Norcross,2013-04-11 Helps readers identify effective self help materials and distinguish them from those that are potentially misleading or even harmful It is designed for laypersons and mental health professionals and reviews books films online programs support groups and websites for 41 behavioral disorders and life challenges Reclaiming Your Life After Rape : Cognitive-Behavioral Therapy for Posttraumatic Stress Disorder Client Workbook Barbara Olasov Rothbaum Associate Professor in Psychiatry and Director of the Trauma and Anxiety Recovery Program Emory University School of Medicine, and Director Edna B. Foa Professor, Center for Treatment and Study of Anxiety Allegheny University of Health Sciences,2004-11-11 This powerful client workbook is written in an encouraging and easy to understand style specifically for women who have been sexually assaulted and have developed chronic symptoms of posttraumatic stress disorder PTSD Clients learn how cognitive behavioral therapy has helped other victims and how it can work for them This book explains how to distinguish PTSD symptoms from other disorders and teaches powerful techniques for overcoming these symptoms In writing this book the authors aim to address two goals First they want to present information about PTSD and related problems in language understandable to nonprofessionals This information will include a review of the studies on posttrauma problems and on the effectiveness of different treatments They also describe why some survivors develop PTSD and others do not The second goal of the book is to provide a detailed client workbook for the treatment of trauma related problems especially PTSD to assist clients working with a therapist The authors are aware of the fact that people have different problems and different needs What works for one person may not work for another Therefore they describe several different treatment techniques The book is organized around the different cognitive behavioral techniques that have been studied and proven effective with women sufferers of PTSD following an assault Throughout the book the authors focus mainly on women who have been sexually assaulted and as a result developed chronic symptoms of PTSD which have disturbed their daily functioning and cause them emotional distress Most of the examples they use to demonstrate the cognitive behavioral techniques are drawn from their experience in treating rape survivors However the cognitive behavioral procedures outlined here have been as successful in helping women who have been sexually abused in childhood and adult female survivors of nonsexual assaults like aggravated assault and robbery Other survivors of traumas such as natural disasters and car accidents were also helped by this cognitive behavioral approach *Engaging Men in the Fight against Gender Violence* Jane Freedman,2012-12-05 Gender based violence is a global phenomenon which affects millions worldwide However despite the increasing attention which is now paid to this violence by policy makers data seem to indicate that these efforts are not having as great an impact as may have been hoped In all countries of the world reports of gender related violence remain elevated whilst many incidents of such violence probably remain unreported due to fear of stigma or reprisals for those who are victims One of the problems in tackling gender based violence has been that for too long men have been ignored as part of the solution Men are often labelled as perpetrators of violence but they are perhaps too infrequently considered also as

potential victims or as partners and actors in the fight against violence. Constructions of masculinities are not adequately studied to analyse how dominant forms of masculinities may contribute to cycles of violence and may also oppress and traumatise men themselves. This volume aims to address critically the issues of men masculinity and gender based violence asking how men can be fully engaged in the prevention of gender based violence and how this engagement can strengthen prevention initiatives.
