Roots Of Disunity A Study Of Canadian Political Culture:

In Search of Canadian Political Culture Nelson Wiseman, 2011-11-01 What do we really mean by phrases such as western Canadian political culture the centrist political culture of Ontario Red Toryism in the Maritimes or Prairie socialism What historical geographical and sociological factors came into play as these cultures were forged In this book Nelson Wiseman addresses many such questions offering new ways of conceiving Canadian political culture The most thorough review of the national political ethos written in a generation In Search of Canadian Political Culture offers a bottom up regional analysis that challenges how we think and write about Canada *Political Culture and Constitutionalism: A Comparative Approach* Daniel P. Franklin, Michael J. Baun, 2016-09-16 This work is a cross national examination of the relationship between political culture and constitutionalism The countries studied include Nigeria Turkey and Japan Questions explored include whether constitutions must evolve and whether constitutionalism is only a western concept

The Roots of Disunity David V. J. Bell, Lorne Tepperman, 1979 Canada's Origins Janet Ajzenstat, Peter J. Smith, 1995 Ajzenstat and Smith challenge the idea of Canada as a country whose liberal individualism unlike that of the United States is redeemed by a tradition of government intervention in economic and social life the so called tory touch This ground breaking book begins with the now classic article in which the red tory view was formulated It then presents a new and illuminating picture of Canadian political life in which liberal individualism confronts not toryism but the participatory tradition of civic republicanism In the final section the two editors one a liberal the other a civic republican debate the crucial questions dominating Canadian politics today including Quebec's search for recognition from the perspective of their shared understanding of Canada's founding *Neoliberalism and National Culture* Cory Blad, 2011-09-20 Neoliberal globalization is understood to have a corrosive effect on the state Reductions in economic regulatory capacities combined with an ideological attack on the public necessity of social spending has left many with the impression that the state is a weakened institution at best This book argues that despite popular claims to the contrary global capitalism requires state institutional authority but the legitimization of this authority is increasingly tied to cultural rather than economic means Canada and Quebec are presented in historical comparative context as examples of how neoliberal states achieve global political economic integration while relying on cultural legitimation to maintain social policies working to mitigate social changes resulting from increased global integration National Dreams Daniel Francis, 2002-07-01 As Canadians we remember the stories told to us in high school history class as condensed images of the past the glorious Mountie the fearsome Native the Last Spike National Dreams is an incisive study of the most persistent icons and stories in Canadian history and how they inform our sense of national identity the fundamental beliefs that we Canadians hold about ourselves National Dreams is the story of our stories the myths and truths of our collective past that we first learned in school and which we carry throughout our adult lives as tangible evidence of what separates us from other nationalities Francis examines various aspects of this national

mythology in which history is as much storytelling as fact Textbooks were an important resource for Francis For me these books are interesting not because they explain what actually happened to us but because they explain what we think happened to us For example Francis documents how the legend of the CPR as a country sustaining national affirming monolith was created by the company itself a group of capitalists celebrating the privately owned railway albeit one which was generously supported with public land and cash and reiterated by most historians ever since Similarly we learn how the Mounties were transformed from historical police force to mythic heroes by a vast army of autobiographers historians novelists and Hollywood filmmakers with little attention paid to the true role of the force in such incidents as the Bolshevik rebellion in which a secret conspiracy by the Government against its people was conducted through the RNWMP Also revealed in *National Dreams* are the stories surrounding the formation and celebration of Canadian heroes such as Louis Riel and Billy Bishop

Paradiplomacy in Action Francisco Aldecoa, Dr Michael Keating, 2013-10-23 Offering a general view of the development of subnational foreign action around the world this work covers topics such as the repercussions upon subnational autonomy of the progressive constitution of international regimes such as the EU NAFTA and APEC

The Politics of Resentment Philip Resnick, Institute for Research on Public Policy, 2000 An examination of the role that British Columbia has played in the evolving Canadian unity debate Philip Resnick explores what makes British Columbia stand apart as a region of Canada and looks at the views of politicians opinion makers and ordinary citizens on various issues

Subversive Itinerary Shannon Bell, Peter Keith Kulchyski, 2013-01-01 *Subversive Itinerary* investigates the theoretical evolution of the influential political theorist Gad Horowitz as well as the historical impact of his ideas on Canadian life and letters Bringing together dynamic new works by both established and emerging scholars along with three new articles by Horowitz himself this volume examines the concepts he developed and extends his approach beyond the current historical moment The book includes a history of Horowitz's engagements as a public intellectual through appraisals of his early mid and late career contributions from the sixties to the present day Along the way the contributors present innovative new work in Canadian political thought continental theory Jewish philosophy Buddhism and radical general semantics *Subversive Itinerary* demonstrates how Horowitz's itinerary delivers invaluable tools for understanding issues of critical importance today

Global Fissures Clara A. B. Joseph, Janet Wilson, 2006 Contains analyses of literary texts written by among others Chinua Achebe Samuel Beckett James Joyce Michael Ondaatje George Orwell Salman Rushdie and Edward Said

From Culture to Ethnicity to Conflict Jack David Eller, 2025-10-01 In the post Cold War era the most common and often the most violent conflicts are ethnic conflicts Many people including many scholars see ethnic conflicts as a return to the past as contests between ancient and well defined groups with long standing grievances and animosities Jack David Eller argues instead that these conflicts are a defining phenomenon of the new world order that they are in many ways modern day inventions based only loosely on traditional cultures and hostilities *From Culture to Ethnicity to Conflict* presents in depth

case studies on Sri Lanka the Kurds Rwanda and Burundi Bosnia and Quebec along with two theoretical introductory chapters that offer the reader the tools to understand the relationship between culture or tradition and contemporary ethnic conflicts Eller finds that ethnicity is not a simple instantiation of traditional culture nor is conflict a simple consequence of ethnicity Rather each is constructed out of certain raw cultural materials through a process of remembering forgetting interpreting and inventing Ultimately Eller demonstrates these groups are fighting not about culture but with culture No other book combines the level of analysis offered here with in depth case studies of several important examples It will appeal to anyone with an interest in understanding these conflicts It will be assigned reading for students and scholars of cultural diversity and ethnic conflict in anthropology history political science and peace and conflict studies Jack David Eller is Assistant Professor of Anthropology University of Colorado Denver Teikyo Loretto Heights University *Muslims in the Diaspora* Rima Berns McGown,1999-01-01 Explores the balancing act of living as a Muslim in the west It is a comparison of the Somali communities in London England and Toronto and is based on a series of in depth interviews with over 80 Somali women men and teenagers in those cities *Rivals for Power: Ottawa and the Provinces* Ed Whitcomb,2017-05-01 Rivals for Power Ottawa and the Provinces tells the story of the politicians who continually contend over the division of power and money between Ottawa and the provinces The heroes and villains of this story include many of the leading lights of Canadian history from John A Macdonald Wilfred Laurier and Maurice Duplessis to Pierre Trudeau Joe Clark Bill Davis Peter Lougheed and Jean Chretien The unique feature of this book is its focus no matter what their policies Canadian politicians over the years have engaged in an ongoing push and pull over power with both successes and failures As Whitcomb sees it the success of the provinces at preventing Ottawa from becoming the overwhelming power in Canadian life has been the key to the country's stability and its cultural cohesion But the failure of the provinces to achieve an equal measure of power and the growing gap between the have and have not provinces stands as an ongoing challenge and threat to the country's unity

Looking West Loleen Berdahl,Roger Gibbins,2014-02-24 Although a history of protest politics has done so much to define western Canada and to place it outside the Canadian mainstream the aspirations and frustrations that animated western discontent over the years have been replaced by a new reality the West is in and many of the levers of national economic and political power rest in western Canadian hands The protest tradition has yielded a dynamic region that leads rather than reacts to national economic social and political change The westward shift of the Canadian economy and demography is likely to be an enduring structural change that reflects and is reinforced by the transformation of the continental and global economies At the same time western Canada faces major challenges including finding a place for a sustainable resource economy in a rapidly changing global environment establishing a full and modern partnership with Aboriginal peoples and creating urban environments that will attract and retain human capital None of these challenges are unique to the West but they all play out with great force and great immediacy in western Canada **Understanding**

Canadian Public Administration Gregory J. Inwood, 2025-03-07 Understanding Canadian Public Administration introduces students to both the theory and the practice of public administration in Canada. It surveys the basic elements of the field in a historical context but with close attention to contemporary issues and developments to emphasize the real day to day impacts of public administration. The text provides an overview of the field in the context of democratic government including a comparison of the roles of the private and public sectors. The real world of government is examined with a focus on how theoretical ideas are translated into practice. This fifth edition features updates on topical issues and new developments in the field including the impact of the Covid 19 pandemic on governmental policy and action as well as new and updated sections on Aboriginal self government, human resources, accountability, financial management and intergovernmental administrative relations. Understanding Canadian Public Administration invites students to examine the issues of public administration from their own viewpoints and through their own experiences, bringing the field to life and making it immediately relevant to their current context.

Why Regions Matter: Small Worlds in Comparative Perspective Ailsa Henderson, 2014-06-11 Bringing together experts on regionalism and federalism, this collection explores the impact of legislative regions on parties and voters. It reflects on the 1980 publication of *Small Worlds* by David Elkins and Richard Simeon, which outlined how and why voters and policies differ across Canadian provinces. Using recent data, the essays in this collection provide a comparative re-examination of the impact of regions. The book explores attitude divergence in Canada and in the US, the role and impact of regional parties in Quebec, Scotland and Bavaria, the impact of multi-level governance on how citizens understand and discharge their duties, and the capacity of sub-state political systems to influence general political attitudes. The result is an empirical and analytical contribution to regionalism and federalism studies that demonstrates how and why regions matter. This book was published as a special issue of *Regional and Federal Studies*.
