Painting The Warmth Of The Sun St Ives Artists 1939 1975:

Painting of the Warmth of the Sun Tom Cross,1995 The Alfred Wallis Factor David Wilkinson,2017-07-19 Since his death in 1942 St Ives has become marinated in the spirit of the naive painter Alfred Wallis Naum Gabo the Russian Constructivist felt that Wallis's gift as an artist was that he never knew he was one His unconventional approach and the innocence of his personal method of making art marked Alfred Wallis even after his death as a crucial figure in the modernist movement The art scene in St Ives during World War II is depicted vividly in The Alfred Wallis Factor which illustrates the birth of modernism in the small fishing port in the far south west of England With dominant personalities like Sven Berlin Ben Nicholson Barbara Hepworth Adrian Stokes Bernard Leach Terry Frost Peter Lanyon Wilhelmina Barns Graham and Patrick Heron it was inevitable that personal relationships would both form and fracture Though causes would range from the banal to the bizarre David Wilkinson never loses focus on the high stakes for which these characters were playing the creation of their work and reputations of lasting significance Their passion was strong and their ambition even stronger The Alfred Wallis Factor tells the story of this extraordinary painter's long lasting influence on and beyond modernism David Wilkinson expounds the events around and following the artist's death assessing the roles of friends and rivals in making Alfred Wallis a benchmark of modern British art The Alfred Wallis Factor is a comprehensive examination of a troubled era in which life met war and changed the destiny of the art world **Handbook of Modern British Painting and Printmaking 1900-90** Alan Windsor,2022-02-23 Originally published in 1998 The Handbook of Modern British Painting and Printmaking 1900 1990 has been designed for people who enjoy study and buy British art The only portable dictionary style guide to the life and work of modern British painters and printmakers the book provides information on some 2 000 artists as well as entries on schools of art on museums galleries and collections on societies and groups and critics and patrons who have influenced the development of modern art in Britain Compiled by scholars the entries are cross referenced and each concise biographical outline provides the relevant facts about the artist's life a brief characterisation of the artist's work and major bibliographic references Wherever possible one or two suggestions for further reading are cited **"Landscape, Art and Identity in 1950s Britain "** Catherine Jolivet,2017-07-05 During the years following World War II debates about the British landscape fused with questions of national identity as the country reconstructed its sense of self For better or for worse artists statesmen and ordinary citizens saw themselves reflected in the landscape and in turn helped to shape the way that others envisioned the land While landscape art is frequently imagined in terms of painting this book examines the role of landscape in terms of a broader definition of visual culture to include the discussion not only of works of oil on canvas but also prints sculpture photography advertising fashion journalism artists biographies and the multi media stage of the national exhibition Making extensive use of archival materials newspaper reviews radio broadcasts interviews with artists letters and exhibition planning documents Catherine Jolivet explores the intersection of landscape art with a variety of discourses

including the role of women in contemporary society the status of immigrant artists in Britain developments in science and technology and the promotion of British art and culture abroad How Painting Happens (and Why it Matters) Martin Gayford, 2024-11-12 Drawing on decades of conversations with practicing artists Martin Gayford offers intimate insight into the practice meaning and potential of painting Painting is an almost inconceivably ancient activity that remains vigorously alive in the twenty first century Every successful painting creates a new world which we inhabit for as long as we care to look at it Paintings can incorporate profound ideas and paradoxes that can be grasped without words For those who dedicate themselves to it the art of painting can become an all consuming lifelong obsession It is a subject on which painters themselves are often the most incisive commentators Martin Gayford's riveting and richly illustrated book deftly brings together numerous artists voices past and present It draws on a trove of conversations conducted over more than three decades with artists including Frank Auerbach Gillian Ayres Frank Bowling Cecily Brown Peter Doig Lucian Freud Katharina Fritsch David Hockney Claudette Johnson R B Kitaj Lee Ufan Paula Rego Gerhard Richter Bridget Riley Jenny Saville Frank Stella Luc Tuymans Zeng Fanzhi and many more Here too is Vincent van Gogh on Rembrandt John Constable on Titian Francis Bacon on Velázquez Lee Krasner on Pollock and Jean Michel Basquiat on Picasso We hear the personal reflections of these artists on their chosen medium how and why they paint how they came to the practice the influence of fellow painters and how they find creative sustenance and inspiration in their art How Painting Happens crosses the centuries to give us a wealth of insights into the endlessly compelling phenomenon of painters and painting The Romantic Age in Britain Boris Ford, 1992 This is a comprehensive survey for students specialists and general readers of all major branches of the arts in 16th century Britain It also reveals the cultural and social setting in which writers musicians architects and other artists of the period worked *Encyclopedia of Contemporary British Culture* Peter Childs, Michael Storry, 2013-05-13 Boasting more than 970 alphabetically arranged entries the Encyclopedia of Contemporary British Culture surveys British cultural practices and icons in the latter half of the twentieth century It examines high and popular culture and encompasses both institutional and alternative aspects of British culture It provides insight into the whole spectrum of British contemporary life Topics covered include architecture pubs film internet and current takes on the monarchy Cross referencing and a thematic contents list enable readers to identify related articles The entries range from short biographical synopses to longer overview essays on key issues This Encyclopedia is essential reading for anyone interested in British culture It also provides a cultural context for students of English Modern History and Comparative European Studies **Ecologies of Community in Performance** Karen Savage, Dominic Symonds, 2025-10-02 In their previous book *Economies of Collaboration in Performance* Savage and Symonds explored the economy as a metaphor for understanding collaborative practices in the arts This book *Ecologies of Community in Performance* continues to explore arts practices focusing on communities and turning to the language of ecology to understand the complexities and working dynamics of arts communities The book provides a

thoughtful analysis of how communities work as ecologies offering case studies of community processes by way of illustrating the main discussion In doing so it reveals how the triangulation of ecology community and performance allows for a deeper understanding of dynamic relations in the arts enabling scholars practitioners and policy makers to better conceptualise ecological thinking in relation to 21st century arts practices
