**Early Christian Painting** Pierre Du Bourguet,1966 A book dedicated to the study of early Christian painting *The Dawn of Christian Art in Panel Paintings and Icons* Thomas F. Mathews,Norman E. Muller,2017-02-01 Staking out new territory in the history of art this book presents a compelling argument for a lost link between the panel painting tradition of Greek antiquity and Christian paintings of Byzantium and the Renaissance While art historians place the origin of icons in the seventh century Thomas F Mathews finds strong evidence as early as the second century in the texts of Irenaeus and the Acts of John that describe private Christian worship In closely studying an obscure set of sixty neglected panel paintings from Egypt in Roman times the author explains how these paintings of the Egyptian gods offer the missing link in the long history of religious painting Christian panel paintings and icons are for the first time placed in a continuum with the pagan paintings that preceded them sharing elements of iconography technology and religious usages as votive offerings Exciting discoveries punctuate the narrative the technology of the triptych enormously popular in Europe traced by the authors to the construction of Egyptian portable shrines such as the Isis and Serapis of the J Paul Getty Museum the discovery that the egg tempera painting medium usually credited to Renaissance artist Cimabue has been identified in Egyptian panels a millennium earlier and the reconstruction of a ring of icons on the chancel of Saint Sophia in Istanbul This book will be a vital addition to the fields of Egyptian Graeco Roman and late antique art history and more generally to the history of painting Christian art Giovanni Battista de Rossi,1879 **Early Christian Art** André Grabar,1969 The beginnings of any historical movement are bound to be mysterious So it is with Christianity and so it is with Christian art Into the ordered world of late classicism came the arresting voice and disturbing gaze of men heavy with conscience for whom art was only a medium for higher truth Andr Grabar traces the emergence of this art from its pagan background and shows the social and spiritual forces that governed its growth Early Christian Art covers a vast area from Spain to Syria and a vast theme since content and meaning are inseparable from expression Chapters are devoted to painting and sculpture during the persecutions to the great Roman basilicas and Old St Peter s to the mosaics of Saint Costanza and to the haunting and still too little known sarcophaguses of the 4th century The book also includes a section of ancient texts relating to art a chronological table and a glossary index and

the whole work is the fruition of a great scholar's life work From publisher's description Imperial Rome and Christian Triumph Jas Elsner, 1998 Western culture saw some of the most significant and innovative developments take place during the passage from antiquity to the middle ages This stimulating new book investigates the role of the visual arts as both reflections and agents of those changes It tackles two inter-related periods of internal transformation within the Roman Empire the phenomenon known as the Second Sophistic c ad 100-300 two centuries of self-conscious and enthusiastic hellenism and the era of late antiquity c ad 250-450 when the empire underwent a religious conversion to Christianity Vases murals statues and masonry are explored in relation to such issues as power death society acculturation and religion By examining questions of reception viewing and the culture of spectacle alongside the more traditional art historical themes of imperial patronage and stylistic change Jas Elsner presents a fresh and challenging account of an extraordinarily rich cultural crucible in which many fundamental developments of later European art had their origins a highly individual work wonderful visual and comparative analysis I can think of no other general book on Roman art that deals so elegantly and informatively with the theme of visibility and visual desire Professor Natalie Boymel Kampen Barnard College New York exciting and original a vibrant impression of creative energy and innovation held in constant tension by the persistence of more traditional motifs and techniques Elsner constantly surprises and intrigues the reader by approaching familiar material in new ways Professor Averil Cameron Keble College Oxford
