This conference series started about 20 years ago in Berlin. Initially the conference served as a forum for meetings between scientists from Western and Eastern bloc countries. Nowadays the conference attracts participants from all over the world. The conference gives equal weight to posters and oral presentations and the selected presentation mode is based on the most appropriate communication medium. The program follows a single track format rather than parallel sessions. Non overlapping oral and poster sessions ensure that all attendees have the opportunity to interact personally with presenters. As for the numbers we received a total of 185 submissions. All papers were reviewed by two to four members of the Program Committee. The final selection was carried out by the Conference Chairs. Out of the 185 papers 65 were selected for oral presentation and 43 as posters. CAIP is becoming well recognized internationally and this year's presentations came from 26 different countries. South Korea proved to be the most active scientifically with a total of 16 accepted papers. At this point we wish to thank the Program Committee and additional referees for their timely and high quality reviews. The paper's mission and review procedure was carried out electronically. We also thank the invited speakers Reinhardt Koch and Thomas Vetter for kindly accepting to present invited papers. **The British National Bibliography** Arthur James Wells, 2004 **IEEE Intelligent Vehicles Symposium**, 2005 **State of the Art in Neural Networks and Their Applications** Ayman S.
