D. Costen, Catherine Oakes, 2000 The Worlds of Villard de Honnecourt: The Portfolio, Medieval **Technology, and Gothic Monuments**, 2022-12-12 This book charts the past present and future of studies on medieval technology art and craft practices Inspired by Villard's enigmatic portfolio of artistic and engineering drawings this collection explores the multiple facets of medieval building represented in this manuscript Paris Biblioth que nationale de France MS Fr 19093 The book s eighteen essays and two introductions showcase traditional and emergent methods for the study of medieval craft demonstrating how these diverse approaches collectively amplify our understanding about how medieval people built engineered and represented their world Contributions range from the analysis of words and images in Villard s portfolio to the close analysis of masonry technological marvels and gothic architecture pointing the way toward new avenues for future scholarship to explore Contributors are Mickey Abel Carl F Barnes Jr Robert Bork George Brooks Michael T Davis Amy Gillette Erik Gustafson Maile S Hutterer John James William Sayers Ellen Shortell Alice Isabella Sullivan Richard Alfred Sundt Sarah Thompson Steven A Walton Maggie M Williams Kathleen Wilson Ruffo and Nancy Wu Open Access Mickey Abel, 2011-12-08 Open Access Contextualizing the Archivolted Portals of Northern Spain and Western France within the Theology and Politics of Entry explores the history development and accrued connotations of a distinctive entry configuration comprised of a set of concentrically stepped archivolts surrounding a deliberate tympanum free portal opening These archivolted portals adorned many of the small rural ecclesiastical structures dotting the countryside of western France and northern Spain in the twelfth century Seeking to re contextualize this configuration within monastic meditational practices this book argues that the ornamented archivolts were likely composed following medieval prescriptions for the rhetorical ornamentation of poetry and employed the techniques of mnemonic recollection and imaginative visualization Read in this light it becomes clear that the architectural form underlying these semi circular configurations served to open the possibilities for meaning by making the sculptural imagery physically and philosophically accessible to both the monastic community and the lay parishioner Pointing to an Iberian heritage in which both light and space had long been manipulated

in the conveyance of theological and political ideologies Abel suggests that the portal s architectural form grew out of a physical and social matrix characterized by pilgrimage crusade and processions where the elements of motion integral to the Quadrivium sciences of Math Geometry Astronomy and Music were enhanced by a proximity to and cultural interaction with the Islamic courts of Spain It was however within the politics of the Peace of God movement with its emphasis on relic processions that often encompassed all the parishes of the monastic domain that the archivolted portal with its elevated porch like space are shown to be the most effective Reassessing the Roles of Women as 'Makers' of Medieval Art and Architecture (2 Vol. Set) Therese Martin, 2012 The twenty four studies in this volume propose a new approach to framing the debate around the history of medieval art and architecture to highlight the multiple roles played by women moving beyond today s standard division of artist from patron God and Enchantment of Place David Brown, 2004-10-15 David Brown argues for the importance of experience of God as mediated through place in all its variety He explores the various ways in which such experiences once formed an essential element in making religion integral to human life and argues for their reinstatement at the centre of theological discussions about the existence of God In effect the discussion continues the theme of Brown s two much praised earlier volumes Tradition and Imagination and Discipleship and Imagination in its advocacy of the need for Christian theology to take much more seriously its relationship with the various wider cultures in which it has been set In its challenge to conventional philosophy of religion the book will be of interest to theologians and philosophers and also to historians of art and culture generally South-western France Augustus John Cuthbert Hare.1890 Romanesque Churches of France Peter Strafford, 2005 Romanesque Churches of France which covers a hundred or so churches in ten geographical sections from Normandy and Burgundy in the north to Provence Roussillon and Languedoc in the south is the first comprehensive book to be published on the subject It is an ideal companion for travelers with its many maps and its regional arrangement and will be a stimulus for the exploration of remote and beautiful areas that are less familiar such as Auvergne and the Pyrenees It will also be invaluable as a reference book for all those with a general interest in the history of French architecture and sculpture BOOK JACKET Mary in Our Life Nicholas Joseph Santoro, 2011-08-12 Mary In Our Life An Atlas of the Names and Titles of Mary The Mother of Jesus and Their Place in Marian Devotion presents the 1 969 names titles and appellations used to identify the Blessed Virgin Mary over the centuries in terms of their history and related events Within these titles and their history can be seen the official and private attitudes and prejudices of the times government pressures conflicts and interdictions internal problems within the Catholic Church and startling examples of dedication devotion and piety Taken together Marian titles are a real life story of the Catholic faith **DK Eyewitness Travel Guide: France** Katherine Spenley, Robin Gauldie, 2012-02-01 The chapters of this book have been divided into 16 color coded regions that reflect the diversity of France These are based on the country's historical regions that were often defined by their geography and landscape as much as by their influence and power Each
