Romain Gary The Man Who Sold His Shadow:

Romain Gary Ralph Schoolcraft, 2012-05-26 In this book Ralph Schoolcraft explores the extraordinary career of the modern French author film director and diplomat a romantic and tragic figure whose fictions extended well beyond his books Born Roman Kacew he overcame an impoverished boyhood to become a French Resistance hero and win the coveted Goncourt Prize under the pseudonym and largely invented persona Romain Gary Although he published such acclaimed works as *The Roots of Heaven* and *Promise at Dawn* the Gaullist traditions that he defended in the world of French letters fell from favor and his critical fortunes suffered at the hands of a hostile press Schoolcraft details Gary's frustrated struggle to evolve as a writer in the eye of a public that now considered him a known quantity Identifying the daring strategies used by this mysterious character as he undertook an elaborate scheme to reach a new readership Schoolcraft offers new insight into the dynamics of authorship and fame within the French literary institutions In the early 1970s Gary made his departure from the conservative literary establishment publishing works that boasted a quirky elliptical style under a variety of pseudonymous personae the most successful of which was that of an Algerian immigrant by the name of Emile Ajar Moving behind the mask of his new creation Gary was able to win critical and popular acclaim and a second Goncourt in 1975 But as Schoolcraft suggests Gary may have sold his shadow that is lost his authorial persona by marketing himself too effectively Going so far as to recruit a cousin to stand in as the public face of this phantom author Gary kept the secret of his true authorship until his violent death in 1980 from a self-inflicted gunshot wound The press reacted with resentment over the scheme and he was shunned into the ranks of literary oddities Schoolcraft draws from archives of the several thousand documents related to Gary housed at the French publishing firms of Gallimard and Mercure de France as well as the Butler Library at Columbia University Exploring the depths of a story that has long remained shrouded in mystery *Romain Gary The Man Who Sold His Shadow* is as much a fascinating biographical sketch as it is a thought-provoking reflection on the assumptions made about identities in the public sphere

Gary Jean Malaquais and Elsa Triolet continued to write in their adopted language even as the Vichy regime and Nazi occupiers denied their French identity through xenophobic and antisemitic laws. In this book Julia Elsky argues that these writers reexamined both their Jewishness and their place as authors in France through the language in which they wrote. The group of authors Elsky considers depicted key moments in the war from their perspective as Jewish migrants including the June 1940 civilian flight from Paris, life in the occupied and southern zones, the roundups and internment camps, and the Resistance in France and in London. Writing in French, they expressed multiple cultural, religious, and linguistic identities, challenging the boundaries between center and periphery, between French and foreign, even when their sense of belonging was being violently denied.

Impostors Christopher L. Miller, 2018-12-10 Miller takes us on an exciting tour of postcolonial and world literature, guiding us through the literary maze of the real and the pretenders to the real. Ngugi wa Thiong'o, author of *Wizard of the Crow*, writing a new page in the surprisingly long history of literary deceit. *Impostors* examines a series of literary hoaxes, deceptions that involved flagrant acts of cultural appropriation. This book looks at authors who posed as people they were not in order to claim a different ethnic class or other identity. These writers were, in other words, literary usurpers and appropriators who trafficked in what Christopher L. Miller terms the intercultural hoax. In the United States, such hoaxes are familiar: Forrest Carter's *The Education of Little Tree* and J.T. LeRoy's *Sarah* are two infamous examples. Miller's contribution is to study hoaxes beyond our borders, employing a comparative framework and bringing French and African identity hoaxes into dialogue with some of their better-known American counterparts. In France, multiculturalism is generally eschewed in favor of universalism, and there should thus be no identities in the American sense to steal. However, as Miller demonstrates, this too is a ruse: French universalism can only go so far and do so much. There is plenty of otherness to appropriate. This French and Francophone tradition of imposture has never received the study it deserves. Taking a novel approach to this understudied tradition, *Impostors* examines hoaxes in both countries, finding similar practices of deception and questions of harm. In this fascinating study of intercultural literary hoaxes, Christopher L. Miller provides a useful brief history of American literary impostures as a backdrop for his investigation of France's literary history of ethnic usurpation.

Henry Louis Gates Jr., New York Times bestselling author. *Projecting the Holocaust into the Present* Lawrence Baron, 2005-11-01 Most Holocaust scholars and survivors contend that the event was so catastrophic and unprecedented that it defies authentic representation in feature films. Yet it is precisely the extremity of the Final Solution and the issues it raised that have fueled the cinematic imagination since the end of World War II. Recognizing that movies reach a greater audience than eyewitness historical or literary accounts, Lawrence Baron argues that they mirror changing public perceptions of the Holocaust over time and place. After tracing the evolution of the most commonly employed genres and themes in earlier Holocaust motion pictures, he focuses on how films from the 1990s made the Holocaust relevant for contemporary audiences. While genres like biographical films and love stories about doomed Jewish-Gentile couples remained

popular they now cast Jews or non Jewish victims like homosexuals in lead roles more often than was the case in the past Baron attributes the recent proliferation of Holocaust comedies and children s movies to the search for more figurative and age appropriate genres for conveying the significance of the Holocaust to generations born after it happened He contends that thematic shifts to stories about neo Nazis rescuers survivors and their children constitute an expression of the continuing impact the Holocaust exerts on the present The book concludes with a survey of recent films like Nowhere in Africa and The Pianist

Framing Literary Humour Jeanne Mathieu-Lessard,2020-01-23 Contrary to what their oppressive design would lead us to believe might structures of imprisonment actually incite humour Starting from the most obvious areas of

imprisonment war camps prison cells and moving to the less obvious masks bodies Framing Literary Humour demonstrates how 20th century humour in theory and in fiction cannot be fully understood without a careful look at its connection with the notion of imprisonment Understanding imprisonment as a concrete spatial setting or a metaphorical image Jeanne Mathieu Lessard analyses selected works of Romain Gary Giovannino Guareschi Wyndham Lewis Vladimir Nabokov and Luigi Pirandello to reconfigure confinement as an essential structural condition for the emergence of humour

The RAF's French Foreign Legion G. H. Bennett, 2011-04-28 This book examines and analyses the relationship between the RAF the Free French Movement and the French fighter pilots in WWII A highly significant subject this has been ignored by academics on both sides of the Channel This ground breaking study will fill a significant gap in the historiography of the War Bennett's painstaking research has unearthed primary source material in both Britain and France including Squadron records diaries oral histories and memoirs In the post war period the idea of French pilots serving with the RAF seemed anachronistic to both sides For the French nation the desire to draw a veil over the war years helped to obscure many aspects of the past and for the British the idea of French pilots did not accord with the myths of the Few to whom so much was owed Those French pilots who served had to make daring escapes Classed as deserters they risked court martial and execution if caught They would play a vital role on D Day and the battle for control of the skies which followed

Brower,2025-08-19 French colonization dismantled Algerian names Under the occupation that began in 1830 not only were Algerian towns and streets renamed in honor of French figures but personal names were forced to follow French conventions and norms Colonial authorities simplified and transformed Algerian names to suit their administrative and legal purposes crudely transcribing and transliterating Arabic and Berber They imposed a two part name and surname model that stripped away the extended family ties and social context inherent to precolonial naming practices This groundbreaking history of personal names in nineteenth century Algeria sheds new light on the symbolic violence of renaming and the relationship between language and colonialism Benjamin Claude Brower traces the changes Algerians personal names suffered during the colonial era and the consequences for individuals and society France s imposition of new names he argues destabilized Algerians sense of self and place in the community distorted local identities and compromised institutions such as the family Drawing on previously unstudied records Brower examines different northwestern African naming traditions and how colonialism changed them With the aid of literary and critical theory he develops new insights into the
