Rommel Die Biographie:

Field Marshal Daniel Allen Butler, 2015-07-19 A biography of the WWII military genius known as the Desert Fox and his complex ultimately fatal relationship with Hitler from a New York Times bestselling author Born leader brilliant soldier devoted husband and father Erwin Rommel was intelligent brave and compassionate while at the same time vain egotistical and arrogant In France in 1940 then for two years in North Africa then at Normandy in 1944 he proved himself a master of armored warfare running rings around a succession of Allied generals who never got his measure and could only resort to overwhelming numbers to defeat him Yet for all his genius Rommel was also naive a man who could admire Adolf Hitler at the same time that he despised the Nazis dazzled by a Führer whose successes blinded him to the true nature of the Third Reich Above all he was the quintessential German patriot who ultimately would refuse to abandon his moral compass so that on one pivotal day in June 1944 he came to understand that he had mistakenly served an evil man and evil cause He would still fight for Germany even as he abandoned his oath of allegiance to the Führer when he came to realize that Hitler had morphed into nothing more than an agent of death and destruction In the end Erwin Rommel was forced to die by his own hand not because as some would claim he had dabbled in a tyrannical conspiracy but because he had committed a far greater crime he dared to tell Adolf Hitler the truth In *Field Marshal* New York Times bestselling historian Daniel Allen Butler describes the swirling innovative campaigns in which Rommel won his military reputation and assesses the temper of the man who finally fought only for his country and no dark depths beyond Nazi Palestine Klaus-Michael Mallmann, Martin Cüppers, 2013-10-18 Well documented factual account of a planned genocide *Yad Vashem Studies* XXXIV David Silberklang, 2006 The Biography of Field Marshal Erwin Rommel Ward Rutherford, 1984 **The Blitzkrieg Legend** Karl-Heinz Frieser, 2013-04-11 Here for the first time in English is an illuminating new German perspective on the decisive Blitzkrieg campaign of 1940 Karl Heinz Frieser's account provides the definitive explanation for Germany's startling success and the equally surprising and rapid military collapse of France and Britain on the European continent In a little over a month Germany decisively defeated the Allies in battle a task that had not been achieved in four years of brutal fighting during World War I First published in 1995 as the official German history of the 1940 campaign in the west the book goes beyond standard explanations to show that German victory was not inevitable and French defeat was not preordained Contrary to the usual accounts of the campaign Frieser illustrates that the military systems of both Germany and France were solid and that their campaign planning was sound The key to victory or defeat he argues was the execution of operational plans both preplanned and ad hoc amid the eternal Clausewitzian combat factors of friction and the fog of war Frieser shows why on the eve of the campaign the British and French leaders had good cause to be confident and why many German generals were understandably concerned that disaster was looming for them This study explodes many of the myths concerning German Blitzkrieg warfare and the planning for the 1940 campaign A groundbreaking new interpretation of a

topic that has long interested students of military history it is being published in cooperation with the Association of the U S Army Dictionary of German Biography (DGB).
