Roman Vergil And The Origin Of Medieval Illumination:

The Roman Vergil and the Origins of Medieval Book Design David Herndon Wright, 2001 The Roman Vergil or Codex Romanus so named by Valeriano in 1521 is one of the most precious manuscripts in the Vatican Library Produced in Rome before the end of the fifth century AD it is an enormous and beautifully made copy of the works of Vergil finely designed and illuminated Its influence on the development of mediaeval manuscript art is important in many ways for example the first page of the text of the Aeneid is the earliest known decorated incipit page In this volume all 20 illuminated pages are reproduced in sequence with explanatory text In the accompanying commentary Professor Wright provides a wide ranging discussion of the place of the manuscript in the history of art and book design illustrated with comparative material from other manuscripts mosaics and ivories along with an analysis of the script and letter forms *The Roman Vergil and the Origins of Medieval Book Design* David Herndon Wright, British Library, 2001-01-01 The 5th century AD Roman Vergil is one of the most precious manuscripts in the Vatican Library Wright presents a wide ranging discussion of the influence of the manuscript on the history and development of medieval manuscript art and of book design Illuminating the Word in the Early Middle Ages Lawrence Nees, 2023-10-05 This richly illustrated study shows how modern systems of textual presentation grew from techniques developed in the medieval period The Mind of the Book Alastair Fowler, 2017-02-09 Alastair Fowler presents a fascinating study of title pages printed in England from the early modern period to the nineteenth century He examines pictorial title pages in the context of the History of the Book for the first time The first part of The Mind of the Book explores the forerunner of the frontispiece in late antiquity the use of frames and borders in title pages portraits printers devices emblematic title pages of the sixteenth and seventeenth centuries especially attending to explanatory verses and arcane features such as chronograms title pages as memory prompts and eighteenth and nineteenth century title pages tracing the rejection of emblematic and symbolic features and the introduction of unadorned unpictorial title pages The second part of the book presents illustrations of sixteen significant title pages with commentaries ranging from Chaucer's Works in 1532 through Bacon's Instauratio Magna in 1620 Dicken's The Mystery of Edwin Drood in 1870 and arriving back at Chaucer with Edward Burnes Jones's illustrated title page for the Works of 1896 **The Protean Virgil** Craig Kallendorf, 2015 The Protean Virgil argues that when we try to understand how and why different readers have responded differently to the same text over time we should take into account the physical form in which they read the text as well as the text itself Using Virgil's poetry as a case study in book history the volume shows that a succession of material forms manuscript printed book illustrated edition and computer file undermines the drive toward textual and interpretive stability This stability is the traditional goal of classical scholarship which seeks to recover what Virgil wrote and how he intended it to be understood The manuscript form served to embed Virgil's poetry into Christian culture which attempted to anchor the content into a compatible theological truth Readers of early printed material proceeded differently breaking Virgil's text into

memorable moral and stylistic fragments and collecting those fragments into commonplace books Furthermore early illustrated editions present a progression of re envisionings in which Virgil s poetry was situated within a succession of receiving cultures In each case however the material form helped to generate a method of reading Virgil which worked with this form but which failed to survive the transition to a new union of the textual and the physical This form induced instability reaches its climax with computerization which allows the reader new power to edit the text and to challenge the traditional association of Virgil s poetry with elite culture

Francesco Stella,Lucie Doležalová,Danuta Shanzer,2024-07-15 The textual heritage of Medieval Latin is one of the greatest reservoirs of human culture Repertories list more than 16 000 authors from about 20 modern countries Until now there has been no introduction to this world in its full geographical extension Forty contributors fill this gap by adopting a new perspective making available to specialists but also to the interested public new materials and insights The project presents an overview of Medieval and post medieval Latin Literatures as a global phenomenon including both Europe and extra European regions It serves as an introduction to medieval Latin s complex and multi layered culture whose attraction has

been underestimated until now Traditional overviews mostly flatten specificities yet in many countries medieval Latin literature is still studied with reference to the local history Thus the first section presents 20 regional surveys including chapters on authors and works of Latin Literature in Eastern Central and Northern Europe Africa the Middle East Asia and the Americas Subsequent chapters highlight shared patterns of circulation adaptation and exchange and underline the appeal of medieval intermediality as evidenced in manuscripts maps scientific treatises and iconotexts and its performativity in narrations theatre sermons and music The last section deals with literary interfaces that is motifs or characters that exemplify the double sided or the long term transformations of medieval Latin mythologemes in vernacular culture both early modern and modern such as the legends about King Arthur Faust and Hamlet

The History of the Book in the West: 400AD-1455 Pamela Robinson, 2017-03-02 This selection of papers by major scholars introduces students to the history of the book in the West from late Antiquity to the

publication of the Gutenberg Bible and the beginning of the print revolution The collection opens with wide ranging papers on handwriting and the physical make up of the book In the second group of papers the emphasis is on the look of the book complemented by a third group dealing with scribes readers and the availability of books The editors introduction provides an overview of the medieval book *Astronomical Knowledge Transmission Through Illustrated Aratea Manuscripts* Marion Dolan, 2017-08-22 This carefully researched monograph is a historical investigation of the illustrated Aratea astronomical manuscript and its many interpretations over the centuries Aratus 270 B C E Greek poem describing the constellations and astrological phenomena was translated and copied over 800 years into illuminated manuscripts that preserved and illustrated these ancient stories about the constellations The Aratea survives in its entirety due to multiple translations from Greek to Latin and even to Arabic with many illuminated versions being commissioned over the ages The survey encompasses four interrelated disciplines history of literature history of myth history of science and history of art Aratea manuscripts by their nature are a meeting place of these distinct branches and the culling of information from historical literature and from the manuscripts themselves focuses on a wider holistic view a narrow approach could not provide a proper prospective What is most essential to know about this work is that because of its successive incarnations it has survived and been reinterpreted through the centuries which speaks to its importance in all of these disciplines This book brings a better understanding of the history changes and transmission of the original astronomical Phaenomena poem Historians art historians astronomy lovers and historians of astronomy will learn more specialized details concerning the Aratea and how the tradition survived from the Middle Ages It is a credit to the poetry of Aratus and the later interpreters of the text that its pagan aspects were not edited nor removed but respected and maintained in the exact same form despite the fact that all sixty Aratea manuscripts mentioned in this study were produced under the rule of Christianity *Culture and Ideology under the Seleukids* Eva Anagnostou-Laoutides, Stefan Pfeiffer, 2022-01-19 The volume offers a timely re appraisal of Seleukid cultural dynamics While the engagement of Seleukid kings with local populations and the issue of Hellenization are still debated a movement away from the Greco centric approach to the study of the sources has gained pace Increasingly textual sources are read alongside archaeological and numismatic evidence and relevant near eastern records are consulted Our study of Seleukid kingship adheres to two game changing principles 1 We are not interested in judging the Seleukids as strong or weak whether in their interactions with other Hellenistic kingdoms or with the populations they ruled 2 While appreciating the value of the social imaginaries approach Stavrianopoulou 2013 we argue that the use of ethnic identity in antiquity remains problematic Through a pluralistic approach in line with the complex cultural considerations that informed Seleukid royal agendas we examine the concept of kingship and its gender aspects tensions between centre and periphery the level of acculturation intended and achieved under the Seleukids the Seleukid Ptolemaic interrelations As rulers of a multi cultural empire the Seleukids were deeply aware of cultural politics Charlemagne and Rome Joanna Story, 2023-04-28 Charlemagne and

Rome is a wide ranging exploration of cultural politics in the age of Charlemagne It focuses on a remarkable inscription commemorating Pope Hadrian I who died in Rome at Christmas 795 Commissioned by Charlemagne composed by Alcuin of York and cut from black stone quarried close to the king s new capital at Aachen in the heart of the Frankish kingdom it was carried to Rome and set over the tomb of the pope in the south transept of St Peter s basilica not long before Charlemagne s imperial coronation in the basilica on Christmas Day 800 A masterpiece of Carolingian art Hadrian s epitaph was also a manifesto of empire demanding perpetual commemoration for the king amid St Peter s cult In script stone and verse it proclaimed Frankish mastery of the art and power of the written word and claimed the cultural inheritance of imperial and papal Rome recast for a contemporary early medieval audience Pope Hadrian s epitaph was treasured through time and was one of only a few decorative objects translated from the late antique basilica of St Peter s into the new structure the construction of which dominated and defined the early modern Renaissance Understood then as precious evidence of the antiquity of imperial affection for the papacy Charlemagne s epitaph for Pope Hadrian I was preserved as the old basilica was destroyed and carefully redisplayed in the portico of the new church where it can be seen today Using a very wide range of sources and methods from art history epigraphy palaeography geology archaeology and architectural history as well as close reading of contemporary texts in prose and verse this book presents a detailed object biography contextualising Hadrian s epitaph in its historical and physical setting at St Peter s over eight hundred years from its creation in the late eighth century during the Carolingian Renaissance through to the early modern Renaissance of Bramante Michelangelo and Maderno
