Rinik,2014-05-05 Most visitors to Algonquin Provincial Park experience its beauty during the summer months This book shows readers the diversity of wildlife and striking landscapes that appear throughout fall winter and spring Images and text together create a compellingly beautiful portrait of Algonquin Park capturing the wildlife forests lakes plants flowers and even mushrooms that illustrate the incredible diversity of the park through all seasons Talented painters illustrators and photographers Jan and Martin Rinik have spent years creating the rich range of visuals contained in this book More than 200 colour illustrations grace these pages along with 125 photographs of the park in all four seasons With training as a biologist Martin Rinik contributes authoritative information on the many species found in the park The result is a stunning and informative portrait one of the most diverse natural habitats in the world **Non-native Species and Their Role in the Environment**

Radu Cornel Guiaşu,2016-08-01 The young field of invasion biology initially a branch of ecology and conservation biology has greatly expanded particularly in the last two and a half decades or so As a result the potential negative effects of introduced species have been widely advertised and sometimes perhaps overemphasized This book attempts to restore some balance to the current debate over the role of non native species by offering a broader perspective and taking a longer term evolutionary look at these species and their impact in their new environments The relatively arbitrary nature of terms such as native and non native and the rather inconsistent ways in which such terms are applied to biological species as well as the subjective boundaries of so called native ranges are analyzed The role of non native species in their new environments can be considerably more complex than the anti introduced species information would often suggest Thus the more positive and nuanced perspective on introduced species and their impact offered in this book is much needed and long overdue **Canadian Books in Print.
