,2020-10-12 Time in the Eternal City Perceiving and Controlling Time in Late Medieval and Renaissance Rome is a major
contribution to the study of time and its numerous aspects in late medieval and Renaissance Rome The authors offer a
versatile view on the variety of ways time could be perceived Individual chapters concentrate on the grass root levels of
everyday life on various uses of the past in the present as well as on the control of time by the ecclesiastical authorities These
studies reveal a wealth of new information that demonstrates the almost endlessly fluid manner in which time could be
perceived as well as the innovative ways in which time could be used by individuals and authorities alike Contributors are
members of Tuomas Heikkil s research group at the Finnish Institute in Rome Holger Kaasik Urpo Kantola Marko Halonen
Jasmin Lukkari and Saku Pihko **The Vatican «Ostpolitik» 1958-1978** Autori Vari,2017-04-06T00:00:00+02:00 The

appraisal of the political dialogue and negotiations with the communist regimes of East Central Europe commenced by the Holy See in the 1960s did not provoke only lively debates among contemporaries but remains to the present day one of the most debated questions of the twentieth century history should it be assessed as a fixed path to which no alternative existed or was it a flawed initiative which merely served the international legitimacy of the communist totalitarian system This volume enriches the results of earlier historiography with new perspectives and confirms inter alia that a black and white reading often based on a one sided use of sources of Ostpolitik is incorrect just as the critical assessment which frequently places local considerations at the forefront requires revision the at times apologetic outlook defending the Vatican s Eastern policy is also untenable Only a nuanced and source focused analysis of the ambitions of the Roman and Muscovite centers and of local politics and Churches as well as dialogue between the various research trends can help us to gain a more thorough knowledge of and make us better understand those fixed paths upon which the Roman and local ecclesiastics of the era were forced to travel and which limited the possibility of success

Dalin,2010-03-16 In the brutal fight that has raged in recent years over the reputation of Pope Pius XII leader of the Catholic Church during World War II the Holocaust and the early years of the Cold War the task of defending the Pope has fallen primarily to reviewers These reviewers formulated a brilliant response to the attack on Pius but their work was scattered in various newspapers magazines and scholarly journals making it nearly impossible for the average reader to gauge the results In *The Pius War* Weekly Standard s Joseph Bottum has joined with Rabbi David G Dalin to gather a representative and powerful sample of these reviews deliberately chosen from a wide range of publications Together with a team of professors historians and other experts the reviewers conclusively investigate the claims attacking Pius XII *The Pius War* and a detailed annotated bibliography that follows will prove to be a definitive tool for scholars and students destined to become a major resource for anyone interested in questions of Catholicism the Holocaust and World War II *Catalogue of the Books Relating to Architecture, Construction & Decoration in the Public Library of the City of Boston* Boston Public Library,1894

Dizionario di erudizione storico-ecclesiastica da s. Pietro sino ai nostri giorni specialmente intorno ai principali santi ... Gaetano Moroni Romano,1858 **Subject Catalog** Library of Congress,1980-10 **Herodoti Historia per Matthiam Palmierum Pisanum e Graeco in Latinum versa** Ioannis Deligiannis,2025-06-16 The book contains the editio princeps of Mattia Palmieri s mid fifteenth century Latin translation of Herodotus Histories almost contemporary or even earlier than that by Lorenzo Valla It also investigates the intellectual and historical milieu in which Palmieri produced it as preparatory work for his historical works and to secure patronage under a church prelate by offering it to Cardinal Prospero Colonna It

includes some information on Palmieri's life and work and Herodotus' fortune; a brief comparison between Palmieri's and Valla's translations; Palmieri's Greek model and Livy's influence on him in language and style. It finally approaches some methodological issues related to editing a text preserved in authorially revised versions because the translation shows three different stages of revision. This first approach of Herodotus by Western scholars is significant because Herodotus was foremost read as a quarry of information of ethnographical, geographical, historical and anthropological nature in order for the Europeans to understand peoples they encountered on their exploratory voyages and the Ottomans who were considered as descendants of the Persians. **Giuseppe Campani, "Inventor Romae," an Uncommon Genius** Silvio

Bedini, 2021-07-05 The ingenious and ambitious Campani brothers Matteo, Pier Tommaso and Giuseppe were at the core of thriving activity of technological and scientific innovation that involved popes, the Sun King and other rulers of baroque Europe. Especially Giuseppe's outstanding production of innovating clocks, telescopes and microscopes attracted the attention of the most important scientific characters and experimental academies of the time. This posthumous book by Silvio Bedini is the result of a fifty-year long study that will serve not just as a reference work for scholars interested in seventeenth-century clockmaking, practical optics, astronomy and science and technology in general, but it also will provide you with unique insights into the scientific and technological landscape of baroque Rome and its links to a broader European scene. The author's narrative style and the many illustrations which accompany the story make this book also for non-specialists an enjoyable read.
