Patriotism And Proletarian Internationalism:

Patriotism and Proletarian Internationalism Ho Chi Minh. 2003-10-01 From the Foreword when this book was originally published in Hanoi in 1979 The national liberation revolution can only succeed if it accords with the world revolutionary movement and authentic patriotism in our time cannot dissociate itself from internationalism this leading idea which has inspired the Vietnamese revolution for nearly half a century was introduced into Vietnam by President Ho Chi Minh While struggling for its independence the Vietnamese people knows that millions and millions of comrades and friends are fighting by its side and that it s own sacrifices also serve the just cause of other peoples With this in mind we have collected writings and speeches of President Ho Chi Minh in the period from 1920 to 1969 In simple terms they gave a well defined orientation to the Vietnamese revolutionary movement and greatly contributed to its victory Patriotism and Proletarian Internationalism Chí Minh Hồ, 1979 Patriotism and Proletarian Internationalism Ho-Chi-Minh (Pres. de República Democrática de Vietnam),1979 Nationalism and Internationalism Intertwined Pasi Ihalainen, Antero Holmila, 2022-03-11 It is commonplace that the modern world is more international than at any point in human history Yet the sheer profusion of terms for describing politics beyond the nation state including international European global transnational and cosmopolitan among others is but one indication of how conceptually complex this field actually is Taking a wide view of internationalism s in Europe since the eighteenth century Nationalism and Internationalism Intertwined explores discourses and practices to challenge nation centered histories and trace the entanglements that arise from international cooperation A multidisciplinary group of scholars in history discourse studies and digital humanities asks how internationalism has been experienced understood constructed debated and redefined across different European political cultures as well as related to the wider world Translations on International Communist Developments ,1962

Nationalism from the Left Yannis Sygkelos, 2011-01-19 Nationalism from the Left analyses the case of the BCP as a Marxist institution which increasingly adopted and adapted nationalism it contributes to the examination of the relatively underresearched field of communist national propaganda as only in the last decade have researchers become interested in this topic It explains the reasons for this and provides evidence of the Party s nationalism across a number of spheres of political life domestic and foreign policy school text books historiography festivities and symbols Thus the Marxist nationalist discourse of the BCP was all encompassing In contrast to many works on national communist parties Nationalism from the Left identifies many international parallels and presents an historical introduction to the reconciliation of Marxism and nationalism The Soviet Concept of 'Limited Sovereignty' from Lenin to Gorbachev Robert A. Jones, 2016-07-27 The book examines the origins development and contemporary significance of the Soviet doctrine of limited sovereignty Brezhnev Doctrine with particular reference to the Doctrine s implications for the Soviet Union s relations with Eastern Europe The author identifies and considers the multiple functions served by the Soviet Union s essentially dualistic or bi axial approach

to sovereignty which embraces notions derived from both general international law and from Soviet Marxist Leninist doctrine The book also includes a comparative analysis of the US Monroe Doctrine The author argues that although in the Gorbachev era of new thinking the Soviet doctrine of sovereignty may be developing a third axis Western predictions of the imminent or actual demise of the Brezhnev Doctrine are premature Global Easts Jie-Hyun Lim, 2022-07-05 South Korean historian Jie Hyun Lim raised under an anticommunist dictatorship turned to Marxian thought to explain his country's development even as he came to struggle with its Eurocentrism As a transnational scholar working in postcommunist Poland Lim recognized striking similarities between Korean and Polish history and politics One realization stood out Both Korea and Poland at once the West for Asia yet Eastern Europe had been assigned the role of East This book explores entangled Easts to reconsider global history from the margins Examining the politics of history and memory Lim reveals the affinities linking Eastern Europe and East Asia He draws out commonalities in their experiences of modernity in their transitions from dictatorship to democracy and in the shaping of collective memory Ranging across Poland Germany Israel Japan and Korea Lim traces the global history of how notions of victimhood have become central to nationalism He criticizes mass dictatorships of right and left in the Global Easts considering Nazi jurist Carl Schmitt's notion of sovereign dictatorship and the concept of decisionist democracy Lim argues that nationalism is inherently transnational critiquing how the nationalist imagination of the Global East has influenced countries across borders Theoretically sophisticated and conceptually innovative this book sheds new light on the transnational complexity of historical memory and imagination the boundaries between democracy and mass dictatorship and the fluidity of East and West Marxism-Leninism and the Theory of International Relations V. Kubalkova, A. Cruickshank, 2015-10-14 Refuting the assumption that orthodox Marxist theory contains anything of relevance on international relations this book originally published in 1980 clarifies reconstructs and summarizes the theories of international relations of Marx and Engels Lenin Stalin and the Soviet leadership of the 1970s These are subjected to a comparative analysis and their relative integrity is examined both against one another and against selected Western theories Marxist Leninist models of international relations are fully explored enabling the reader to appreciate the essence and evolution of fundamental Soviet concepts as such as proletarian socialist internationalism peaceful co existence national liberation movement and d tente Dictionary of the Political Thought of the People's Republic of China Henry Yuhuai He,2016-07-22 Far more than a simple glossary this unique resource provides a detailed lexicography of political and social life in China today and deepens our understanding of the last twenty years of enormous change in the People's Republic Each of the 1 600 entries 1 is rendered in Chinese characters 2 is alphabetized according to pinyin the Chinese phonetic alphabet 3 is translated into English and 4 is explained in terms of the situation in which it first appeared and how its meaning shifted over time In addition to the main body of definitions and annotations there are three appendices abbreviations a name index and a bibliography
