Romania Since 1989 Politics Economics And Society:

Romania Since 1989 Henry F. Carey, 2004-01-01 The most comprehensive study of Romanian politics ever published abroad this volume represents an effort to collect and analyze data on the complex problems of Romania's journey from sultanistic national communism to a yet unreached democratic government Politics, Power and the Struggle for Democracy in South-East Europe Karen Dawisha, Bruce Parrott, 1997-06-13 Edited by two of the world's leading analysts of post communist politics this book brings together distinguished specialists on Bosnia Hercegovina Croatia Macedonia Slovenia Serbia Montenegro Albania Bulgaria and Romania The authors analyse the challenge of building democracy in the countries of the former Yugoslavia riven by conflict and in neighboring states They focus on oppositional activity political cultures that often favour strong presidentialism the role of nationalism and basic socioeconomic trends Karen Dawisha and Bruce Parrott provide theoretical and comparative chapters on post communist political development across the region This book will provide students and scholars with detailed analysis by leading authorities plus the latest research data on recent political and economic developments in each country *Central and Southeast European Politics since 1989* Sabrina P.

Ramet, 2010-02-18 The only textbook to provide a complete introduction to post 1989 Central and Southeast European politics this dynamic volume provides a comprehensive account of the collapse of communism and the massive transformation that the region has witnessed It brings together 23 leading specialists to trace the course of the dramatic changes accompanying democratization The text provides country by country coverage identifying common themes and enabling students to see which are shared throughout the area giving them a sense of its unity and comparability whilst strengthening understanding around its many different trajectories The dual thematic focus on democratization and Europeanization running through the text also helps to reinforce this learning process Each chapter contains a factual overview to give the reader context concerning the region which will be useful for specialists and newcomers to the subject alike

Aspects of Independent Romania's Economic History with Particular Reference to Transition for EU Accession David Turnock, 2016-04-15 After fifteen years of transition in the former communist states of Central and Eastern Europe it has become clear that for a substantial number the objective of reform and restructuring process is a market system in line with membership of the EU In this study the long term economic transformation of Romania is studied offering a detailed narrative and thematic account of events from the nineteenth to the twenty first centuries From the first steps towards large scale industrialisation begun prior to the First World War through the accelerated pace set by the communist regime after 1945 and the uncertainty following its subsequent collapse in 1989 the book addresses a wide range of pertinent issues that have shaped Romania's economic development The study also offers an interpretation of a distinctive phase in the modernisation of post communist Romania supported by economic historical surveys of the preceding century as a context for recent restructuring on the eve of EU accession This is linked with trends in the region as a whole so that a broad

perspective is maintained throughout the book By highlighting Romania's position as one of more backward accession states and considering in what ways its experience during transition differs from the more developed states of the region this study offers a valuable insight into both the history of Romania and its future prospects Furthermore it provides a valuable case study that can be compared and contrasted with other countries who are likewise still grappling with the legacy of a centralised economy and in the process of adopting a more market orientated approach in order to gain EU membership As such this study will be of interest not only to historians and economists but anyone with an interest in the expansion of the European Union

Romania since the Second World War Florin Abraham, 2016-11-17 CHOICE Outstanding Academic Title 2017 Romania since the Second World War is the first book about Romania designed to chart the progress of the nation under the communist regime as well as the transition period that followed providing detailed analysis of the aspects of continuity and change that can be identified over the period as a whole The book begins with Romania's involvement in the Second World War looking at the communist regime in depth It examines how communism took hold and the elimination of traditional elites took place before discussing the impact of Gheorghiu Dej and Nicolae Ceausescu the two most important leaders of the communist era The following chapters cover the main social and economic changes during the communist regime The second part of the book explores the transition period following the end of communism in 1989 with special attention given to international relations and Romania's drive for inclusion in NATO and the EU Romania since the Second World War assesses socio demographic trends across the postwar period before concluding with some thoughts on the nation's development during this time The book includes a useful appendix covering the key figures in Romania's recent history and a helpful bibliography making this a key text for anyone interested in the modern history of Eastern Europe

Central and East European Politics Sharon L. Wolchik, Jane Leftwich Curry, 2018-03-29 Now in a fully updated edition this essential text explores the other half of Europe the new and future members of the EU along with the problems and potential they bring to the region and to the world stage Clear and comprehensive it offers an authoritative analysis of Central and Eastern Europe the Baltics and Ukraine

Regional and National Elections in Eastern Europe Arjan H. Schakel, 2017-02-11 This book is the second of two studies which systematically explore territoriality of the vote in Europe They investigate when and where voters treat regional elections differently from national contests and aim to increase our understanding of the dynamics of electoral competition which have become increasingly multifarious and complex in many countries due to the establishment and strengthening of regional government This volume brings together leading experts on elections who analyze differences between regional and national electoral outcomes in ten East European countries since 1990 Based on a common analytical framework each chapter investigates congruence between regional and national elections and traces and explains second order and regional election effects The editors applied a similar analytical framework in Regional and National Elections in Western Europe Palgrave 2013 which focused on 13 West European countries enabling the authors to compare

regionalelectoral dynamics between Eastern and Western Europe and observe to what extent explanations for territorial heterogeneity in the vote in the West also apply to the East This book will be of particular interest to advanced students and scholars in the fields of comparative politics regional studies Eastern European politics and democratization Economic Statecraft and Foreign Policy Jean-Marc F. Blanchard, Norrin M. Ripsman, 2013-07-18 This book develops a unified theory of economic statecraft to clarify when and how sanctions and incentives can be used effectively to secure meaningful policy concessions High profile applications of economic statecraft have yielded varying degrees of success The mixed record of economic incentives and economic sanctions in many cases raises important questions Under what conditions can states modify the behaviour of other states by offering them tangible economic rewards or by threatening to disrupt existing economic relations To what extent does the success of economic statecraft depend on the magnitude of economic penalties and rewards In order to answer these questions this book develops two analytic models one weighs the threats economic statecraft poses to the Target s Strategic Interests TSI while the other stateness assesses the degree to which the target state is insulated from domestic political pressures that senders attempt to generate or exploit Through a series of carefully crafted case studies including African apartheid and Japanese incentives to obtain the return of the Northern Territories the authors demonstrate how their model can yield important policy insights in regards to contemporary economic sanctions and incentives cases such as Iran and North Korea This book will be of much interest to students of statecraft sanctions diplomacy foreign policy and international security in general Competitive Authoritarianism Steven Levitsky, Lucan A. Way, 2010-08-16 Based on a detailed study of 35 cases in Africa Asia Latin America and post communist Eurasia this book explores the fate of competitive authoritarian regimes between 1990 and 2008 It finds that where social economic and technocratic ties to the West were extensive as in Eastern Europe and the Americas the external cost of abuse led incumbents to cede power rather than crack down which led to democratization Where ties to the West were limited external democratizing pressure was weaker and countries rarely democratized In these cases regime outcomes hinged on the character of state and ruling party organizations Where incumbents possessed developed and cohesive coercive party structures they could thwart opposition challenges and competitive authoritarian regimes survived where incumbents lacked such organizational tools regimes were unstable but rarely democratized *Romania and The European Union* Dimitris Papadimitriou, David Phinnemore, 2008-03-26 This is a new overview of Romania s relationship with the European Union since the collapse of the Ceausescu regime in 1989 and recent accession to EU membership It presents the reader with a clear sense of the debate with full coverage of all the key issues involved European Social Integration and the Roma Cerasela Voiculescu, 2016-10-04 In the field of political sociology and European studies there has long been a discussion on transnational neoliberal development and ethnic groups self governance Notwithstanding there has been limited exploration in relation to modes of knowledge production associated with neoliberal governance of the Other e g ethnic and indigenous

groups which capture its idiosyncratic modes of political expression and empowerment Drawing on Michel Foucault's political philosophy this book discusses European social integration as transnational neoliberal governmentality and challenges its epistemologically constituted subaltern subject Neoliberalism is questioned in relation to its programs of securitisation of poverty and authoritarian models of self governance associated with instrumentality of the market In this context the book's rich political historical ethnography develops a new framework for the study of social power Furthermore inspired by Jacques Rancière's radical philosophy *European Social Integration and the Roma* proposes a new mode of knowledge production about populations excessively subjected to neoliberal governmentality heralding the epistemological decolonisation of the neoliberal subject Presenting an insightful new prospect in critical sociology as well as the conceptualization of power and the application of theories of governmentality this book will appeal to scholars interested in the areas of political sociology and anthropology international relations social and political theory philosophy and post development studies

Church, State, and Democracy in Expanding Europe Lavinia Stan, Lucian Turcescu, 2011-09-22

Lavinia Stan and Lucian Turcescu examine the relationship between religion and politics in ten former communist Eastern European countries showing church state relations in the new EU member states through study of political representation for church leaders governmental subsidies registration of religions by the state and religious instruction in public schools

Parallel Lives Calin Goina, 2024-12-15 This book explores the articulation between macro social historical transformations and the opportunities and constraints that the resultant political and property regimes presented for villagers It builds on ethnographic analyses of rural Eastern Europe by adding an historical analysis of the configurations and reconfigurations of life trajectories across three successive generations The villagers studied lived a succession of property and political configurations democratic and authoritarian regimes grounded in free market and private property until 1947 a totalitarian regime of state socialism until 1989 and a liberal democracy rebuilding a free market economy from 1990 until today It also brings forward an empirical exploration of the concept of generation grounded on a re reading of Karl Mannheim The book is distinctive in its historical breath covering a century via a detailed rich ethnographic study that includes a diversity of social positions from the richest members of the community to those of very poor means and a diversity of three ethnicities and religions

Post-Communist Romania at Twenty-Five Lavinia Stan, Diane Vanea, 2015-06-24 2014 marked the 25th anniversary of the collapse of communist regimes in Eastern Europe The events of 1989 are widely seen as having ushered in new all encompassing reforms in almost all areas of life In few other places were reforms more contested and divisive than in Romania a country that suffered greatly under the sultanistic cum totalitarian dictatorship of Nicolae Ceausescu faced the region's only bloody anti communist revolt and as such had the longest to travel on the road from communism to democracy We now have a generation's worth of experience with these wrenching reforms that have deeply affected Romania's political institutions and political culture and ultimately allowed it to become a member

of the coveted European Union club This volume gathers key lessons for democratic theory and practice from Romania's first twenty five years of post communist transformation Written by leading experts in the field of Romanian Studies the chapters focus on the most important factors that have shaped the country's political transformation during the first 25 years of post communism **Regional Economic Outlook, November 2017, Europe** International Monetary Fund. European

Dept.,2017-11-13 The European recovery is strengthening and broadening appreciably Real GDP growth is projected at 2.4 percent in 2017 up from 1.7 percent in 2016 before easing to 2.1 percent in 2018 These are large upward revisions 0.5 and 0.2 percentage point for 2017 and 2018 respectively relative to the April World Economic Outlook The European recovery is spilling over to the rest of the world contributing significantly to global growth In a few advanced and many emerging economies unemployment rates have returned to precrisis levels Most emerging market European economies are now seeing robust wage growth In many parts of Europe however wage growth is sluggish despite falling unemployment Ageing,

Ritual and Social Change Daniela Koleva,2016-04-01 Exploring European changes in religious and secular beliefs and practices related to life passages this book provides a deeper understanding of the impacts of social change on personal identity and adjustment across the life course According to latest research Europeans who consider religious services appropriate to mark life passages significantly outnumber those who declare themselves as believers Drawing on fascinating oral histories of older people's memories in both Eastern and Western Europe this book presents illuminating views on people's quests for existential meaning in later life Ageing Ritual and Social Change presents an invaluable resource for all those exploring issues of ageing including those looking from perspectives of sociology and psychology of religion social and oral history and East Central European studies **Religion and Politics in Post-Communist Romania** Lavinia

Stan,Lucian Turcescu,2007-10-25 In the post communist era it has become evident that the emerging democracies in Eastern Europe will be determined by many factors only some of them political Throughout the region the Orthodox Roman Catholic and Greek Catholic churches have tried to impose their views on democracy through direct political engagement Moreover surveys show that the churches and the army enjoy more popular confidence than elected political bodies such as parliaments These results reflect widespread disenchantment with a democratization process that has allowed politicians to advance their own agendas rather than work to solve the urgent socio economic problems these countries face In this penetrating study Lavinia Stan and Lucian Turcescu investigate the interaction of religion and politics in one such country Romania Facing internal challenges and external competitions from other religions old and new the Orthodox Church in Romania has sought to consolidate its position and ensure Romania's version of democracy recognizes its privileged position of national Church enforcing the Church's stances on issues such as homosexuality and abortion The post communist state and political elite in turn rely on the Church for compliance with educational and cultural policies and to quell the insistent demands of the Hungarian minority for autonomy Stan and Turcescu examine the complex relationship between church and

state in this new Romania providing analysis in key areas church collaboration with communist authorities post communist electoral politics nationalism and ethno politics restitution of Greek Catholic property religious education and sexual behavior and reproduction As the first scholars to be given access to confidential materials from the archives of the communist political police the notorious Securitate Stan and Turcescu also examine church archives legislation news reports and interviews with politicians and church leaders This study will move the debate from common analyses of nationalism in isolation to more comprehensive investigations which consider the impact of religious actors on a multitude of other issues relevant to the political and social life of the country

Holocaust Public Memory in Postcommunist Romania Alexandru Florian, 2018-01-24 An excellent analysis of the slow but steady evolution of Romania from heavy Holocaust denial toward a fair confrontation of its tragic past Radu Ioanid author of *The Holocaust in Romania* How is the Holocaust remembered in Romania since the fall of communism Alexandru Florian and an international group of contributors unveil how and why Romania a place where large segments of the Jewish and Roma populations perished still fails to address its recent past These essays focus on the roles of government and public actors that choose to promote construct defend or contest the memory of the Holocaust as well as the tools the press the media monuments and commemorations that create public memory Coming from a variety of perspectives these essays provide a compelling view of what memories exist how they are sustained how they can be distorted and how public remembrance of the Holocaust can be encouraged in Romanian society today While positive changes have taken place a large gap exists between the historical facts and public knowledge about Romania and the Holocaust This volume offers a fresh and nuanced understanding of the contemporary battles of memory in postcommunist Eastern Europe Diana Dumitru author of *The State Antisemitism and Collaboration in the Holocaust* An excellent and timely addition to European historiography The book consists of eight chapters most of them written by scholars affiliated with the Elie Wiesel Institute It not only shows the challenges faced in remembering Romania's involvement in the Holocaust but provides an excellent comparative analysis with other countries in the region

Reading Religion **Multiple Democracies in Europe** Paul Blokker, 2009-12-04 This book provides an in depth discussion and analysis of democracy in Europe with a focus on the new EU member states and makes an important and original contribution to the debate on the future of European democracy Author Paul Blokker seeks to provide a critical reconceptualization of the notion of democratic political culture by developing a multiple democracies theoretical approach He draws on debates in democratization theory and normative political theory and presents a cultural sociological approach for the analysis of democratization and democratic regimes This approach emphasizes the historical and cultural embedment of democracy identifies a potential variety of ethics of democracy that underpin democratic political cultures and points to the significance of democratic imagination in the interpretation and recombination of such ethics The book explores the relevance of this approach by analysing multiple political cultures and their role in the emergence of democratic regimes in

three new member states Hungary Poland and Romania providing a detailed description and analysis of political cultures by means of the analysis of constitutional politics constitutional texts and political elite discourses and the identification of distinct politico cultural elements that distinguish these societies from each other It will be of interest to students and scholars of democracy European studies post communist studies political theory and comparative politics Does East Go West? Christian Giordano, Francois Ruegg, Andrea Boscoboinik, 2014 Does East Go West examines the study of post socialism from an anthropological perspective These social systems have posed a challenge to anthropological theory that has been the subject of lively exchanges for over 20 years now Can post socialism as a concept adequately apply to the current situation in Eastern Europe One of the answers proposed here is that specific elements derived from postcolonial studies may prove very useful in analyzing Eastern Europe s post socialist countries Series Freiburg Studies in Social Anthropology Freiburger Sozialanthropologische Studien Etudes d Anthropologie Sociale de l Universite de Fribourg Vol 38
