Paved With Good Intentions The American Experience In Iran:

Paved with Good Intentions Barry M. Rubin, 1980 A history of United States and Iranian relations over the past quarter of a century *Democracy and the Nature of American Influence in Iran, 1941-1979* David R. Collier, 2017-05-08 Collier presents a timely and fresh reexamination of one of the most important bilateral relationships of the last century He delves deeply into the American desire to promote democracy in Iran from the 1940s through the early 1960s and examines the myriad factors that contributed to their success in exerting a powerful influence on Iranian politics By creating a framework to understand the efficacy of external pressure Collier explains how the United States later relinquished this control during the 1960s and 1970s During this time the shah emerged as a dominant and effective political operator who took advantage of waning American influence to assert his authority Collier reveals how this shifting power dynamic transformed the former client patron relationship into one approaching equality *The Great Satan vs. the Mad Mullahs* William O. Beeman, 2005-09-30 The United States and Iran have been estranged for 25 years They have carried out a mutual process of demonization that is unprecedented in modern history based on cultural hot buttons that have the power to galvanize the populations of both countries Iranian leaders have characterized the United States as the Great Satan an evil corruptor that pollutes society and destroys personal morality American leaders characterize the members of the current government of the Islamic Republic of Iran as Mad Mullahs wild eyed and irrational Giving a thorough account of the background of U S Iranian relations Beeman claims that the current accusations of both Iran and the United States are baseless consisting largely of public invective and symbolic rhetoric according to their own mythologies of evil American leaders characterize the members of the current government of the Islamic Republic of Iran as Mad Mullahs wild eyed and irrational They accuse them of fomenting the hostage crisis in which American embassy personnel were held for 444 days at the end of the Carter administration dealing a severe blow to U S national honor The Bush administration has further accused the Iranians of being part of an Axis of Evil on the basis of their alleged support of terrorists oppression of women and minorities and development of nuclear weapons Giving a thorough account of the background of U S Iranian relations Beeman claims that the current accusations of both Iran and the United States are baseless consisting largely of public invective and symbolic rhetoric according to their own mythologies of evil **Covert Capital** Andrew Friedman, 2013-08-03 The capital of the U S Empire after World War II was not a city It was an American suburb In this innovative and timely history Andrew Friedman chronicles how the CIA and other national security institutions created a U S imperial home front in the suburbs of Northern Virginia In this covert capital the suburban landscape provided a cover for the workings of U S imperial power which shaped domestic suburban life The Pentagon and the CIA built two of the largest office buildings in the country there during and after the war that anchored a new imperial culture and social world As the U S expanded its power abroad by developing roads embassies and villages its subjects also arrived in the covert capital as real estate agents homeowners builders and

landscapers who constructed spaces and living monuments that both nurtured and critiqued postwar U S foreign policy

Tracing the relationships among American agents and the migrants from Vietnam El Salvador Iran and elsewhere who settled in the southwestern suburbs of D C Friedman tells the story of a place that recasts ideas about U S immigration citizenship nationalism global interconnection and ethical responsibility from the post WW2 period to the present Opening a new window onto the intertwined history of the American suburbs and U S foreign policy Covert Capital will also give readers a broad interdisciplinary and often surprising understanding of how U S domestic and global histories intersect in many contexts and at many scales American Crossroads 37

Sharpening Strategic Intelligence Richard L. Russell, 2007-04-09 This book critically examines the weaknesses of American intelligence led by the Central Intelligence Agency in informing presidential decision making on issues of war and peace It evaluates the CIA's strategic intelligence performance during the Cold War and post Cold War periods as a foundation for examining the root causes of intelligence failures surrounding the September 11th attacks and assessments of Iraq's weapons of mass destruction programs in the run up to the Iraq War The book probes these intelligence failures which lie in the CIA's poor human intelligence collection and analysis practices The book argues that none of the post 9/11 intelligence reforms have squarely addressed these root causes of strategic intelligence failure and it recommends measures for redressing these dangerous vulnerabilities in American security

Hidden Iran Ray Takeyh, 2025-06-25 A leading expert explains why we fail to understand Iran and offers a new strategy for redefining this crucial relationship For more than a quarter of a century few countries have been as resistant to American influence or understanding as Iran The United States and Iran have long eyed each other with suspicion all too eager to jump to conclusions and slam the door What gets lost along the way is a sense of what is actually happening inside Iran and why it matters With a new hard line Iranian president making incendiary pronouncements and pressing for nuclear developments the consequences of not understanding Iran have never been higher Ray Takeyh a leading expert on Iran's politics and history has written a groundbreaking book that demystifies the Iranian regime and shows how the fault lines of Iran's domestic politics serve to explain its behavior In *Hidden Iran* he explains why this country has so often confounded American expectations and why its outward hostility does not necessarily preclude the normalization of relations Through a clearer understanding of the competing claims of Muslim theology republican pragmatism and factional competition he offers a new paradigm for managing our relations with this rising power
