for this dearth is that such a work's author would have to possess extraordinarily wide ranging expert knowledge and skills Thomas Gullick's credentials indicate a great capability in taking up this challenge He was a professional artist and scholar living in the mid 19th century and so was in an exemplary position to discuss the intricacies of traditional techniques and to compare modern systems to the styles and methods of previous eras The book's exceptionally insightful combination of art history aesthetic theory and erudite analysis made it highly regarded at the time and it was given as a prize for outstanding achievement at the Royal College of Art in London In this important new edition with a newly compiled comprehensive index Gullick authoritatively covers the aims and objectives the artist should have when interpreting reality with stress laid on accuracy of detail depth and transparency Apropos of these principles he skilfully discusses the surprisingly complex theories of art that existed in ancient times including that of the Egyptians Assyrians Greeks Etruscans and Romans Also the spiritual features of Christian Medieval art are explored as are the distinctive traits of the national schools of Italy Germany the Low Countries and England Of particular value to the working artist are the detailed sections

dealing with technical issues of pre modern forms of painting many of which are poorly understood today but that could if used greatly facilitate and expand the range of visual expression The reader will learn about various physical processes such as encaustic mosaic tempera fresco oil and miniature painting There is also a wealth of knowledge pertaining to implements vehicles varnishes grounds colours subjectiles i e supports chemical formulations the arrangement of the work room and studio and much more Despite the sophisticated nature of the material the author does not neglect the human dimension for he cites pertinent facts as well as witty anecdotes from the life stories of many well known and not so well known artists

Loendorf, David S. Whitley, 1994-12-31 Jizi and His Art in Contemporary China David Adam Brubaker, Chunchen Wang, 2015-02-12 This interdisciplinary study promotes the thesis that some contemporary Chinese ink artists succeed in using principles of traditional Chinese aesthetics to convey the union of self with nature others and the universe The investigation is a case study of the writings and paintings of Jizi an ink wash artist in Beijing who combines images of icy

mountains Tibetan landscapes cosmic vistas and enclosures of personal existence Jizi's success in expressing the unification of these dimensions is confirmed by developing and applying an interpretation of Jing Hao's classic description of the authentic image which resonates with the vitality of nature To find words for resonance with visible nature the inquiry extends to such writers as Li Zehou Arthur Danto and Maurice Merleau-Ponty In short an account of authenticity in Chinese ink painting is offered experimentally as a means for assessing whether contemporary Chinese artworks are expressive of Chinese philosophy and culture The text includes stylistic comparisons with artists such as E.C. Escher Guo Xi Jia Youfu Liu Guosong Rene Magritte Piet Mondrian and Xu Bing The result is an appreciation of the healing influence of Chinese ink art in a global culture that is vibrant complex diverse and affirming of the present In this rigorous far-reaching and original analysis of contemporary ink art painting Brubaker and Wang focus our attention on the work of one independent painter Jizi whose work exemplifies an uncanny marriage between ink art and contemporary concerns In the central chapters Brubaker persuasively argues that in this work Jizi captures principles essential to traditional Chinese aesthetics articulated in terms of wholeness emptiness and visibility that enable the works to express the unification of the self with nature and the universe as a whole It does this through forms that are innovative and part of artistic practices and discourses that are becoming increasingly global Mary Wiseman The City University of New York This important publication focuses on the evocative ink wash paintings of an artist who has over the course of decades demonstrated an unwavering commitment to exploring the technical formal philosophical and experiential dimensions of his chosen medium The essays commentaries and critical reflections collected in this volume present unique perspectives on Jizi's practice significantly contributing to the growing body of scholarship on the continuing vitality of the ink wash tradition in the global contemporary Dr Wenny Teo The Courtauld Institute of Art Through an in-depth study of the ink painting practice of contemporary Chinese artist Jizi the authors discover Chinese ink painting's philosophical perspectives cosmic foundations and contemporary possibilities They also uncovered a way to enter into the artist's rich and profound spiritual world through Jiazi's expansive visual patterning and refined spiritual imagery he activates a long and great cultural tradition Yu Yang Central Academy of Fine Arts *The Spirit of Secular Art* Robert Nelson, 2007 THE SPIRIT OF SECULAR ART explains the spiritual prestige of art Various theorists have discussed how art has an aura or indefinable magic This book explains how when and why it gained its spiritual properties The idea that all art is somehow spiritual even though not religious is often assumed this book while narrating the historical trajectory of art in the most accessible language reveals how the mysteries of religious practice are abstracted and saved through all stages of secularisation in European culture THE SPIRIT OF SECULAR ART presents a coherent theory defining the sacred basis of Western aesthetics It evocatively describes the afterlife of the holy from Ancient Greece to the present and outlines how the mysterious institution of art can be explained in material terms Unlike other books in the genre THE SPIRIT OF SECULAR ART radically deconstructs traditional art history in terms of prestige and the

value of the non material The book functions as an alternative critical history of art integrated with the histories of literature and belief a philosophical essay on the fundamental values of art and religion and a critique of the spiritual conceits of contemporary aesthetics and art appreciation China Pluperfect I Frank Vigneron,2022-07-01 Initially based on a comparative study of Chinese and Euro American art theory in the 18th and 19th centuries this book examines how both cultures looked at their own past and their outside i e what was construed as not belonging to their own cultural sphere and how they devised new ways of adapting them into evolving cultural constructs While the 17th century was still a time when the epistemological backgrounds of both civilizations were so profoundly different that nearly no dialogue was possible the 18th century saw the emergence in both places of profound changes that would get them close enough to create the conditions for the beginning of a conversation First quite superficial and taking shape mostly in the decorative arts this process of rapprochement while remaining chaotic and unpredictable led to wider and more profound zones of contact throughout the late 19th and 20th centuries Through the reinterpretations of each other s cultural creations these zones of contact grew wider as the conditions for globalization became more and more prevalent Frank Vigneron observes and explores these changes through texts and the visual arts to reveal how these two civilizations while keeping their own characteristics managed to develop fruitful dialogues and create deeply intertwined cultures As an example the final chapter looks at contemporary Chinese calligraphy as an art that even though it has no equivalent in Euro America successfully integrated cross cultural theoretical elements thus exemplifying how past and outside can combine into new artistic constructs *Visualizing the Afterlife in the Tombs of Graeco-Roman Egypt* Marjorie Susan Venit,2016 This book explores the visual narratives of a group of decorated tombs from Ptolemaic and Roman Egypt c 300 BCE 250 CE The author contextualizes the tombs within their social political and religious context and considers how the multicultural population of Graeco Roman Egypt chose to negotiate death and the afterlife **Explaining Creativity** R. Keith Sawyer,2012-01-12 Explaining Creativity is a comprehensive and authoritative overview of scientific studies on creativity and innovation Sawyer discusses not only arts like painting and writing but also science stage performance business innovation and creativity in everyday life Sawyer s approach is interdisciplinary In addition to examining psychological studies on creativity he draws on anthropologists research on creativity in non Western cultures sociologists research on the situations contexts and networks of creative activity and cognitive neuroscientists studies of the brain
