Patterns Of Corporate Philanthropy Executive Hypocrisy:

Patterns of Corporate Philanthropy Stuart Nolan, Gregory P. Conko, M. Bruce Johnson, 1993 Strategic Corporate Social Responsibility William B. Werther, David Chandler, 2006 Strategic Corporate Social Responsibility Stakeholders in a Global Environment provides faculty and students with a comprehensive stand alone text to support traditional and innovative courses in corporate social responsibility CSR Integral to the book s unique format is the real life mini case study approach across the spectrum of CSR topics backed by Internet accessible references Adopting a stakeholder approach to CSR the content and format of this sourcebook defines CSR within the global communications environment in which multi national corporations operate today *Writing Off Ideas* Randall G. Holcombe, 2018-04-17 Tax exempt foundations grew substantially in the twentieth century both in their financial importance and in the scope of their activities This challenging book examines the economic cultural and intellectual implications of tax exempt organizations How do various tax laws influence foundations and what types of ideas do foundations produce How do the activities of foundations relate to the interests and intentions of their founders Does the economic management of foundation assets serve the public good or would such assets be better employed through the private sector Writing Off Ideas examines these and related questions primarily by looking at specific examples as well as the overall impact of foundation practices economically and socially

Business as a Calling Michael Novak, 1996-06-11 In this inspirational meditation on why and for whom we work the winner of the 1994 Templeton Prize for Progress in Religion offers both a defense of the work of businesses and a coherent philosophy to guide their thinking Novak presents key moral ideals including the creation of wealth and jobs and the creation of the idea of progress **Politically Incorrect** Ralph Reed, 1994 Today s multicultural elite seem to want every voice to be heard except that of conservative Christians and other people of faith Yet our nation was founded on principles of faith morality and conscience values that suddenly have been deemed politically incorrect A vocação para os negócios: o trabalho e a vida interior Michael Novak, 2025-09-19 De fato o mundo dos negócios engloba os mais altos ideais e aspira às pessoas Quem não o conhece ao menos uma história inspiradora de pequenos empreendedores que começam do zero e alcançam o sucesso Mas ser que ser reconhecido profissionalmente e ganhar rios de dinheiro realmente o que importa Em A vocação para os negócios Michael Novak desafia as normas convencionais e defende a ideia de que o mundo dos negócios pode ser uma verdadeira vocação permitindo que indivíduos não só encontrem realizações pessoais mas também contribuam para o bem comum por meio de suas profissões Com exemplos reais o autor explora o impacto do trabalho no desenvolvimento pessoal e no contexto social demonstrando de que maneira os negócios podem moldar e influenciar a sociedade como um todo Este livro um guia inspirador para aqueles que buscam dar significado à sua trajetória profissional *Inside the "Knowledge Factory"* Heinke Röbbken, 2013-06-29 Higher education institutions have proven to be one of the most enduring organizations of the last centuries In recent decades however significant changes in their institutional environment have forced universities

to rethink their strategies This is particularly true for management higher education institutions How do universities and specifically business schools deal with these various expectations Are there different organizational responses in the American German or Swedish higher education systems These and other important questions of higher education management research are examined in this doctoral thesis Taking neo institutionalism theory as its basis the thesis is convincing both conceptually as well as empirically through its multiple case study design The insights gained are most interesting They reveal how a form of organizational schizophrenia can help institutions comply with external demands without compromising the pursuit of academic reputation which is essential for the inner stability of higher education institutions and their continued existence This book is relevant both for students and researchers in higher education management as well as management practitioners and administrators I can say this with conviction as Heinke Robken s doctoral thesis was one of the last that I supervised as a teacher before changing to the president s office of the University of Oldenburg As such I read it both from a theoretical viewpoint as well as that of a practitioner

Microfoundations of Institutions Patrick Haack,Jost Sieweke,Lauri Wessel,2019-11-25 The notion of microfoundations has received growing interest in neo institutional theory along with an interest in microfoundational research in disciplines such as strategic management and economics

Chaotic Cognition Principles and Applications Ronald A. Finke,Jonathan Bettle,2013-01-11 Focusing on the principles and applications of chaotic thinking this text seeks to promote a more general understanding and acceptance of this cognitive style It may help people deal more effectively with chaotic situations such as economic crises career changes and relationship skills
