The Making of Paul Klee's Career, 1914-1920 Otto Karl Werckmeister, 1989-07-10 Paul Klee one of the preeminent artists of the twentieth century was associated with all of the major movements of the first half of the century expressionism cubism surrealism and abstraction In this economic and political history O K Werckmeister traces Klee's career as a professional artist concentrating on the years 1914 20 in which Klee rose from obscurity to recognition in the

visual culture of the incipient Weimar Republic Werckmeister reveals the degree to which Klee who has been traditionally portrayed as aloof from politics and the vicissitudes of the art market was subject to and interacted with material conditions Drawing on rich documentary evidence records of Klee's sales reviews of his exhibitions the artist's published writings about his art unpublished correspondence as well as contemporary criticism Werckmeister follows Klee's transformation from an idiosyncratic abstract individualist to a metaphysical storyteller to mystical sage Werckmeister argues that this latter image was promoted by a number of influential art critics and dealers acting in cooperation with the artist himself This posture prompted Klee's success first in the war weary modernist art world of 1916-18 and then in the pseudo revolutionary art world of 1919-20 This work is a critical challenge to the myth of Klee's art and to the hagiography of his artistic personality Werckmeister's historical account is sure to be a controversial yet significant contribution to Klee studies one that will change the nature of Klee scholarship for some time to come

The Worldwide Art Catalogue Bulletin, 1985 Paul Klee and His Illness H. Suter, 2010-02-01 In 1933 Paul Klee's work was branded as Entartete Kunst Degenerate Art by the National Socialists and he was dismissed from his professorial post at the Düsseldorfer Academy of Fine Arts This led him together with his wife Lily to return to his real home of Bern Here his avant garde art was not understood and Klee found himself in unasked for isolation In 1935 Klee started to suffer from a mysterious disease The symptoms included changes to the skin and problems with the internal organs In 1940 Paul Klee died but it was only 10 years after his death that the illness was actually given the name scleroderma in a publication about Klee However the diagnosis remained mere conjecture Since his adolescence the dermatologist and venereologist Dr Hans Suter has been fascinated by Paul Klee and his art and more than 30 years ago this fascination spurred him to commence research into the illness and its influence on the art of Paul Klee's final years It was due to Dr Suter's meticulous investigations that Klee's illness could be defined as diffuse systemic sclerosis In this book the author assembles his findings and describes the rare and complex disease in a clear and comprehensible way Further he empathetically interprets more than 90 of Klee's late works The point of view of a dermatologist renders a unique source of information It provides on one hand new insights into everyday medical practices at the University of Bern in the 1930s which will fascinate doctors and local historians alike While on the other hand art historians and art lovers will be absorbed by the newly discovered links between Paul Klee's work and his illness
