

PATHOS (RHETORIC)

Pathos is one part of the so-called rhetorical triangle. Pathos as a rhetorical device is designed to stir emotions such as pity, sadness, or sympathy in the audience.

OVERVIEW

Pathos refers to appeals to the emotions of the audience. Whenever the audience is led to feel a certain way, and that feeling influences their judgment of a speech, the speaker is using pathos.

Aristotle's underlying assumption is that people's emotional states influence their evaluations, which is quite reasonable to suppose.

EXAMPLE

- **Advertising:** Pathos is an especially common persuasion tool in advertising. Since emotions influence people's decision-making, pathos is well-suited to the task of persuading customers to buy products.
- **Art:** Most forms of art use pathos in some form. This is more apparent in art that has a clear agenda, for example, political cartoons.
