World in Motion Simon Hart, 2018-05-10 Italia 90 was the best and worst of World Cups It made a global star of England's inspirational Paul Gascoigne and gave fresh confidence to English football but it was also the lowest scoring of all World Cups leading directly to the back pass ban that transformed the sport World In Motion travels from Africa to South America via Europe and the Middle East to hear from the protagonists of Italia 90 and find out why it is still seen as a special and transformative moment not just in English eyes but in other countries far and wide It was a World Cup of firsts from Cameroon's quarter final trail blazers via the feats of newcomers like the Republic of Ireland and Costa Rica but a tournament too which marked the last hurrah of the old footballing powers of the Eastern Bloc amid the collapse of the Iron Curtain It began with the biggest shock of any opening game as nine man Cameroon beat Argentina and it ended with the worst final of all as West Germany beat nine man Argentina with a much disputed penalty In between it gave us a big spectacle a winning soundtrack and some unforgettable storylines World In Motion speaks to players and coaches referees and administrators reporters and fans to gauge the full impact of football's dramatic Italian summer including meeting Roger Milla at his home in Cameroon and Toto Schillaci at his football school in Sicily In the process it rediscovers a time when the game stood on the brink of change with the Premier League and Champions League on the horizon yet the World Cup remained a thrilling voyage of discovery a land of novelties from Fair Play flags to fan embassies to that first ever penalty shoot out heartbreak for England

Dynamics of Meaning Gennaro Chierchia, 2009-02-20 In *The Dynamics of Meaning* Gennaro Chierchia tackles central issues in dynamic semantics and extends the general framework Chapter 1 introduces the notion of dynamic semantics and discusses in detail the phenomena that have been used to motivate it such as donkey sentences and adverbs of quantification The second chapter explores in greater depth the interpretation of indefinites and issues related to presuppositions of uniqueness and the E type strategy In Chapter 3 Chierchia extends the dynamic approach to the domain of syntactic theory considering a range of empirical problems that includes backwards anaphora reconstruction effects and weak crossover The final chapter develops the formal system of dynamic semantics to deal with central issues of definites and presupposition Chierchia shows that an approach based on a principled enrichment of the mechanisms dealing with meaning is to be preferred on empirical grounds over

approaches that depend on an enrichment of the syntactic apparatus Dynamics of Meaning illustrates how seemingly abstract stances on the nature of meaning can have significant and far reaching linguistic consequences leading to the detection of new facts and influencing our understanding of the syntax semantics pragmatics interface *Romance Languages and Linguistic Theory 2003* Twan Geerts,Ivo van Ginneken,Haike Jacobs,2005-11-08 The annual Going Romance conference is the major European discussion forum for theoretically relevant research on Romance languages where current ideas about language in general and about Romance languages in particular are tested Starting with the thirteenth conference held in 1999 volumes with selected papers of the conferences are published under the title Romance Languages and Linguistic Theory This is the fifth such volume containing a selection of papers that have been presented at the seventeenth Going Romance conference held at the Radboud University Nijmegen The Netherlands from 20-22 November 2003 The three day program included a workshop on Diachronic Phonology The present volume contains a broad range of articles dealing not only with syntax and phonology but also with morphology semantics and acquisition of the Romance languages **Jon Vickers** Jeannie Williams,2007-05-31 The first biography of a legendary tenor
