Patterns Of Medieval Society:

Patterns of Medieval Society Jeremy duQuesnay Adams, 1969 **Women in Early Medieval Europe, 400-1100** Lisa M. Bitel, 2002-10-24 This is a history of the early European middle ages through the eyes of women combining the rich literature of women's history with original research in the context of mainstream history and traditional chronology The book begins at the end of the Roman empire and ends with the start of the long eleventh century when women and men set out to test the old frontiers of Europe The book recreates the lives of ordinary women but also tells personal stories of individuals Each chapter also questions an assumption of medieval historiography and uses the few documents produced by women themselves along with archaeological evidence art and the written records of medieval men to tell of women their experiences and ideas and their relations with men It covers the continent and its exotic edges such as Iceland Ireland and Iberia looking at women Christian and non Christian alike *The Stranger in Medieval Society* F. R. P. Akehurst, Stephanie Cain Van D'Elden, *The Stranger in Medieval Society* was first published in 1998 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions *The Stranger in Medieval Society* examines the presence of outsiders in medieval Europe Whether welcome or unwelcome voluntary or involuntary strangers appear in every society they leave their own communities venture into new environments confront differences and often spark changes The first collection in medieval studies to concentrate on the notion of the stranger these essays show how outsiders influenced the culture of Europe in the Middle Ages Among the topics explored are Edward III and Sir Gawain and the Green Knight as historical and literary instances of chivalric skill and courage political conflict in the late French epic Renaut de Montauban and a group of people who were doubly strangers some thirty thousand Jews who after being expelled from France in 1306 returned under an experimental agreement a few years later Contributors William Calin U of Florida Susan Crane Rutgers Maria Dobozy U of Utah Edward R Haymes Cleveland State U William Chester Jordan Princeton U Derek Pearsall Harvard U William D Phillips Jr U of Minnesota Kathryn L Reyerson U of Minnesota and Janet L Solberg Kalamazoo College F R P Akehurst is professor of French in the Department of French and Italian at the University of Minnesota Stephanie Cain Van D Elden is director of graduate studies for the program in Germanic philology at the University of Minnesota This is volume 12 in the Medieval Cultures Series

Women's Monasticism and Medieval Society Bruce L. Venarde, 2018-05-31 In this engaging work Bruce L Venarde uncovers a largely unknown story of women's religious lives and puts female monasticism back in the mainstream of medieval ecclesiastical history To chart the expansion of nunneries in France and England during the central Middle Ages he presents statistics and narratives to describe growth in broad historical contexts with special attention to social and economic change Venarde explains that in the years 1000 1300 the number of nunneries within Europe grew tenfold In the eleventh and twelfth centuries religious institutions for women developed in a variety of ways mostly outside the self

conscious reform movements that have been the traditional focus of monastic history Not reforming monks but wandering preachers bishops and the women and men of local petty aristocracies made possible the foundation of new nunneries In times of increased agrarian wealth decentralization of power and a shortage of potential spouses many women decided to become nuns and proved especially adept at combining spiritual search with practical acumen This era of expansion came to an end in the thirteenth century when forces of regulation and new economic realities reduced radically the number of new nunneries Venarde argues that the factors encouraging and inhibiting monastic foundations for men and women were much more similar than scholars have previously assumed

Human Trafficking in Medieval Europe Christopher Paoletta, 2025-10-01 Human trafficking has become a global concern over the last twenty years but its violence has terrorized and traumatized its victims and survivors for millennia This study examines the deep history of human trafficking from Late Antiquity to the Early Modern Period It traces the evolution of trafficking patterns the growth and decline of trafficking routes the everchanging relationships between traffickers and authorities and it examines the underlying causes that lead to vulnerability and thus to exploitation As the reader will discover the conditions that lead to human trafficking in the modern world such as poverty attitudes of entitlement corruption and violence have a long and storied past When we understand that past we can better anticipate human trafficking's future and then we are better able to fight it
