Patriarkhi Moskovskie:

Patriarcha and Other Writings Peter Laslett, 1949 **The Russian Orthodox Church** Moscow Patriarchate, 1956-01-01

Women, the Bureaucracy and Daily Life in Postwar Moscow, 1945-1953 Greta Bucher, 2006 This monograph examines the Soviet state's attempt to rebuild and repopulate following World War II by offering to support families while encouraging women to enter the full time work force. However combined with the realities of postwar life and broken promises this program was lacking and forced women to adopt their own survival strategies. The conflict between economic reality and the state's demands dictated the shape of women's lives as they attempted to balance both domestic concerns and professional advancement. This study scrutinizes a society that loudly proclaimed sexual equality and support for women workers but these goals were never feasible because of the failure of the state to provide the structures necessary for equality.

The Post-Soviet Russian Orthodox Church Katja Richters, 2012-08-21 In recent years the Russian Orthodox Church has become a more prominent part of post Soviet Russia. A number of assumptions exist regarding the Church's relationship with the Russian state: that the Church has always been dominated by Russia's secular elites; that the clerics have not sufficiently fought this domination and occasionally failed to act in the Church's best interest; and that the Church was turned into a Soviet institution during the twentieth century. This book challenges these assumptions. It demonstrates that church-state relations in post communist Russia can be seen in a much more differentiated way and that the church is not subservient very much, having its own agenda. Yet at the same time it is sharing the state's and Russian society's nationalist vision. The book analyses the Russian Orthodox Church's political culture focusing on the Putin and Medvedev eras from 2000. It examines the upper echelons of the Moscow Patriarchate in relation to the governing elite and to Russian public opinion, explores the role of the church in the formation of state religious policy and the church's role within the Russian military. It discusses how the Moscow Patriarchate is asserting itself in former Soviet republics outside Russia, especially in Estonia, Ukraine and Belarus. It concludes by re-emphasising that although the church often mirrors the Kremlin's political preferences, it most definitely acts independently.

The Old Believers in Imperial Russia Peter T. De Simone, 2018-09-30 Two Romes have fallen. The third stands. And there will be no fourth. So spoke Russian monk Hegumen Filofei of Pskov in 1510 proclaiming Muscovite Russia as heirs to the legacy of the Roman Empire following the collapse of the Byzantine Empire. The so-called Third Rome Doctrine spurred the creation of the Russian Orthodox Church although just a century later a further schism occurred with the Old Believers or Old Ritualists challenging Patriarch Nikon's liturgical and ritualistic reforms and laying their own claim to the mantle of Roman legacy. While scholars have commonly painted the subsequent history of the Old Believers as one of survival in the

face of persistent persecution at the hands of both tsarist and church authorities Peter De Simone here offers a more nuanced picture Based on research into extensive yet mostly unknown archival materials in Moscow he shows the Old Believers as versatile and opportunistic and demonstrates that they actively engaged with and even challenged the very notion of the spiritual and ideological place of Moscow in Imperial Russia Ranging in scope from Peter the Great to Lenin this book will be of use to all scholars of Russian and Orthodox Church history **The Russian Orthodox Church** ,1958
