### **Policing Twentieth Century Ireland**

Vicky Conway, 2013-08-15 The twentieth century was a time of rapid social change in Ireland from colonial rule to independence civil war and later the Troubles from poverty to globalisation and the Celtic Tiger and from the rise to the fall of the Catholic Church Policing in Ireland has been shaped by all of these changes This book critically evaluates the creation of the new police force an Garda Siochána in the 1920s and analyses how this institution was influenced by and responded to these substantial changes Beginning with an overview of policing in pre independence Ireland this book chronologically charts the history of policing in Ireland It presents data from oral history interviews with retired garda who served between the 1950s and 1990s giving unique insight into the experience of policing Ireland the first study of its kind in Ireland Particular attention is paid to the difficulties of transition the early encounters with the IRA the policing of the Blueshirts the world wars gangs in Dublin and the growth of drugs and crime Particularly noteworthy is the analysis of policing the Troubles and the immense difficulties that generated This book is essential reading for those interested in policing or Irish history but is equally important for those concerned with the legacy of colonialism and transition

### *Policing Soviet Society* Louise

Shelley, 2005-08-02 Since its creation immediately after the Russian revolution the militia has had a broad range of social political and economic functions necessary to direct and control a highly centralized socialist state However as the communist party lost its legitimacy the militia was increasingly thrust into the front line of political conflict A task it was unsuited to perform Despite the efforts of perestroika to reform it the collapse of the Soviet state also led to the collapse of morale within the militia Louise Shelley provides a comprehensive view of the history development functions personnel and operations of the militia from its inception until after the demise of the Soviet state The militia combined elements of continental socialist and colonial policing Its functions and operations changed with the development of the state yet it always intervened significantly in citizens lives and citizens were very much involved in their own control Over time the militia became more removed from politics and more concerned with crime control but it always remained a tool of the party This is the first book to analyze the militia which was one of the most vital elements of control within the Soviet State It will be a crucial aid to understanding the authoritarianism of the communist system and its legacy for Russia and the successor states Louise I Shelley is Professor at the Department of Justice Law and Society and the School of International Service at the American University Washington D C

Jessie Blackbourn, 2014-08-07 The Northern Ireland peace process has been heralded by those involved as a successful example of transformation from a violent conflict to a peaceful society This book examines the implementation of the Belfast Agreement in Northern Ireland

and evaluates whether its goal to establish a normal peaceful society has been fully realised Using the political and legal status of England Scotland and Wales as a comparison Jessie Blackbourn evaluates eight aspects of Northern Ireland which the Agreement aimed to normalise the contested constitutional status of Northern Ireland the devolution of power decommissioning the removal of emergency laws demilitarisation police reform criminal justice reform and paramilitary prisoners The book highlights the historical context which gave rise to the need for a programme of normalisation within the Belfast Agreement with respect to these areas and assesses the extent to which that programme of normalisation has been successfully implemented By evaluating the implementation of the Belfast Agreement the book demonstrates the difficulties that transitional or post conflict states face in attempting to wind back extraordinary counter terrorism policies after periods of violence have been brought to an end The book will be of great use to students and researchers concerned with the emergence evolution and repeal of anti terrorism laws and anyone interested in the history of the conflict and peace process in Northern Ireland

**Crafting Transnational Policing** Andrew Goldsmith, James Sheptycki, 2007-11-16 The book examines the phenomenon of crafting transnational policing By this term is meant the different forms of engagement in policing reform by international donors national governments foreign police and law enforcement agencies in the domestic policing agencies and programs of recipient countries It includes inter alia peace keeping in post conflict situations reconstruction and capacity building as part of nation or state building exercises and the provision of technical assistance in relation to certain aspects of law enforcement In each instance there is a cross border provision of resources with a view to shaping the kind of policing provided in recipient nations Why do some countries engage in these activities Why has policing become a preferred form of foreign policy engagement in some countries What forms of policing development are provided How are they delivered And how are they received How should these kinds of assistance and or interventions be conducted in future In this regard is there a non negotiable core of good policing that needs to be developed and nurtured as an integral part of all defensible transnational policing engagements These are some of the questions raised by the contributions to this book The book arises primarily from papers presented at a workshop held in Onati Spain in July 2004 on the emergence of a global constabulary ethic The book has also been supplemented by two solicited chapters

**Policing Insecurity** Niels Uildriks, 2009-04-16 Profound distrust commonly characterizes not only the relationship between citizens and state institutions but also social as well as inter and intra state relations This impacts the effectiveness and quality of the service provided by state institutions The degree to which police and judicial reforms are able to generate trust on these fronts is therefore an important yardstick to judge their relevance under varying circumstances of post authoritarian rule but this question is largely ignored in the current literature on policing and reform From this perspective Policing Insecurity Police Reform Security and Human Rights in Latin America suggests an agenda of future reforms for the region drawing and building upon policing reform experiences throughout the Latin America looking at issues such as impunity professionalization community policing as well as accountability and training of the police By explicitly linking issues of state social trust democratic transition human rights and security these case studies provide a basis for the wider discussion in the book about prerequisites for the success or failure of police reforms thus adding to our empirical and theoretical knowledge in these areas and introducing an important dimension to the literature on police reform security and human rights

**Criminal Justice Theory** Edward R. Maguire, David E. Duffee, 2008-03-25 Criminal Justice Theory is the first comprehensive volume on the theoretical foundations of criminal justice The authors argue that theory in criminal justice is currently underdeveloped and inconsistently applied especially in comparison to the role of theory in the study of crime itself In the diverse range of essays included here the authors and contributors integrate examples from the study of criminal justice systems judicial decision making courtroom communities

and correctional systems building the argument that students of criminal justice must not evaluate their discipline solely on the basis of the effectiveness of specific measures in reducing the crime rate. Rather, if they hope to improve the system, they must acquire a systematic knowledge of the causes behind the structures, policies, and practices of criminal justice.
