Impressionist Painting in Transnational Contexts Emily C. Burns, Alice M. Rudy Price, 2021-05-03 This book offers microhistories related to the transnational circulations of impressionism in the late nineteenth and early twentieth centuries. The contributors rethink the role of French impressionism in shaping these iterations by placing France within its global and imperialist context and arguing that impressionisms might be framed through the mobility studies concept of constellations of mobility. Artists engaging with impressionism in France as in other global contexts relied on and responded to appropriated and resisted elements of form and content based on fluid and interconnected political realities and market structures. Written by scholars and curators, the chapters demand reconsideration of impressionism as a historical construct and the meanings assigned to that term. This project frames future discussion in art history, cultural studies, and global studies on the politics of appropriating impressionism.

Drawing and Painting on Location Kevin Scully, 2017-02-06 Working en plein air is a French term that means literally in the open air, and although artists have been doing just that for centuries, the concept is experiencing a resurgence today. Sketchers and painters alike are leaving their studios and heading out into the open air. This book encourages you to join them. Full of in-depth advice and practical instruction, it explains how to make the most of painting outside and how to capture the very essence of a scene with a far greater authenticity than can be achieved when working from a second-hand image. It covers an array of mediums including pencils, pastels, pens, watercolours, oils, and acrylics and advises on the best materials and accessories from sketchbooks to easels. Also suggests suitable locations and subject matter including landscapes, seascapes, and people. Explaining the importance of good composition, colour harmony, tonal values, and perspective. It further encourages the exploration of new ideas by examining other artists' work and the development of personal style. Beautifully illustrated with 213 colour images.
