**The Big Book of Nevada Ghost Stories** Janice Oberding, 2023-08-01 Time has all but forgotten the tragic tales of those who have passed through Nevada but their spirits remain As arguably the most haunted state in the nation Nevada has more than its share of ghosts with intriguing stories and historical connections Among them is the unfortunate gangster Bugsy Siegel who died in Beverly Hills only to return to his old stomping grounds the Flamingo Las Vegas Julia Bulette the ill fated prostitute who was slaughtered in her bed on a cold January morning in 1867 and the many haunted houses in Reno their owners forever tied to their homes refusing to depart

Building Nevada's Highways Jennifer E. Riddle, 2015 Roads are rarely given a second thought yet are indispensable to life Admittedly a book dedicated to roadways sounds a bit dry But behind every double diamond interchange every pork chop island and every type of asphalt is a fascinating history of the traveling public This book reveals the hidden history of building the Silver State s highways since 1917 The next time you take a road trip across Nevada on the Lincoln Highway US 50 or the Victory Highway US 40 or follow a rutted road to a once booming ghost town think of the ingenious and industrious men and women surveyors engineers chemists and yes even the teams of mules that built the roads we still travel today **The Story of Austin Nevada & The Nevada Central Railroad** Michael Brown, 2013-08-04 Western history buffs and rail fans will find a rich and interesting history of the mining town of Austin Nevada and the narrow gauge railroad that served the town for almost 60 years the Nevada Central Railroad Several photographs and maps show the town and the railroad as it

was *Jews in Nevada* John P. Marschall,2011-03-28 Jews have always been one of Nevada's most active and influential ethnic minorities They were among the state's earliest Euro American settlers and from the beginning they have been involved in every area of the state's life as businessmen agrarians scholars educators artists politicians and civic professional and religious leaders *Jews in Nevada* is an engaging multilayered chronicle of their lives and contributions to the state Here are absorbing accounts of individuals and families who helped to settle and develop the state as well as thoughtful analyses of larger issues such as the reasons Jews came to Nevada in the first place how they created homes and interacted with non Jews and how they preserved their religious and cultural traditions as a small minority in a sparsely populated region

*Bald Mountain Mine, North Operations Area Project* ,2009 *Great Basin National Park* Gretchen M. Baker,2012-04-14 Great Basin National Park is in large part a high alpine park but it sits in one of America's driest least populated and most isolated deserts That contrast is one facet of the diversity that characterizes this region Within and outside the park are phenomenal landscape features biotic wonders unique environments varied historic sites and the local colors of isolated towns and ranches Vast Snake and Spring Valleys bracketing the national park are also subjects of one of the West's most divisive environment contests over what on the surface seems most absent but underground is abundant enough for sprawling Las Vegas to covet it water **Connecting the West** Shawn Hall,2002-06-01 Shawn Hall's immensely popular guidebooks to Nevada ghost towns have become essential resources for backcountry explorers and scholars alike Now Hall returns to Elko County to survey the county's railroad and stage stations as well as other sites not included in his earlier survey of this colorful section of the state As in his earlier volumes Hall includes a history of each site he lists along with period and contemporary photographs directions for locating the sites and an assessment of their present condition His historical accounts based on a wide range of primary and secondary sources are both scholarly and engaging rich in anecdotes and personalities and in the fascinating minutia of history often ignored by more academic writers Shawn Hall's dedication to documenting Nevada's thousands of historic sites has enriched our knowledge of the state's relatively brief but very eventful past *Connecting the West* is a worthy addition to Hall's remarkable efforts to preserve the state's history *A Garden Of Bristlecones* Michael P. Cohen,1998-09-01 An engaging well illustrated natural and cultural history of the oldest living organism the bristlecone pine Since Edmund Schulman discovered in 1958 that individual bristlecones live nearly 5 000 years the trees have been investigated primarily for the elaborate record their rings contain The trees have been read closely with major consequences for natural and human history Historians have read local and global environmental change Archaeologists have rewritten the history of civilization Writers have transformed them into figures pertinent to the human dilemmas of time and eternity *A Garden of Bristlecones* investigates professional and popular conceptions as a set of narratives drawn from the outside and inside of the trees It reveals the premises of the investigators the nature of their inquiry and the extent of their knowledge while also revealing the Great Basin bristlecone itself Illustrations by Valerie
