Rethinking Western Approaches to Counterinsurgency Russell W. Glenn,2015-05-22 This book critically examines the Western approach to counter insurgency in the post colonial era and offers a series of recommendations to address current shortfalls The author argues that current approaches to countering insurgency rely too heavily on conflicts from the post World War II years of waning colonialism Campaigns conducted over half a century ago Malaya Aden and Kenya among them remain primary sources on which the United States British Australian and other militaries build their guidance for dealing with insurgent threats this though both the character of those threats and the conflict environment are significantly different than was the case in those earlier years This book addresses the resulting inconsistencies by offering insights analysis and recommendations drawn from campaigns more applicable to counter insurgency today Eight post colonial conflicts to include Northern Ireland Sierra Leone Colombia and Iraq provide the basis for analysis All are examples in which counterinsurgents attained or continue to demonstrate considerable progress when taking on enterprises better known for disaster and disappointment Recommendations resulting from these analyses challenge entrenched beliefs to serve as the impetus for essential change Rethinking Western Approaches to Counterinsurgency will be of much interest to students of counter insurgencies military and strategic studies security studies and IR in general **Ethiopia, a Country Study** Harold D. Nelson,Irving Kaplan,1981 *America & Islam* Lawrence Pintak,2019-06-27 Donald Trump s first term as the 45th President of the United States of America has shocked the world His attitudes towards Islam became a key point of contention on the campaign trail and in power Trump has continued his war of divisive words and deeds Here acclaimed journalist Lawrence Pintak scrutinizes America s relationship with Islam since its foundation Casting Donald Trump as a

symptom of decades of misunderstanding and demonization of the Islamic world as well as a cause of future tensions Pintak shows how and why America's relationship with the world's largest religion has been so fractious damaging and self defeating Featuring unique interviews with victims and perpetrators of Trump's policies as well as analysis of the media's role in inflaming debate America Islam seeks to provide a complete guide to the twin challenges of terrorism and the polarizing rhetoric that fuels it and sketches out a future based on co operation and the reassertion of democratic values
