Painting For The Market:

A History of the Western Art Market Titia Hulst, 2023-04-28 This is the first sourcebook to trace the emergence and evolution of art markets in the Western economy framing them within the larger narrative of the ascendancy of capitalist markets Selected writings from across academic disciplines present compelling evidence of art's inherent commercial dimension and show how artists, dealers and collectors have interacted over time from the city states of Quattrocento Italy to the high stakes markets of postmillennial New York and Beijing This approach casts a startling new light on the traditional concerns of art history and aesthetics revealing much that is provocative, profound and occasionally even comic This volume's unique historical perspective makes it appropriate for use in college courses and postgraduate and professional programs as well as for professionals working in art related environments such as museums, galleries and auction houses This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach and impact Drawing on a backlist dating to 1893, Voices Revived makes high quality, peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 2017 This is the first sourcebook to trace the emergence and evolution of art markets in the Western economy framing them within the larger narrative of the ascendancy of capitalist markets Selected writings from across academic disciplines present compelling

Art Market and Connoisseurship Anna Tummers, Koenraad Jonckheere, 2008 The question of whether seventeenth century painters such as Rembrandt and Rubens were exclusively responsible for the paintings later sold under their names has caused many a heated debate Despite the rise of scholarship on the history of the art market much is still unknown about the ways in which paintings were produced, assessed, priced and marketed during this period which leads to several provocative questions: did contemporary connoisseurs expect masters such as Rembrandt to paint works entirely by their own hand? Who was credited with the ability to assess paintings as genuine? The contributors to this engaging collection, Eric Jan Sluijter, Hans Van Miegroet and Neil De Marchi among them, trace these issues through the booming art market of the seventeenth and eighteenth centuries arriving at fascinating and occasionally unexpected conclusions

London and the Emergence of a European Art Market, 1780-1820 Susanna Avery-Quash, Christian Huemer, 2019-08-06 Showcasing diverse methodologies, this volume illuminates London's central role in the development of a European art market at the turn of the nineteenth century In the late 1700s, as the events of the French Revolution roiled France, London displaced Paris as the primary hub of international art sales Within a few decades, a robust and sophisticated art market flourished in London

London and the Emergence of a European Art Market, 1780-1820 explores the commercial milieu of art sales and collecting at this turning point In this collection of essays, twenty-two scholars employ methods ranging from traditional art historical and provenance studies to statistical and economic analysis; they provide overviews, case studies and empirical reevaluations of artists, collectors, patrons, agents and dealers, institutions, sales and practices Drawing from pioneering digital resources

notably the Getty Provenance Index as well as archival materials such as trade directories correspondence stock books and inventories auction catalogs and exhibition reviews these scholars identify broad trends reevaluate previous misunderstandings and consider overlooked commercial contexts From individual case studies to econometric overviews this volume is groundbreaking for its diverse methodological range that illuminates artistic taste and flourishing art commerce at the turn of the nineteenth century

Pioneers of the Global Art Market Christel H. Force, 2020-11-26 By the turn of the twentieth century Paris was the capital of the art world While this is usually understood to mean that Paris was the center of art production and trading this book examines a phenomenon that has received little attention thus far Paris based dealers relied on an ever expanding international network of peers Many of the city's galleries capitalized on foreign collectors interest by expanding globally and proactively cultivating transnational alliances If the French capital drew artists from around the world from Cassatt to Picasso the contemporary art market was international in scope Art dealers deliberately tapped into a growing pool of discerning collectors in northern and eastern Europe the UK and the USA International trade was rendered not just desirable but necessary by the devastating effects of wars revolutions currency devaluation and market crashes which stalled collecting in Europe *Pioneers of the Global Art Market* assembles original scholarship based on a close inspection of and fresh perspective on extant dealer records It caters to an amplified curiosity concerning the emergence and workings of our unprecedented contemporary centric and global art market This anthology fills a significant gap in the expanding field of art market studies by addressing how initially contemporary art which is now known as historical modernism made its way into collections who validated what by promoting and selling it where and how It includes unpublished material concrete examples bibliographical and archival references and should appeal to academics curators educators dealers collectors artists and art lovers alike It celebrates the modern art dealer as transnational impresario the global reach of the modern art market and the impact of traders on the history of collecting and ultimately on the history of art

global artworld **A Regulatory Framework for the Art Market?** Anna Bolz, 2022-11-24 This book addresses practical issues in connoisseurship and authentication as well as the legal implications that arise when an artwork's authenticity is challenged. In addition, the standards and processes of authentication are critically examined and the legal complications which can inhibit the expression of expert opinions are discussed. The notion of authenticity has always commanded the attention of art market participants and the general art-minded public alike. Coinciding with this, forgery is often considered to be the world's most glamorous crime, packed with detective stories that are usually astonishing and often bizarre. The research includes findings by economists, sociologists, art historians, lawyers, academics, and practitioners, all of which yield insights into the mechanics and peculiarities of the art business and explain why it works so differently from other markets. However, this book will be of interest not only to academics but to everyone interested in questions of authenticity, forgery, and connoisseurship. At the same time, one of its main aims is to advocate best practices in the art market and to stress the importance of cooperation among all disciplines with a stake in it. The results are intended to offer guidance to art market stakeholders, legal practitioners, and art historians alike while also promoting mutual understanding and cooperation.

The key development that explains the success of Antwerp as an export center for the arts lies not only in the strength of the Antwerp economy and the artistic tradition of the Southern Netherlands but specifically in the shift from ordering artwork on commission to the production for the open market. The outbreak of the Dutch Revolt during the last third of the sixteenth century severely disrupted the economy of the Southern Netherlands and as a result the Antwerp art market collapsed in the mid 1580s.
